

ICDPS SUKUK LIMITED

(an exempted company incorporated with limited liability in the Cayman Islands)

TRUST CERTIFICATE ISSUANCE PROGRAMME

Under the trust certificate issuance programme (the "**Programme**") described in this base prospectus (the "**Base Prospectus**"), ICDPS Sukuk Limited (in its capacity as issuer and as trustee, the "**Trustee**"), subject to compliance with all relevant laws, regulations and directives, may from time to time issue trust certificates (the "**Trust Certificates**") in series (each a "**Series**"), which may comprise one or more tranches (each a "**Tranche**"), in any currency as agreed between the Trustee and the relevant Dealers (as defined below).

Each Tranche of Trust Certificates will be constituted by: (i) an amended and restated master trust deed (the "**Master Trust Deed**") dated 22 September 2025 entered into between the Trustee, the Islamic Corporation for the Development of the Private Sector (the "**ICD**") and The Law Debenture Trust Corporation p.l.c. acting as delegate of and attorney for the Trustee (the "**Delegate**"); and (ii) a corresponding supplemental trust deed ("**Supplemental Trust Deed**") and, together with the Master Trust Deed, the "**Trust Deed**") in relation to each Tranche of Trust Certificates issued. Trust Certificates of each Series confer on the holders of the Trust Certificates from time to time (the "**Certificateholders**") an undivided ownership interest in, and consequently the right to receive certain payments, on a *pro rata* basis (according to the face amount of Trust Certificates held by them) arising from, the relevant Trust Assets (as defined herein and as more particularly described herein).

The Trust Certificates will be limited recourse obligations of the Trustee. **An investment in Trust Certificates issued under the Programme involves certain risks. For a discussion of these risks see "Risk Factors".**

Certificateholders are entitled to receive Periodic Distribution Amounts (as defined in the terms and conditions of the Trust Certificates (the "**Terms and Conditions**")) calculated on the basis specified in the final terms relating to the relevant Tranche of Trust Certificates (the "**Final Terms**"). The payment of Periodic Distribution Amounts to Certificateholders will primarily depend upon the receipt by the Trustee from the ICD of all amounts due in respect of the Portfolio (as defined below) of the relevant Series of Trust Certificates comprising profit and the performance by the ICD of its obligations under the Programme Documents and the Transaction Documents to which it is a party.

Subject to the information provided herein, recourse in respect of the Trust Certificates is ultimately dependent on the performance of the ICD pursuant to the Programme Documents (as defined herein) and the Transaction Documents (as defined herein) to which it is a party.

This Base Prospectus has been approved by the Central Bank of Ireland (the "**Central Bank**") as competent authority under Regulation (EU) 2017/1129 (the "**Prospectus Regulation**"). The Central Bank only approves this Base Prospectus as meeting the standards of completeness, comprehensibility and consistency imposed by the Prospectus Regulation. Such approval should not be considered as an endorsement of the Trustee or the ICD nor as an endorsement of the quality of any Trust Certificates that are the subject of this Base Prospectus. Investors should make their own assessment as to the suitability of investing in any Trust Certificates. This Base Prospectus is valid for a period of 12 months from the date of approval.

Application has been made to the Irish Stock Exchange plc trading as Euronext Dublin ("**Euronext Dublin**") for Trust Certificates issued under this Programme during the period of 12 months from the date of this Base Prospectus to be admitted to listing on the official list of Euronext Dublin (the "**Official List**") and to trading on its regulated market. The regulated market of Euronext Dublin is a regulated market for the purposes of Directive 2014/65/EU (as amended, "**MiFID II**"). Such approval relates only to Trust Certificates which are to be admitted to trading on a regulated market for the purposes of MiFID II and/or which are to be offered to the public in any Member State of the European Economic Area ("**EEA**"). This Base Prospectus (as supplemented as at the relevant time, if applicable) is valid for 12 months from its date in relation to Trust Certificates which are to be admitted to trading on a regulated market in the EEA. The obligation to supplement this Base Prospectus in the event of a significant new factor, material mistake or material inaccuracy does not apply when this Base Prospectus is no longer valid.

The relevant Final Terms in respect of the issue of any Trust Certificates will specify whether or not such Trust Certificates will be admitted to Nasdaq Dubai in addition to being listed on the Official List and admitted to trading on Euronext Dublin. If any Trust Certificates are to be admitted to trading on any other stock exchange, such admission will be in addition (rather than an alternative) to being listed on the Official List and admitted to trading on Euronext Dublin.

The Trust Certificates will be delisted from the Official List and/or such other or further stock exchanges following the occurrence of a Tangibility Event, see Condition 11.5 (*Dissolution following a Tangibility Event*). The Trust Certificates will also be delisted in certain circumstances following the occurrence of a Total Loss Event, see Condition 11.6 (*Dissolution Following a Total Loss Event*).

Each of the Trustee and the ICD is an "Exempt Offeror" for the purposes of Article 13(1) of the DIFC Markets Law 2012 (the "**Markets Law 2012**"). Accordingly, the Trustee and the ICD are exempt from the requirement to produce a prospectus under Article 14 of the Markets Law 2012 and this Base Prospectus has not been approved by the Dubai Financial Services Authority (the "**DFSA**") for the purposes of the Markets Law 2012. Application has been made to the DFSA and to Nasdaq Dubai for Trust Certificates issued

under this Programme during the period of 12 months from the date of this Base Prospectus to be admitted to the official list of securities maintained by the DFSA (the "**DFSA Official List**") and to be admitted to trading on Nasdaq Dubai (referred to, together, as "**an admission to Nasdaq Dubai**"). An application may be made for any Series to be admitted to Nasdaq Dubai.

References in this Base Prospectus to the Trust Certificates being "**listed**" (and all related references) shall, unless the context otherwise requires, mean that: (a) such Trust Certificates have been admitted to trading on the regulated market of Euronext Dublin and have been admitted to the Official List; and/or (b) such Trust Certificates have been admitted to Nasdaq Dubai. The requirement to publish a prospectus under the Prospectus Regulation only applies to Trust Certificates which are to be admitted to trading on a regulated market in the EEA and/or offered to the public in the EEA other than in circumstances where an exemption is available under Article 1(4) and/or 3(2) of the Prospectus Regulation.

The Programme provides that Trust Certificates may be admitted to Nasdaq Dubai or listed or admitted to trading, as the case may be, on such other or further stock exchanges or markets as may be agreed between the Trustee and the relevant Dealer(s). The Trustee may also issue unlisted Trust Certificates and/or Trust Certificates not admitted to trading on any market.

Notice of the aggregate face amount of Trust Certificates and any other terms not contained herein which are applicable to each Tranche of Trust Certificates will be set out in the relevant Final Terms which (in the case of Trust Certificates to be listed on Euronext Dublin) will be delivered to Euronext Dublin and (in the case of Trust Certificates to be admitted to Nasdaq Dubai) will be delivered to the DFSA and Nasdaq Dubai. Copies of the Final Terms in relation to Trust Certificates to be listed on the Official List will also be published on the website of Euronext Dublin and, in the case of Trust Certificates to be admitted to Nasdaq Dubai, will also be published on the website of Nasdaq Dubai.

The Trust Certificates will be issued in registered form, initially in the form of a global trust certificate (the "**Global Trust Certificate**") which will be deposited with, and registered in the name of a nominee of, a common depositary for Euroclear Bank SA/NV ("**Euroclear**") and Clearstream Banking S.A. ("**Clearstream, Luxembourg**") on or about the relevant Issue Date (as specified in the relevant Final Terms of each Tranche). Interests in Trust Certificates in individual form will only be issued in exchange for interests in the Global Trust Certificate in the exceptional circumstances specified in the relevant Global Trust Certificate or as otherwise specified in the Final Terms applicable to the relevant Tranche.

The Trust Certificates have not been and will not be registered under the U.S. Securities Act of 1933, as amended (the "**Securities Act**") or with any securities regulatory authority of any state or other jurisdiction of the United States. The Trust Certificates may not be offered, sold, pledged or otherwise transferred directly or indirectly within the United States or to, or for the account or benefit of, U.S. Persons (as defined in Regulation S under the Securities Act ("**Regulation S**")) except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act and applicable state or local securities laws.

The transaction structure relating to the Trust Certificates (as described in this Base Prospectus) has been approved by the Shariah Board of the Islamic Development Bank Group (the "**IsDB Group Shariah Board**") as, in its view, complying with *Shari'a* principles as applicable to, and as interpreted by, them. Prospective Certificateholders should not rely on such approval in deciding whether to make an investment in the Trust Certificates and should consult their own *Shari'a* advisers as to whether any proposed transaction described in such approval, including the tradability of the Trust Certificates in the secondary market, is in compliance with their individual standards of compliance with *Shari'a* principles (including, without limitation, their individual standards of compliance relating thereto). Prospective Certificateholders are reminded that, as with any *Shari'a* views, differences in opinion are possible and different *Shari'a* standards may be applied by different *Shari'a* advisers.

Each of S&P Global Ratings Europe Limited ("**S&P**"), Moody's Investors Service, Inc. ("**Moody's**") and Fitch Ratings Ltd. ("**Fitch**") (together, the "**Rating Agencies**" and each, a "**Rating Agency**") has rated the ICD.

S&P is established in the European Union ("**EU**") and is registered under Regulation (EC) No. 1060/2009 (as amended) (the "**CRA Regulation**"). S&P is not established in the United Kingdom ("**UK**") and has not applied for registration under the CRA Regulations as it forms part of domestic law in the UK by virtue of the European (Withdrawal) Act 2018 (the "**EUWA**") (the "**UK CRA Regulation**"), though the rating issued by S&P referred to below has been endorsed by S&P Global Ratings UK Limited. S&P Global Ratings UK Limited is established in the UK and is registered in accordance with the UK CRA. Moody's is not established in the EU or the UK and has not applied for registration under the CRA Regulation or the UK CRA Regulation, though the rating issued by Moody's referred to below has been endorsed by Moody's Deutschland GmbH in accordance with the CRA Regulation and Moody's Investors Service Ltd. in accordance with the UK CRA Regulation. Moody's Deutschland GmbH is established in the EU and registered under the CRA Regulation. Moody's Investors Service Ltd. is established in the UK and registered under the UK CRA Regulation. Fitch is established in the UK and registered in accordance with the UK CRA Regulation. The rating issued by Fitch referred to below has been endorsed by Fitch Ratings Ireland Limited. Fitch Ratings Ireland Limited is established in the EU and registered under the CRA Regulation.

S&P has given the ICD a long-term issuer rating of 'A' with a stable outlook. Moody's has given the ICD a long-term issuer rating of 'A2' with a stable outlook and a short-term issuer rating of 'P-1'. Fitch has given the ICD a long-term issuer rating of 'A+' with a stable outlook and a short-term issuer rating of 'F1+'. S&P has assigned an 'A' rating in respect of the Programme, Moody's has assigned a '(P)A2' senior unsecured rating in respect of the Programme and Fitch has assigned an 'A+' rating in respect of the Programme. Trust Certificates issued under the Programme may be rated or unrated. Where a Series of Trust Certificates are rated, such rating will not necessarily be the same as the rating assigned to the Programme by the relevant Rating Agency described above or the rating(s) assigned to Trust Certificates already issued. Where a Series of Trust Certificates is rated, such rating will be disclosed in the relevant Final Terms. A security rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, reduction or withdrawal at any time by the assigning rating agency. A suspension, reduction or withdrawal of the rating assigned to the Trust Certificates may adversely affect the market price of the Trust Certificates. The Trustee has not requested a rating on the Trust Certificates by any rating agency other than the Rating Agencies.

The Trustee and the ICD may agree with any Dealer that Trust Certificates may be issued with terms and conditions not contemplated by the Terms and Conditions, in which event in the case of Trust Certificates, and if appropriate, a new Base Prospectus or a supplement to the Base Prospectus will be published.

IMPORTANT NOTICES

This Base Prospectus comprises a base prospectus in respect of all Trust Certificates for the purposes of the Prospectus Regulation.

Each of the Trustee and the ICD (together, the "**Responsible Persons**") accepts responsibility for the information contained in this Base Prospectus and the Final Terms for each Tranche of Trust Certificates issued under the Programme. Each Responsible Person declares that, to the best of its knowledge, the information contained in this Base Prospectus is in accordance with the facts and this Base Prospectus makes no omission likely to affect its import.

This Base Prospectus should be read and construed together with any amendments or supplements hereto and with any other documents incorporated by reference herein (see "*Documents Incorporated by Reference*"). In relation to any Tranche of Trust Certificates, this Base Prospectus should be read and construed together with the relevant Final Terms.

Copies of the relevant Final Terms will be available from the registered office of the Trustee and the specified office set out below of the Principal Paying Agent (as defined below) save that, if the relevant Trust Certificates are neither admitted to trading on Euronext Dublin nor admitted to Nasdaq Dubai, the relevant Final Terms will only be obtainable by a Certificateholder holding one or more Trust Certificates and such Certificateholders must produce evidence satisfactory to the Trustee or, as the case may be, the Principal Paying Agent as to its holding of such Trust Certificates.

If you do not understand the contents of this Base Prospectus or are unsure whether any Trust Certificates issued under this Base Prospectus are suitable for your individual investment objectives and circumstances, you should consult an authorised financial adviser.

No person is or has been authorised to give any information or make any representation not contained in or not consistent with this Base Prospectus or any other information supplied in connection with the Programme or the Trust Certificates and, if given or made, such information or representation must not be relied upon as having been authorised by the Trustee, the ICD, the Dealers (as defined in the "*General Description of the Programme*"), the Delegate, the Agents (as defined herein), or any other person. Neither the delivery of this Base Prospectus nor any Final Terms nor the offering or sale of any Trust Certificate hereunder shall, under any circumstances, constitute a representation or create any implication that there has been no change in the affairs of the Trustee or the ICD since the date hereof. Neither this Base Prospectus nor any other information supplied in connection with the Programme or the issue of any Trust Certificates constitutes an offer of, or an invitation by, or on behalf of, the Trustee, the ICD, the Dealers, the Delegate or the Agents to subscribe for, or purchase any Trust Certificates. This Base Prospectus does not constitute an offer, and may not be used for the purposes of an offer to, or a solicitation by, anyone in any jurisdiction or in any circumstances in which such an offer or solicitation is not authorised or is unlawful.

The Dealers, the Agents and the Delegate have not independently verified the information contained herein. Accordingly, no representation, warranty or undertaking, express or implied, is made and no responsibility or liability is accepted by the Dealers, the Delegate or the Agents or any of them: (i) as to the accuracy or completeness of the information contained or incorporated by reference in this Base Prospectus or of any other information provided by the Trustee or the ICD in connection with the Programme, the Trust Certificates or their distribution; or (ii) for any acts or omissions of the Trustee or the ICD or any other person (other than the relevant Dealer, the Delegate or the relevant Agent in respect of itself only) in connection with the Base Prospectus or the issue and offering of any Trust Certificates under the Programme.

Neither this Base Prospectus nor any other information supplied in connection with the Programme or any Trust Certificates: (a) is intended to provide the basis of any credit or other evaluation; or (b) should be considered as a recommendation by the Trustee, the ICD, the Dealers or any of their affiliates, the Delegate, the Agents or any other person that any recipient of this Base Prospectus or any other information supplied in connection with the Programme or any Trust Certificates should purchase any of the Trust Certificates. Each investor contemplating purchasing Trust Certificates should make its own independent investigation of the financial condition and affairs, and its own appraisal of the creditworthiness, of the Trustee and/or the ICD. This Base Prospectus may only be used for the purposes for which it has been published.

No comment is made or advice given by the Trustee, the ICD, the Dealers, the Delegate, the Agents or any other person in respect of taxation matters relating to any Trust Certificates or the legality of the purchase of Trust Certificates by an investor under applicable or similar laws.

Prospective purchasers must comply with all laws that apply to them in any place in which they buy, offer or sell any Trust Certificates or possess this Base Prospectus. Any consents or approvals that are needed in order to purchase any Trust Certificates must be obtained prior to the deadline specified for any such consent or approval. The Trustee, the ICD, the Dealers, the Delegate, the Agents and their affiliates are not responsible for compliance with these legal requirements.

EACH PROSPECTIVE INVESTOR IS ADVISED TO CONSULT ITS OWN TAX ADVISER, *SHARI'A* ADVISER, LEGAL ADVISER AND BUSINESS ADVISER AS TO TAX, *SHARI'A*, LEGAL, BUSINESS AND RELATED MATTERS CONCERNING THE PURCHASE OF ANY TRUST CERTIFICATES.

Any term used in this Base Prospectus which is not compliant with *Shari'a* principles has been included to give the correct meaning to a particular statement or a Condition and does not impact the *Shari'a*-compliant nature of the Trust Certificates, the Programme Documents or the Transaction Documents. The Trust Certificates may not be a suitable investment for all investors. Each prospective investor in Trust Certificates must determine the suitability of that investment in light of its own circumstances. In particular, each prospective investor should consider, either on its own or with the help of its financial and other professional advisers, whether it:

- has sufficient knowledge and experience to make a meaningful evaluation of the Trust Certificates, the merits and risks of investing in the Trust Certificates and the information contained or incorporated by reference in this Base Prospectus or any applicable supplement;
- has access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the Trust Certificates and the impact the Trust Certificates will have on its overall investment portfolio;
- has sufficient financial resources and liquidity to bear all of the risks of an investment in the Trust Certificates, including where the currency of payment is different from the prospective investor's currency;
- understands thoroughly the terms of the Trust Certificates and is familiar with the behaviour of any relevant indices and financial markets; and
- is able to evaluate possible scenarios for economic and other factors that may affect its investment and its ability to bear the applicable risks.

Legal investment considerations may restrict certain investments. The investment activities of certain investors are subject to applicable investment laws and regulations, or review or regulation by certain authorities. Each prospective investor should consult its legal advisers to determine whether and to what extent: (1) Trust Certificates are legal investments for it; (2) Trust Certificates can be used as collateral for various types of financings; and (3) other restrictions apply to its purchase or pledge of any Trust Certificates. Financial institutions should consult their legal advisers or the appropriate regulators to determine the appropriate treatment of Trust Certificates under any applicable risk-based capital or similar rules.

In making an investment decision, investors must rely on their own examination of the Trustee, the ICD and the terms of the Trust Certificates being offered, including the merits and risks involved. Neither the Programme nor the Trust Certificates have been approved or disapproved by the United States Securities and Exchange Commission or any other securities commission or other regulatory authority in the United States, nor have the foregoing authorities passed upon or endorsed the merits of the offering of the Trust Certificates or approved this Base Prospectus or confirmed the accuracy or determined the adequacy of the information contained in this Base Prospectus. Any representation to the contrary is a criminal offence in the United States.

Neither the delivery of this Base Prospectus nor the offering, sale or delivery of any Trust Certificates shall in any circumstances imply that the information contained herein concerning the Trustee or the ICD is

correct at any time subsequent to the date hereof or that any other information supplied in connection with the Programme is correct as of any time subsequent to the date indicated in this document containing the same. The Dealers, the Delegate and the Agents do not expressly undertake to review the financial condition or affairs of the Trustee or the ICD during the life of the Programme or to advise any investor in Trust Certificates issued under the Programme of any information coming to their attention.

The Trust Certificates have not been, and will not be, registered under the Securities Act. Subject to certain exceptions, Trust Certificates may not be offered or sold within the United States or to or for the benefit or account of U.S. persons (as defined in Regulation S) (see "*Subscription and Sale*").

This Base Prospectus does not constitute an offer to sell or the solicitation of any offer to buy any Trust Certificates in any jurisdiction to any person to whom it is unlawful to make the offer or solicitation in such jurisdiction. The distribution of this Base Prospectus and the offer or sale of Trust Certificates may be restricted by law in certain jurisdictions. The Trustee, the ICD, the Dealers, the Delegate and the Agents do not represent that this Base Prospectus may be lawfully distributed, or that any Trust Certificates may be lawfully offered, in compliance with any applicable registration or other requirements in any such jurisdiction, or pursuant to an exemption available thereunder, or assume any responsibility for facilitating any such distribution or offering. In particular, no action has been taken by the Trustee, the ICD, the Dealers, the Delegate or the Agents which is intended to permit a public offering of any Trust Certificates or distribution of this Base Prospectus in any jurisdiction where action for that purpose is required. Accordingly, no Trust Certificates may be offered or sold, directly or indirectly, and neither this Base Prospectus nor any advertisement or other offering material may be distributed or published in any jurisdiction, except under circumstances that will result in compliance with any applicable laws and regulations. Persons into whose possession this Base Prospectus, any Final Terms or any Trust Certificates may come must inform themselves about, and observe, any such restrictions on the distribution of this Base Prospectus and the offering and sale of Trust Certificates. In particular, there are restrictions on the distribution of this Base Prospectus and the offer or sale of Trust Certificates in the United States, the European Economic Area (the "EEA"), the UK, the Cayman Islands, the United Arab Emirates (excluding the Dubai International Financial Centre (the "DIFC") and the Abu Dhabi Global Market (the "ADGM")), the DIFC, the ADGM, the State of Kuwait, the Kingdom of Saudi Arabia, the Kingdom of Bahrain, the State of Qatar (including the Qatar Financial Centre), Singapore, Hong Kong and the People's Republic of China (see "*Subscription and Sale*").

MiFID II PRODUCT GOVERNANCE/TARGET MARKET – The Final Terms in respect of any Tranche of Trust Certificates may include a legend entitled "*MiFID II Product Governance*" which will outline the target market assessment in respect of the Trust Certificates and which channels for distribution of the Trust Certificates are appropriate. Any person subsequently offering, selling or recommending the Trust Certificates (a "**distributor**") should take into consideration the target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Trust Certificates (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the Product Governance rules under EU Delegated Directive 2017/593 (the "**MiFID II Product Governance Rules**"), any Dealer subscribing for any Trust Certificates is a manufacturer in respect of such Trust Certificates, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the MiFID II Product Governance Rules.

UK MiFIR PRODUCT GOVERNANCE/TARGET MARKET – The Final Terms in respect of any Tranche of Trust Certificates may include a legend entitled "*UK MiFIR Product Governance*" which will outline the target market assessment in respect of the Trust Certificates and which channels for distribution of the Trust Certificates are appropriate. Any person subsequently offering, selling or recommending the Trust Certificates (a "**UK distributor**") should take into consideration the target market assessment; however, a UK distributor subject to the FCA Handbook Product Intervention and Product Governance Sourcebook (the "**UK MiFIR Product Governance Rules**") is responsible for undertaking its own target market assessment in respect of the Trust Certificates (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the UK MiFIR Product Governance Rules, any Dealer subscribing for any Trust Certificates is a manufacturer in respect

of such Trust Certificates, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the UK MiFIR Product Governance Rules.

NOTIFICATION UNDER SECTION 309B(1)(C) OF THE SECURITIES AND FUTURES ACT 2001 OF SINGAPORE, AS MODIFIED OR AMENDED FROM TIME TO TIME – Unless otherwise stated in the applicable Final Terms in respect of any Trust Certificates, the Trust Certificates are prescribed capital markets products (as defined in the Securities and Futures (Capital Markets Products) Regulations 2018 of Singapore and Excluded Investment Products (as defined in Singapore Monetary Authority (the "MAS") Notice SFA 04-N12: Notice on the Sale of Investment Products and MAS Notice FAA-N16: Notice on Recommendations on Investment Products).

EU BENCHMARKS REGULATION – Amounts payable on Trust Certificates in respect of which Floating Periodic Distribution Amount Provisions are specified as applicable in the relevant Final Terms will be calculated by reference to one or more reference rates. Any such reference rate may constitute a benchmark for the purposes of Regulation (EU) 2016/1011 (the "**EU Benchmarks Regulation**"). In the case of Trust Certificates, if any such reference rate does constitute such a benchmark, the relevant Final Terms will indicate whether or not the benchmark is provided by an administrator included in the register of administrators and benchmarks established and maintained by the European Securities and Markets Authority ("**ESMA**"). The registration status of any administrator under the EU Benchmarks Regulation is a matter of public record and, save where required by applicable law, the Trustee or the ICD do not intend to update the Final Terms to reflect any change in the registration status of the administrator.

The Consolidated Financial Statements are presented in U.S. Dollars.

The Consolidated Financial Statements have been prepared in accordance with the Financial Accounting Standards issued by the Accounting and Auditing Organisation for Islamic Financial Institutions ("**AAOIFI**") and the Shari'a rules and principles as determined by the IsDB Group Shari'a Board. For matters which are not covered by the Financial Accounting Standards issued by the AAOIFI, the ICD seeks guidance from the relevant International Financial Reporting Standards ("**IFRS**") issued or adopted by the International Accounting Standards Board ("**IASB**") and the relevant interpretation issued by the International Financial Reporting Interpretations Committee of IASB ("**IFRIC**"), provided they do not contradict the rules and principles of Shari'a as determined by the IsDB Group Shari'a Board.

The comparative financial information of the Group as at and for the year ended 31 December 2023 included in the Base Prospectus, has been derived from the 2024 Consolidated Financial Statements.

Each of the financial statements have not been prepared in accordance with the International Accounting Standards adopted pursuant to the procedure of Article 3 of Regulation No. 1606/2002 of the European Parliament and of the Council of 19 July 2002 on the application of international accounting standards ("Regulation No. 1606/2002") and there may be material differences in the financial information in the financial statements had Regulation No 1606/2002 been applied to the historical financial information in the financial statements.

Certain differences exist between the Financial Accounting Standards issued by AAOIFI and IFRS which might be material to the financial information herein. The matters described in this Base Prospectus summarise certain differences between the Financial Accounting Standards issued by AAOIFI and IFRS that may be material.

The ICD has not prepared a complete reconciliation of its financial statements and related footnote disclosures between the Financial Accounting Standards issued by AAOIFI and IFRS and has not quantified such differences. In making an investment decision, investors must rely upon their own examination of the Group, the terms of the Programme and the financial information. Potential investors should consult their own professional advisers for an understanding of the differences between the Financial Accounting Standards issued by AAOIFI and IFRS, and how those differences might affect the financial information herein.

Capitalised terms which are used but not defined in any particular section of this Base Prospectus will have the meaning attributed to them in the Terms and Conditions or any other section of this Base Prospectus. In this Base Prospectus all references to: (i) "\$", "U.S.\$" or "U.S. Dollars" are to the lawful currency of the United States of America; (ii) "£", "GBP" and "Sterling" are to United Kingdom pounds sterling; (iii) "€", "EUR" or "euro" are to the single currency introduced at the start of the third stage of European Economic and Monetary Union pursuant to the Treaty establishing the European Community, as amended; and (iv) "Renminbi", "RMB" or "CNY" are to the lawful currency of the People's Republic of China (the "PRC") (which, for the purposes of this Base Prospectus, excludes the Hong Kong Special Administrative Region of the PRC, the Macau Special Administrative Region of the PRC and Taiwan).

Certain figures and percentages included in this Base Prospectus have been subject to rounding adjustments; accordingly figures shown in the same category presented in different tables may vary slightly and figures shown as totals in certain tables may not be an arithmetic aggregation of the figures which precede them.

In this Base Prospectus, references to any statutory provision shall, unless the context otherwise requires, be deemed also to refer to any statutory modifications or re-enactments thereof and to any statutory instruments, orders or regulations made thereunder or under any such re-enactments.

ALTERNATIVE PERFORMANCE MEASURES

In this Base Prospectus, the Group uses the following metrics in the analysis of its operations and financial position, which it considers to constitute Alternative Performance Measures as defined in the European Securities and Markets Authority Guidelines on Alternative Performance Measures.

Metric	Definition and method of calculation	Rationale
Debt/equity	Total funding divided by total members' equity. Total funding, for this purpose, is comprised of Sukuk issued and Commodity Murabaha liabilities. Information on Sukuk issued, Commodity Murabaha liabilities and total members' equity is provided in the consolidated statement of financial position in the 2024 Consolidated Financial Statements.	Leverage measure. The number indicates how much funding the Group is using to finance its assets relative to the amount of value represented in members' equity. A low number would indicate that the Group is using less leverage and has a stronger equity position.
Liquidity portfolio/total assets	The sum of: (i) cash and cash equivalents (excluding the bank balance relating to ICD Solidarity Fund); (ii) Commodity Murabaha and Wakala placements; and (iii) Investment in sukuk, divided by total assets.	Liquidity measure. This ratio is an important liquidity management tool to assess on an ongoing basis the proportion of the Group's assets that can be liquidated into cash quickly in order to support its operations. A higher percentage would indicate that the Group has a better ability to convert assets into cash to support its operations.

Information on Investment in sukuk is provided in Note 7 "Investments in sukuk, shares and other securities" of the 2024 Consolidated Financial Statements. Information on Sukuk issued and Commodity Murabaha	Liquidity measure. The ratio compares the liquid portfolio accumulated by the Group against its existing short-term liabilities. A high percentage would indicate that the Group has a better ability to satisfy its short-term financial obligations using its liquid portfolio.

Metric	Definition and method of calculation	Rationale
	liabilities with maturities of 12 months or less is provided in Note 29 "Contractual maturities of assets and liabilities" of the 2024 Consolidated Financial Statements.	
Ratio of total credit impaired financing assets to total gross financing assets	This ratio is calculated by dividing the total credit impaired financing assets by total gross financing assets. The total credit impaired financing assets is the sum of the Stage 3 expected credit loss ("ECL") for: (a) Murabaha financing; (b) Instalment sales receivables; (c) Ijarah Muntahia Bittamleek and (d) Istisna'a receivable provided in Note 31 "Risk Management" under sub-section "Credit Risk" and "Exposure Amounts and ECL coverage" of the 2024 Consolidated Financial Statements. The total gross financing assets is the sum of gross carrying amount before ECL of: (i) Murabaha receivables; (ii) Instalment sales receivables; (iii) Ijarah Muntahia Bittamleek; (iv) Istisna'a receivable provided in Note 31 "Risk Management" under sub-section "Credit Risk" and "Exposure Amounts and ECL coverage" of the 2024 Consolidated Financial Statements.	Asset quality measure. This ratio is used to determine the asset quality of the Group's financing portfolio. For example, a lower percentage, compared to the preceding year's percentage, would indicate that the quality of Group's total financing assets has improved.

These Alternative Performance Measures are not defined by, or presented in accordance with, AAOIFI. The Alternative Performance Measures are not measurements of the Group's operating performance under AAOIFI and should not be considered as alternatives to any measures of performance under AAOIFI or as measures of the Group's liquidity. It is to be noted that, since not all companies calculate financial measurements in the same manner, these are not always comparable to measurements used by other companies.

VOLCKER RULE

The Volcker Rule, which became effective on 1 April 2014, but was subject to a conformance period for certain entities that concluded on 21 July 2015, generally prohibits "banking entities" (which is broadly defined to include U.S. banks and bank holding companies and many non-U.S. banking entities, together with their respective subsidiaries and other affiliates) from: (i) engaging in proprietary trading; (ii) acquiring or retaining an ownership interest in or sponsoring a "covered fund"; and (iii) entering into certain relationships with "covered funds". The general effects of the Volcker Rule remain uncertain; any prospective investor in the Trust Certificates and any entity that is a "banking entity" as defined under the Volcker Rule which is considering an investment in the Trust Certificates should consult its own legal advisers and consider the potential impact of the Volcker Rule in respect of such investment. If investment by "banking entities" in the Trust Certificates is prohibited or restricted by the Volcker Rule, this could impair the marketability and liquidity of such Trust Certificates. No assurance can be made as to the effect of the Volcker Rule on the ability of certain investors subject thereto to acquire or retain an interest in the Trust Certificates, and accordingly none of the Trustee, the ICD, the Arranger, the Dealers, the Delegate, the Agents or

any of their respective affiliates makes any representation regarding: (a) the status of the Trustee under the Volcker Rule (including whether it is a "covered fund" for their purposes); or (b) the ability of any purchaser to acquire or hold the Trust Certificates, now or at any time in the future.

NOTICE TO UK RESIDENTS

In order to constitute "alternative finance investment bonds" ("AFIBs") within the meaning of Article 77A of the Financial Services and Markets Act 2000 (Regulated Activities) Order 2001 (SI 2001/544), as amended, Trust Certificates issued under the Programme will need to satisfy (amongst other requirements) one of the conditions mentioned in paragraph (2)(f) of that Article, which includes that, if such Trust Certificates are issued after 31 December 2020, they will need to be admitted to trading on a recognised investment exchange or a UK trading venue or admitted to the official list of the FCA. Any Trust Certificates which do not constitute AFIBs will represent interests in a collective investment scheme (as defined in the FSMA) which has not been authorised, recognised or otherwise approved by the FCA. Accordingly, this Base Prospectus is not being distributed to, and must not be passed on to, the general public in the UK.

The distribution in the UK of this Base Prospectus, any Final Terms and any other marketing materials relating to the Trust Certificates is being addressed to, or directed at: (i) if the distribution of the Trust Certificates (whether or not such Trust Certificates are AFIBs) is being effected by a person who is not an authorised person under the FSMA, only the following persons: (a) persons who are "Investment Professionals" as defined in Article 19(5) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005 (the "Financial Promotion Order"); (b) persons falling within any of the categories of persons described in Article 49(2)(a)-(d) (*High net worth companies, unincorporated associations, etc.*) of the Financial Promotion Order; and (c) any other person to whom it may otherwise lawfully be made in accordance with the Financial Promotion Order; and (ii) if the Trust Certificates are not AFIBs and the distribution is effected by a person who is an authorised person under the FSMA, only the following persons: (a) persons falling within one of the categories of "Investment Professional" as defined in Article 14(5) of the Financial Services and Markets Act 2000 (Promotion of Collective Investment Schemes) (Exemptions) Order 2001 (the "Promotion of CISs Order"); (b) persons falling within any of the categories of person described in Article 22 (*High net worth companies, unincorporated associations, etc.*) of the Promotion of CISs Order; and (c) any other person to whom it may otherwise lawfully be promoted.

Persons of any other description in the UK may not receive and should not act or rely on this Base Prospectus, any Final Terms or any other marketing materials in relation to the Trust Certificates.

Prospective investors in the UK in any Trust Certificates are advised that all, or most, of the protections afforded by the UK regulatory system will not apply to an investment in such Trust Certificates and that compensation will not be available under the UK Financial Services Compensation Scheme. Any prospective investor intending to invest in any investment described in this Base Prospectus should consult its professional adviser and ensure that it fully understands all the risks associated with making such an investment and that it has sufficient financial resources to sustain any loss that may arise from such investment.

GENERAL DESCRIPTION OF THE PROGRAMME

The following is an overview of the principal features of the Programme. This overview does not contain all the information that an investor should consider before investing in the Trust Certificates and is qualified in its entirety by the remainder of this Base Prospectus and the relevant Final Terms. Each investor should read the entire Base Prospectus and the relevant Final Terms carefully, especially the risks of investing in the Trust Certificates issued under the Programme discussed under "Risk Factors". The Trustee, the ICD, the Arranger and any relevant Dealer may agree that Trust Certificates shall be issued in a form other than that contemplated in the Terms and Conditions, in which event in the case of Trust Certificates, and if appropriate, a new Base Prospectus or a supplement to the Base Prospectus will be published.

Reference to a "Condition" is to a numbered condition of the "Terms and Conditions of the Trust Certificates". Words and expressions defined in "Form of Trust Certificates" and "Terms and Conditions of the Trust Certificates" shall have the same meanings in this general description.

The Programme provides a facility for the issuance of Trust Certificates in Series, which may comprise one or more Tranches. The terms and conditions governing each Tranche of Trust Certificates will be the "Terms and Conditions of the Trust Certificates" as described herein, as completed by the relevant Final Terms. The following is a summary of the principal features of the Trust Certificates.

Structure Diagram and Cashflows

On the occasion of each issuance of Trust Certificates, the Trustee will receive contributions from the Certificateholders representing the proceeds of the issue of the corresponding Trust Certificates (the "**Issuance Proceeds**") in the amount specified in the relevant Supplemental Trust Deed.

The Trustee has agreed to apply, on each occasion on which Trust Certificates are issued and in respect of the relevant Tranche of Trust Certificates only, the net Issuance Proceeds of such Trust Certificates as follows:

- (i) an amount as specified in the relevant Final Terms, which shall be equal to or no less than 55 per cent. of the aggregate face amount of the relevant Trust Certificates, to ICD (in its capacity as seller, the "**Seller**") as the purchase price payable pursuant to the Master Purchase Agreement and the relevant Supplemental Purchase Agreement for the purchase from ICD of all its interest, title, right and benefit in, to and under certain eligible tangible assets comprising: (a) underlying assets

(being existing assets) which are subject to ijara contracts where the ICD, as lessor, leases property to a lessee in respect of which regular rental payments are due from the lessee (and includes any ancillary rights under such ijara contracts) ("**Leased Assets**"); (b) sukuk certificates that are owned by the ICD and meet the *Shari'a* requirements of tradability determined by AAOIFI as interpreted by the IsDB Group Shariah Board (and the assets underlying those sukuk certificates) ("**Sukuk**") representing sukuk that is tangible in its entirety or sukuk with a minimum tangibility requirement; and/or (c) income generating assets derived from a financing provided by the ICD (as principal or muwakil) to its customers under a service agency (wakala) arrangement entered into between the ICD and the relevant customer where funds provided to the agent are invested in fixed tangible assets ("**Wakala Assets**") (in the case of the first Tranche of the relevant Series of Trust Certificates, the "**Initial Asset Portfolio**" or, in the case of any issue of additional Trust Certificates pursuant to Condition 22, the "**Additional Assets**"); and

- (ii) the remaining portion of the Issuance Proceeds as specified in the relevant Final Terms (and which shall be equal to: (a) the Intangible Asset Percentage specified in the relevant Final Terms of the aggregate face amount of the Trust Certificates of that Tranche; *less* (b) the value of the intangible sukuk assets comprising the Portfolio Assets (as defined below) on the Issue Date of that Tranche) to purchase certain *Shari'a*-compliant commodities (the "**Commodities**") through a commodity agent (the "**Commodity Agent**") and the Trustee will sell such Commodities to ICD (in its capacity as buyer, the "**Buyer**") on a deferred payment basis for a sale price specified in an offer notice (the "**Deferred Payment Price**") pursuant to the Master Murabaha Agreement and the relevant Murabaha Contract (such sale of *Shari'a*-compliant commodities by the Trustee to the Buyer, the "**Commodity Murabaha Investment**").

In relation to a Series, the Initial Asset Portfolio, (if applicable) the Additional Assets and (if applicable) each Commodity Murabaha Investment and all other rights arising under or with respect thereto (including the right to receive payment of profit, rental, Deferred Payment Price and any other amounts due in connection therewith) shall comprise the "**Portfolio**" in respect of such Series, and the Initial Asset Portfolio, (if applicable) the Additional Assets and any other eligible Portfolio Assets acquired by the Trustee or on the Trustee's behalf in accordance with the terms of any Programme Document or Transaction Document (including any Principal Collections (as defined below) related to that Series standing to the credit of the Principal Account (as defined below)) and comprised in such Portfolio from time to time shall be the "**Portfolio Assets**".

Pursuant to the Master Trust Deed and the relevant Supplemental Trust Deed(s) in respect of the relevant Series of Trust Certificates (together, the "**Trust Deed**"), the Trustee will declare a trust (each, a "**Trust**") over the Trust Assets of that Series. Each Trust will be declared for the benefit of the Certificateholders of the relevant Series. The Trustee shall carry out the activities of the Trust in accordance with the Trust Deed. In accordance with the Trust Deed, the Trustee will unconditionally and irrevocably appoint the Delegate to be its attorney and to exercise certain future duties, powers, trusts, authorities and discretions vested in the Trustee by certain provisions in the Trust Deed and in accordance with the terms of the Trust Deed at all times.

The Trustee has appointed the ICD (in its capacity as the service agent, the "**Service Agent**") to perform certain services (the "**Services**") in respect of the Portfolio of each Series of Trust Certificates pursuant to the Master Service Agency Agreement and the relevant Supplemental Service Agency Agreement(s). On the date of each Supplemental Service Agency Agreement, the Service Agent shall receive a nominal fee of U.S.\$100 as a basic fee. In addition, under the Master Service Agency Agreement the ICD and the Trustee have agreed that any remaining amounts available after application of the order of priorities set out in Condition 5.2 (*Application of Proceeds from Trust Assets*) in respect of each Series of Trust Certificates may be retained by the Service Agent as an incentive fee (the "**Incentive Fee**").

In relation to each Series, all revenues and amounts payable in respect of the Portfolio Assets and all amounts payable in connection with the Commodity Murabaha Investment (the "**Deferred Payment Price Instalment**") (together, the "**Collections**") will be recorded by the Service Agent: (1) in the case of Collections corresponding to the capital component or principal component of the Portfolio (including any Collections arising as a result of sale, capital, principal or insurance/takaful payments generated from, or early or final redemption of, any of the Portfolio Assets) (the "**Principal Collections**"), into a ledger account with the Service Agent (the "**Principal Account**"); and (2) in the case of Collections corresponding to the payment of the return, distribution, profit, gain or benefit component of collections received in respect of the relevant Portfolio (including any Deferred Payment Price Instalments) (the "**Profit Collections**"),

into a ledger account with the Service Agent (the "**Profit Account**"). On the Business Day immediately prior to the relevant Periodic Distribution Date (the "**Portfolio Distribution Determination Date**"), the Service Agent shall pay into the relevant Transaction Account amounts standing to the credit of the Profit Account, which is intended to fund an amount equal to the aggregate of the Periodic Distribution Amounts payable by the Trustee under the Trust Certificates of the relevant Series on the immediately following Periodic Distribution Date (the "**Required Amount**") and such Required Amount will be applied by the Trustee for that purpose.

In the event that the amounts standing to the credit of the Profit Account are greater than the Required Amount, the amount of any excess shall be credited by the Service Agent to a ledger account (the "**Reserve Account**"). If the amount standing to the credit of the Transaction Account on a Portfolio Distribution Determination Date is insufficient to fund the Required Amount, the Service Agent shall apply amounts standing to the credit of the Reserve Account towards such shortfall, by paying an amount equal to the same into the Transaction Account. If having applied such amounts from the Reserve Account, there remains a shortfall, the Service Agent may, in its sole discretion, provide either: (x) *Shari'a*-compliant funding to the Trustee itself; or (y) *Shari'a*-compliant funding from a third party to be paid to the Trustee, in each case, in an amount equal to the shortfall remaining (if any) (each a "**Liquidity Facility**") on terms that such funding is payable from: (A) Collections received in respect of a subsequent period; or (B) the Sale Undertaking Deed Exercise Price payable pursuant to the terms of the Sale Undertaking Deed or the Purchase Undertaking Deed Exercise Price payable pursuant to the terms of the Purchase Undertaking Deed, as the case may be, on the relevant Dissolution Date on which the Trust Certificates of the relevant Series are redeemed in full.

In relation to any Trust Certificate where the relevant Final Terms provide for Condition 11.2 (*Redemption by Instalments*) as being applicable, such Trust Certificates shall be partially redeemed on each Instalment Date at the related Instalment Amount specified in the relevant Final Terms. The outstanding face amount of each such Trust Certificate shall be reduced by the Instalment Amount (or, if such Instalment Amount is calculated by reference to a proportion of the face amount of such Trust Certificate, such proportion) with effect from the related Instalment Date. On each Instalment Date, the Service Agent shall pay into the relevant Transaction Account the relevant proportion of the amounts standing to the credit of the Principal Account and the relevant proportion of the Deferred Payment Price payable pursuant to the Master Murabaha Agreement. Such amounts, together, are intended to fund an amount equal to the aggregate of the Instalment Amounts payable by the Trustee under such Trust Certificates of the relevant Series on the immediately following Periodic Distribution Date and will be applied by the Trustee for that purpose.

The Trust Certificates in relation to any Series shall be redeemed on the Maturity Date. Prior to the Maturity Date, the Trust Certificates of any Series may be redeemed: (i) at the option of the Trustee, pursuant to Condition 11.3 (*Early Dissolution for Tax Reasons*); (ii) if so specified in the relevant Final Terms, at the option of the Trustee pursuant to Condition 11.4 (*Dissolution at the Option of the Trustee*); (iii) at the option of the Certificateholders, pursuant to Condition 11.5 (*Dissolution following a Tangibility Event*); (iv) unless the relevant Portfolio Assets have been replaced in accordance with the Master Service Agency Agreement, following a Total Loss Event in accordance with Condition 11.6 (*Dissolution following a Total Loss Event*); (v) at the option of the Trustee, pursuant to Condition 11.7 (*Clean Up Call Right*); or (vi) upon the occurrence of a Dissolution Event, pursuant to Condition 15 (*Dissolution Events*). In each such case except in the case of paragraph (iv) above:

- (a) the aggregate amount of Deferred Payment Price then outstanding, if any, shall become immediately due and payable; and
- (b) the Trustee will have the right under the Purchase Undertaking Deed to require ICD to purchase all of the Trustee's interest, title, right and benefit in, to and under the relevant Portfolio Assets at the relevant Purchase Undertaking Deed Exercise Price or, as the case may be, the ICD will have the right under the Sale Undertaking Deed to require the Trustee to transfer and assign all of the Trustee's interest, title, right and benefit in, to and under the relevant Portfolio Assets at the relevant Sale Undertaking Deed Exercise Price,

and such amounts (payable into the Transaction Account) are intended to fund the relevant Dissolution Amount payable by the Trustee under the Trust Certificates of the relevant Series.

Such Purchase Undertaking Deed Exercise Price or, as the case may be, Sale Undertaking Deed Exercise Price shall be an amount equal to the aggregate of:

- (1) the aggregate face amount of the relevant Trust Certificates being redeemed; plus
- (2) an amount equal to all due and unpaid Periodic Distribution Amounts (if any) relating to such Trust Certificates; plus
- (3) without double counting, any other amounts payable on redemption of such Trust Certificates as specified in the relevant Final Terms (if any); plus
- (4) (if all of the Trust Certificates of the relevant Series are being redeemed) to the extent not previously satisfied in accordance with the Master Service Agency Agreement, an amount equal to the sum of any outstanding: (x) amounts payable to the Service Agent in respect of any Liquidity Facility; and (y) claims, actual losses (excluding any opportunity losses), actual costs (excluding any costs of funds (whether in the form of interest or otherwise)) and expenses properly incurred or suffered by the Service Agent or other payments made by the Service Agent on behalf of the Trustee, in each case, in providing the relevant Services in accordance with the Master Service Agency Agreement (the "**Service Agency Liabilities Amounts**"); plus
- (5) (if all of the Trust Certificates of the relevant Series are being redeemed) without double counting, an amount representing any amounts payable by the Trustee (in any capacity) under the Programme Documents and the Transaction Documents (including but not limited to amounts due but unpaid to the Delegate pursuant to the relevant Condition); less
- (6) (if all of the Trust Certificates of the relevant Series are being redeemed) the amounts (if any) that are standing to the credit of the Principal Account relating to that Series which have been paid into the Transaction Account in accordance with the Master Service Agency Agreement and which shall be available on the relevant Dissolution Date to pay a proportion of the aggregate amounts payable on redemption of the Trust Certificates; less
- (7) the aggregate amount of the then outstanding Deferred Payment Price (if any) which has been paid into the Transaction Account in accordance with the Master Murabaha Agreement and which shall be available on the relevant due date to pay a proportion of the aggregate amounts payable on redemption of the relevant Trust Certificates.

In the case of paragraph (iv) above, on the Total Loss Dissolution Date:

- (x) the aggregate amount of Deferred Payment Price then outstanding, if any, shall become immediately due and payable; and
- (y) the Trustee will have the right under the Master Service Agency Agreement to receive all insurance proceeds relating to the Portfolio Assets,

and such amounts (payable into the Transaction Account) are intended to fund the relevant Dissolution Amount payable by the Trustee under the Trust Certificates of the relevant Series.

See further "*Summary of the Principal Programme Documents*".

Certificateholders, by subscribing for or acquiring Trust Certificates, acknowledge that no recourse may be had in respect of any shortfall in the amounts due in respect of any Trust Certificates against the Delegate, in any circumstances whatsoever, or against the Trustee or the Trust to the extent that the relevant Trust Assets have been exhausted, following which all obligations of the Delegate, the Trustee and the relevant Trust shall be extinguished.

Certificateholders should note that, through the Programme Documents and the Transaction Documents, the Trustee will have recourse to the ICD and the ability of the Trustee to pay the amounts due in respect of the Trust Certificates will ultimately be dependent on the ICD.

A description of the ICD is included within this Base Prospectus under "*Description of the ICD*".

Trust Certificates issued under the Programme may be rated or unrated by any one or more of the rating agencies referred to above. Where a Series of Trust Certificates is rated, such rating will be disclosed in the relevant Final Terms and may not necessarily be the same as the rating assigned to the Programme by the relevant Rating Agency. A rating is not a recommendation to buy, sell or hold securities and may be subject to revision or withdrawal at any time by the relevant Rating Agency.
Form and Delivery of the Trust Certificates:	Trust Certificates will be issued in registered form only, initially (unless otherwise specified in the relevant Final Terms) in the form of the Global Trust Certificate which will be deposited with, and registered in the name of a nominee for, a common depositary for Euroclear and Clearstream, Luxembourg or such other depositary as may be specified in the Final Terms. See further Condition 8.11 (<i>Benchmark Replacement</i>).
Redemption of Trust Certificates:	Trust Certificates shall be redeemed at the Final Dissolution Amount as may be specified in the relevant Final Terms.
Redemption by Instalments:	If Condition 11.2 (<i>Redemption by Instalments</i>) is specified as applicable in the relevant Final Terms, the Trust Certificates may be redeemed in instalments on the relevant Instalment Dates as further described in Condition 11.2 (<i>Redemption by Instalments</i>).
Early Dissolution of the Trust:	A Series of Trust Certificates may be redeemed prior to the relevant Maturity Date in the circumstances set out in Condition 11.3 (<i>Early Dissolution for Tax Reasons</i>), (if so specified in the relevant Final Terms) in the circumstances set out in Condition 11.4 (<i>Dissolution at the Option of the Trustee</i>), in the circumstances set out in Condition 11.5 (<i>Dissolution following a Tangibility Event</i>), in the circumstances set out in Condition 11.6 (<i>Dissolution following a Total Loss Event</i>), in the circumstances set out in Condition 11.7 (<i>Clean Up Call Right</i>) and in the circumstances set out in Condition 15 (<i>Dissolution Events</i>). However, see also " <i>Risk Factors – Risk Factors Relating to the Portfolio – Limitations relating to the indemnity provisions under the Purchase Undertaking Deed and the Master Trust Deed</i> ".

	Other than as set out above or as a result of redemption by instalments pursuant to Condition 11.2 (<i>Redemption by Instalments</i>) or the cancellation of all outstanding Trust Certificates of a Series pursuant to Condition 12 (<i>Purchase of Trust Certificates</i>), the Trust will not be subject to dissolution and the relevant Trust Certificates will not be redeemed prior to the Maturity Date.
Dissolution following a Tax Event:	The Trust Certificates may be redeemed at the option of the Trustee in whole, but not in part, upon the occurrence of a Tax Event as further described in Condition 11.3 (<i>Early Dissolution for Tax Reasons</i>).
Optional Dissolution:	If Condition 11.4 (<i>Dissolution at the Option of the Trustee</i>) is specified as applicable in the relevant Final Terms, the Trust Certificates may be redeemed at the option of the Trustee in whole, but not in part, on the Optional Dissolution Date as further described in Condition 11.4 (<i>Dissolution at the Option of the Trustee</i>).
Dissolution following a Tangibility Event:	Upon the occurrence of a Tangibility Event and receipt of a notice pursuant to the terms of the Master Service Agency Agreement, the Trustee shall promptly give notice (a "Delisting Notice") to the Certificateholders specifying, among other things: (a) that a Tangibility Event has occurred, together with an explanation of the reasons for, and evidence of, such occurrence; and (b) that, as determined in consultation with the <i>Shari'a</i> Adviser, the Trust Certificates shall only be tradable in accordance with the <i>Shari'a</i> principles of debt trading (such as the principle that debt is to be traded against tangible assets and/or eligible commodities on a spot settlement basis). Upon receipt of the Delisting Notice, a Certificateholder may, within the Tangibility Event Put Period, exercise its right to require the redemption of all or any of its Trust Certificates by delivering a notice to the Delegate (the "Tangibility Event Put Notice"). Accordingly, the Trustee shall, upon the holder of any Certificates giving notice within the Tangibility Event Put Right Period to the Trustee, redeem such Trust Certificates at the Tangibility Event Dissolution Amount (together with any due but unpaid Periodic Distribution Amounts (if any) to, but excluding, the Tangibility Event Redemption Date subject to and in accordance with Condition 11.5 (<i>Dissolution following a Tangibility Event</i>)). On the date falling 15 days following the Tangibility Event Redemption Date, the Trust Certificates will be delisted from any stock exchange (if any) on which the Trust Certificates have been admitted to listing or if such date is not a business day, the next following business day ("business day" being, for this purpose, a day on which the stock exchange on which the Trust Certificates are admitted to listing is open for business).
Total Loss Event:	Upon the occurrence of a Total Loss Event and unless the relevant Portfolio Assets have been replaced as set out in the Master Service Agency Agreement by no later than the 59th day after the occurrence of a Total Loss Event, the Trust Certificates shall be redeemed by the Trustee in whole, but not in part, as further described in Condition 11.6 (<i>Dissolution following a Total Loss Event</i>). Upon the occurrence of a Total Loss Event, the Service Agent shall promptly, upon becoming aware of any such occurrence, notify the Trustee, and upon such notification, the Trustee shall promptly deliver a notice to the relevant Certificateholders (a "Trading and

Delisting Notice") specifying, among other things, that: (a) such event has occurred; (b) from the date of such Trading and Delisting Notice, and until any further notice from the Trustee, in consultation with the *Shari'a* Adviser, the Trust Certificates should be tradable only in accordance with *Shari'a* principles of debt trading (such as the principle that debt is to be traded against tangible assets and/or eligible commodities on a spot settlement basis); and (c) on the date of such Trading and Delisting Notice an application will be made for the Trust Certificates to be delisted from any stock exchange (if any) on which such Trust Certificates have been admitted to listing or if such date is not a business day, the next following business day ("**business day**" being, for this purpose, a day on which the stock exchange on which the Trust Certificates are admitted to listing is open for business).

If the relevant Portfolio Assets have been replaced by the 59th day after the occurrence of a Total Loss Event in accordance with the Master Service Agency Agreement, the Service Agent shall notify the Trustee and the Delegate of the same and the Trustee shall promptly, following receipt of such notice from the Service Agent and in consultation with the *Shari'a* Adviser, deliver a notice to the Certificateholders that: (i) from the date of that notice the Trust Certificates may be traded at any price; and (ii) the Trust Certificates shall be re-listed, as soon as reasonably practicable, on the stock exchange (if any) on which the Trust Certificates had previously been admitted to listing.

Clean Up Call Right:

If 75 per cent. or more of the aggregate face amount of the outstanding Trust Certificates of a Series have been redeemed pursuant to Condition 11.5 (*Dissolution following a Tangibility Event*), the remaining outstanding Trust Certificates may be redeemed at the option of the Trustee in whole, but not in part, as further described in Condition 11.7 (*Clean Up Call Right*).

Dissolution Events:

The Trust Certificates may be redeemed at the option of the Certificateholders upon the occurrence of a Dissolution Event as further described in Condition 15 (*Dissolution Events*).

ICD's Purchase of Trust Certificates:

Pursuant to Condition 12 (*Purchase of Trust Certificates*), the ICD may at any time purchase Trust Certificates relating to a Series at any price in the open market or otherwise and deliver such Trust Certificates to the Principal Paying Agent for cancellation.

Withholding Tax:

All payments in respect of Trust Certificates by or on behalf of the Trustee shall be made without withholding or deduction for, or on account of, any Taxes. In the event that any such withholding or deduction is made, the Trustee will, save in the limited circumstances provided in Condition 13 (*Taxation*), be required to pay additional amounts so that the holders of the Trust Certificates will receive the full amounts that would have been receivable in the absence of such withholding or deduction.

Programme Documents:

The Master Trust Deed, the Agency Agreement, the Master Purchase Agreement, the Title Agency Agreement, the Master Service Agency Agreement, the Sale Undertaking Deed, the Purchase Undertaking Deed, the Master Murabaha Agreement and the Corporate Services Agreement.

Governing Law and Dispute Resolution:	Each of the Programme Documents (with the exception of the Corporate Services Agreement) and the Transaction Documents will be governed by English law. The Corporate Services Agreement will be governed by the laws of the Cayman Islands. In respect of any dispute under such agreement or deed to which it is a party (with the exception of the Corporate Services Agreement), the Trustee and the ICD have agreed to arbitration in London under the London Court of International Arbitration (LCIA) Rules. The ICD has also agreed to submit to the exclusive jurisdiction of the courts of England (the "English Courts") at the option of the Delegate, the Certificateholders, the Agents or the Trustee, as the case may be, in respect of any dispute under the Transaction Documents or Programme Documents to which it is a party (with the exception of the Corporate Services Agreement), subject to the right of the Delegate, the Certificateholders, the Agents or the Trustee, as the case may be, to require any dispute to be resolved by any other court of competent jurisdiction.
Selling Restrictions:	For a description of certain restrictions on offers, sales and deliveries of Trust Certificates and on the distribution of offering material in the United States, the EEA, the UK, the Cayman Islands, the United Arab Emirates (excluding the DIFC and the ADGM), the DIFC, the ADGM, the State of Kuwait, the Kingdom of Saudi Arabia, the Kingdom of Bahrain, the State of Qatar (including the Qatar Financial Centre), Singapore, Hong Kong and the People's Republic of China, see "<i>Subscription and Sale</i>" below.
United States Selling Restrictions:	Regulation S, Category 2.
Covenants:	The Trustee has agreed to certain restrictive covenants in the Master Trust Deed, as more fully set out in Condition 6 (<i>Covenants</i>).
Limited Recourse:	Each Trust Certificate of a particular Series will represent an undivided ownership interest in the Trust Assets for such Series. No payment of any amount whatsoever under or in connection with the Trust Certificates shall be made by the Trustee (acting in any capacity) (and/or its shareholders, officers, directors or corporate services providers in their capacity as such) or any agents thereof except to the extent that funds are available therefor from the Trust Assets of the relevant Series of Trust Certificates. No recourse may be had by the Certificateholders to any assets of the Trustee (and/or its shareholders, officers, directors or corporate services providers in their capacity as such) (other than Trust Assets of the relevant Series of Trust Certificates) or the ICD (to the extent it fulfils its obligations under the Programme Documents and Transaction Documents to which it is a party) or any of their affiliates in respect of any shortfall in the expected amounts from the relevant Trust Assets to the extent the relevant Trust Assets have

been exhausted following which all the obligations of the Trustee shall be extinguished.

RISK FACTORS

Any investment in the Trust Certificates is subject to a number of risks and is suitable only for investors who have the knowledge and experience in financial and business matters necessary to enable them to evaluate the risks and merits of an investment in the Trust Certificates. Before making an investment decision, prospective purchasers of Trust Certificates should consider carefully, in the light of their own financial circumstances and investment objectives, all of the information in this Base Prospectus. The following is a description of principal risk factors that each of the Trustee and the ICD believes: (i) may affect the Trustee's ability to fulfil its obligations under the Trust Certificates to prospective Certificateholders; and (ii) are material for the purpose of assessing the market risk associated with the Trust Certificates. The Trustee and the ICD believe that the factors described below represent the principal risks inherent in investing in the Trust Certificates issued under the Programme, but the inability of the Trustee to pay any amounts due on or in connection with any Trust Certificates may occur for other reasons and neither the Trustee nor the ICD represents that the statements below regarding the risks of holding any Trust Certificates are exhaustive. There may also be other considerations, including some which may not be presently known to the Trustee or the ICD or which the Trustee or the ICD currently deems immaterial, that may impact any investment in Trust Certificates.

Prospective investors should read the entire Base Prospectus and reach their own view prior to making any investment decision. Words and expressions defined in the "Terms and Conditions of the Trust Certificates" below or elsewhere in this Base Prospectus have the same meanings in this section.

Risk Factor Relating to the Trustee

The Trustee is a special purpose company

The Trustee was incorporated under the laws of the Cayman Islands on 30 June 2015 as an exempted company with limited liability and has no operating history (other than the issuance of the Trust Certificates and the entering into of the transactions contemplated by the Programme Documents and the Transaction Documents). The only material assets of the Trustee, which will be held on trust for Certificateholders, will be the Trust Assets relating to each series of Trust Certificates and the obligation of the ICD to make payments under the Programme Documents and the Transaction Documents to which it is a party to the Trustee. Therefore, the Trustee is subject to all risks to which the ICD is subject to the extent that such risks could limit the ICD's ability to satisfy in full and on a timely basis its obligations under the Programme Documents and Transaction Documents to which it is a party. See "*Risk Factors Relating to the ICD and its Operations*" below for a further description of these risks. The Trustee does not engage in any business activity other than the issuance of the Trust Certificates, the transactions contemplated by the Programme Documents and the Transaction Documents to which it is a party as described herein and other activities incidental or related to the foregoing. Additionally, because the Trustee is a Cayman Islands company, it may not be possible for Certificateholders to effect service of process on it outside the Cayman Islands.

Risk Factors Relating to the ICD and its Operations

The ICD's Risk Management Department is responsible for formulating, implementing and updating the risk policies, risk management framework and risk management guidelines to ensure the continuing identification and assessment of risk in the context of the ICD's operations globally. The ICD's risk management framework comprises policies and guidelines approved by its Board of Directors governing, amongst other things, its financing operations, equity investment activities, treasury operations and risk rating assessment of financing transactions. The risk assessment guidelines include risk rating templates for corporate finance, project finance and financial institutions. All new financing and investment transactions are subject to comprehensive risk assessment in accordance with these guidelines, as well as the ICD's credit and investment approval and monitoring process and the ICD's anti-money laundering policies and policy for combating terrorist financing. The ICD is not subject to any national banking regulation and is not supervised by any external regulatory authority. As a multilateral financial institution, the ICD is not subject to the requirements of the Basel Committee on Banking Supervision (the "**Basel Committee**"). However, as a matter of policy, the ICD aligns its risk management framework with the principles promulgated by the Basel Committee.

In the course of its operations, the ICD is exposed to a variety of risks, the most significant of which are set out below. Whilst the ICD believes it has implemented the appropriate policies, systems and processes to control and mitigate these risks, investors should note that any failure to adequately control all or any risks

could result in adverse effects on the ICD's financial condition, results of operations, prospects and/or reputation.

The ICD is subject to changes in industry, sector, political and economic conditions in Member Countries

The ICD is a multilateral financial institution offering financing, equity investments and advisory services mainly to the private sector companies in the Member Countries (as defined below), the majority of which are developing countries. The ICD applies a diversified strategy in terms of country, region, industry and sector investment supported by a strong risk management framework. The diversification strategy is supported by ICD's sound capital buffers, solid liquidity profile and continued support from its major shareholders. The performance of the ICD's financing and equity investments is subject to the performance and financial conditions of its clients which may be adversely affected by changes in industries and sectors in which they operate or by changes in the economic, political or financial condition in the markets where the ICD's clients operate.

While some Member Countries have historically experienced a relatively stable political environment, certain other Member Countries have not. In particular, there has been political unrest in a range of countries in Eastern Europe, the MENA region, including Iraq, Lebanon, Libya, Palestine, Sudan, Syria, and Yemen, all of which are Member Countries. This unrest has ranged from public demonstrations to, in extreme cases, armed conflict and civil war, which has led to the collapse of political regimes and/ or civil war and armed conflict in Syria, Libya, Iraq and Yemen.

There has also been an escalation of tension in the Gulf region following the attacks on a number of oil tankers in the Bab al Mandab strait by the Yemeni militias. It has the potential to adversely affect regional security, as well as global oil and gas prices, in addition to the effect on the economies of the Member Countries involved.

In addition, the recent escalation in the ongoing Israeli-Hamas-Hezbollah-Iran conflict has resulted in an increase in geopolitical tensions in the region and may have far reaching effects on the global economy currency exchange rates and regional economies.

Global and regional economic outlook may impact the ICD and/or its Member Countries

Global and regional economic outlooks are subject to major risks, including epidemics, pandemics, premature withdrawal of policy support and volatile oil prices, and such risks may be further heightened by geopolitics such as the ongoing conflict between Russia-Ukraine and the Israeli-Hamas-Hezbollah-Iran conflict.

The impact of such global and regional risks could be compounded by a tightening of financial policy measures against the backdrop of increased debt vulnerabilities and rising inflation. The Middle East and North Africa registered 2.0 per cent. economic growth in 2024 whilst the International Monetary Fund (the "IMF") projects 3.5 per cent. growth in 2025.

Many of the world's economies are experiencing high levels of inflation. According to the IMF, global inflation averaged 6.7 per cent. in 2024 and is projected at 4.2 per cent. in 2025. However, considerable uncertainty surrounds these inflation projections. Various factors have contributed to shaping inflation outlook, including the Russia-Ukraine conflict in addition to the trade war between the US and the rest of the world which may contribute to higher inflation that affect the wider global economy and affect the economies of the Member Countries which may adversely impact the performance and financials of ICD's clients in those Member Countries.

The economies of many Member Countries are dependent on oil and gas and related industries, as well as the prices and production quantities of these commodities. Oil prices have, however, been volatile in recent years, which has impacted on the economic growth of many Member Countries. The monthly OPEC Reference Basket Price reached U.S.\$89.12 in April 2024 decreasing to U.S.\$68.98 in April 2025 amid the ongoing trade war and Russian-Ukraine conflict

Credit risks

As of 31 December 2024, the Group's total financing assets net of allowance for credit losses amounted U.S.\$1,045.76 million or 28.9 per cent. of total assets. Credit risks arising from adverse changes in the

credit quality and recoverability of these financing assets from counterparties are inherent in the ICD's operations. Credit risks could arise from a deterioration in the credit quality of specific counterparties of the ICD, from a general deterioration in local or global economic conditions or from systemic risks in the financial systems generally, all of which could affect the recoverability and value of the ICD's assets and require an increase in the ICD's provisions for the impairment of its assets and other credit exposures.

Equity impairment risk

The ICD is exposed to equity impairment risks arising from equity investments in associates and shares of companies, which as at 31 December 2024 amounted to U.S.\$241.9 million or 6.7 per cent. of the Group's total assets. Equity investments are generally held for strategic rather than trading purposes. The ICD does not actively trade in equity investments and so equity investments are not generally classified as available-for-sale. That said, the ICD may be subject to capital impairment risk arising from holding such equity investments. The ICD conducts comprehensive due diligence prior to investing in potential equity projects and follows its investment guidelines which specify the criteria for making such investments. In addition, the ICD appoints its representatives to the boards of the investee companies and all equity investments are monitored by the relevant departments of the ICD on a regular basis. However, there can be no assurance that the ICD will be able to liquidate all of its equity holdings at a price which is higher than the book value so as to eliminate impairment risk for equity. In addition, equity investments may be affected by the performance of investee companies and the environment and conditions in which investee companies operate.

Exchange rate risk

Exchange rate risk arises from the possibility that changes in foreign exchange rates will affect the value of the ICD's financial assets and liabilities denominated in currencies other than U.S. Dollars. The ICD is exposed to exchange rate risk as some of its equity investments are held in currencies other than U.S. Dollars. The ICD also aims to refrain from taking exchange rate risks in its liquid investments and in line with the matched funding principle under its asset and liability management policy, the ICD matches the currencies of its assets with those of the underlying liabilities. Most of the ICD's assets are in U.S. Dollars and for its non-U.S. Dollar term finance facilities, the ICD secures financing in the said currency or enters into Islamic cross-currency swaps, when available, to hedge the exchange rate risk in line with the requirements of the ICD's asset and liability management policy.

The ICD is also exposed to market risks arising from adverse changes in foreign exchange for Sukuk transactions denominated in a foreign currency.

While, the ICD manages these risks through a variety of strategies, including foreign currency forward contracts and, increasingly going forward, having matching assets and liabilities in the same foreign currency, there can be no assurance that its management strategy will always be effective and, accordingly, exchange rate risk may have a material adverse effect on the business, financial position, results of operations and/or prospects of the ICD in the future.

Mark-up rate risk

The ICD's operations are exposed to repricing rate risks. In part, this arises from the fact that the ICD, historically, earned income through funding a part of its financial assets with equity. As the mark-ups on some of these financial assets are based on international benchmark rates, lower market rates generally result in lower mark-ups which, in turn, reduce the earnings on the ICD's equity. Secondly, the ICD's income is exposed to repricing risk between the mark-up it earns on its assets and the cost of its own funding of such assets. As of 31 December 2024, the Group's financing assets net of allowance for credit losses amounted U.S.\$1,045.8 million, of which U.S.\$489.2 million or 46.8 per cent. were on a floating rate basis and exposed to mark-up rate movements. To limit such exposures, the ICD adopts a match funding approach and funds floating rate assets with floating rate liabilities and vice versa with fixed rate assets or uses profit-rate swaps, when available, to hedge the repricing risk in line with the requirements of the ICD's asset and liability management policy. Nonetheless, there can be no assurance that its management strategy will always be effective and, accordingly, mark-up rate risk may have a material adverse effect on the business, financial position, results of operations and/or prospects of the ICD in the future.

Operational risks

Operational risks can arise from inadequate or failed procedures and processes, information and communication systems, loss of key management personnel, external events and actions by staff and could have an adverse impact on the ICD's business or results of operations. Although the ICD has implemented risk controls and loss mitigation strategies and substantial resources are devoted to developing efficient operational procedures, it is not possible to entirely eliminate any of the operational risks.

Notwithstanding anything in this risk factor, this risk factor should not be taken as implying that either the Trustee or the ICD will be unable to comply with its obligations as a company with securities admitted to the Official List and admitted to trading on the regulated market of Euronext Dublin.

Liquidity risks

Liquidity risks could arise from the inability of the ICD to anticipate and provide for unforeseen decreases or changes in funding sources which could have adverse consequences on the ICD's ability to meet its obligations when they fall due, which may in turn have adverse effects on the ICD's financial condition, results of operations, prospects and/or reputation.

Risk Factors Relating to the Portfolio

Limitations relating to the indemnity provisions under the Purchase Undertaking Deed and the Master Trust Deed

The ICD has undertaken in the Purchase Undertaking Deed and the Master Trust Deed that, if: (i) at the time of delivery of an exercise notice in accordance with the provisions of the Purchase Undertaking Deed, the Islamic Corporation for the Development of the Private Sector remains in actual or constructive possession, custody or control of all or any part of the Portfolio Assets; and (ii) following delivery of an exercise notice in accordance with the provisions of the Purchase Undertaking Deed, the ICD fails to pay the relevant Purchase Undertaking Deed Exercise Price in accordance with the provisions of the Purchase Undertaking Deed for any reason whatsoever, the ICD shall (as an independent, severable and separately enforceable obligation) fully indemnify the Trustee for the purpose of redemption in full of the outstanding Trust Certificates of such Series or the Tangibility Event Put Certificates (as defined in the Purchase Undertaking Deed), as the case may be, and, accordingly, the amount payable under any such indemnity claim will equal the relevant Purchase Undertaking Deed Exercise Price.

Subject to the satisfaction of the conditions set out in the above paragraph, if the ICD fails to pay the relevant Purchase Undertaking Deed Exercise Price in accordance with the Purchase Undertaking Deed, the Delegate (on behalf of the Certificateholders) may, subject to the matters set out in Condition 15 (*Dissolution Events*) and the terms of the Master Trust Deed, seek to enforce, *inter alia*, the provisions of the Purchase Undertaking Deed and the Master Trust Deed against the ICD by commencing arbitral or legal proceedings.

However, investors should note that, in the event that the Islamic Corporation for the Development of the Private Sector (including if so determined by a court or arbitral tribunal) does not remain in actual or constructive possession, custody or control of all or any part of the Portfolio Assets at the time of delivery of the exercise notice in accordance with the provisions of the Purchase Undertaking Deed, the condition in paragraph (i) as described above will not be satisfied and, therefore, no amounts will be payable by the ICD under the separate indemnity provisions. For the avoidance of doubt, no investigation has been or will be made by the Trustee, the Arranger, the Dealers, the Delegate or the Agents as to whether the ICD has or will continue to remain in actual or constructive possession, custody or control of any Portfolio Asset or the terms of the underlying assets.

In such event, the Trustee shall be entitled to exercise the Right to Register (as defined below) subject to approval of such exercise pursuant to an Extraordinary Resolution. See further "*Limitations relating to the Right to Register*".

Limitations relating to the Right to Register

Pursuant to the Title Agency Agreement, the ICD has irrevocably and unconditionally authorised the Trustee to, as soon as is practicable following the occurrence of a Dissolution Event which is continuing,

register the Portfolio Assets in the name of the Trustee (or its nominee, agent, delegate or assignee) in the official record or registry applicable at the time of registration, as the case may, in the event that:

- (i) the ICD has failed or defaulted in its obligations to purchase the Portfolio Assets upon receiving the Exercise Notice under and in accordance with clause 3.1 with the Purchase Undertaking Deed; and
- (ii) the Trustee is unable to make a claim under the indemnity contained in clause 2.3 of the Purchase Undertaking Deed for an amount equal to the relevant Purchase Undertaking Deed Exercise Price as a result of the ICD failing to be, or otherwise claiming that it is not, in actual or constructive possession, custody or control of any of the Portfolio Assets,

provided that, at the relevant time: (1) no Total Loss Event has occurred and is continuing at the time of the delivery of the relevant Exercise Notice; and (2) it is possible to do so under, and is not in contravention with, any and all applicable governing laws and regulations of the relevant Member Country where the Portfolio Assets are located (the "**Right to Register**").

However, investors should note that, the exercise of the Right to Register may be limited by a number of factors, including:

- (a) the legal framework and regulations governing asset ownership in the relevant Member Country may impose restrictions on certain entities or persons being able to hold an ownership title to the relevant Portfolio Assets. Accordingly, should the Right to Register be exercised, the Trustee may not be legally able to register the title to the relevant Portfolio Asset(s) in its name in the official record or registry (pursuant to the Title Agency Agreement the Trustee may also select a nominee for this purpose);
- (b) the ICD has undertaken in the Title Agency Agreement to do all acts or things as may be reasonably requested by the Trustee or required by applicable law to implement the intended purpose of the Title Agency Agreement or otherwise to preserve or enforce the Trustee's rights under the Title Agency Agreement. However, since the Right to Register shall arise where the ICD has failed to pay the relevant Purchase Undertaking Deed Exercise Price on the due date, there can be no assurance that the ICD will comply with such obligation and co-operate or otherwise assist with the exercise of the Right to Register (including, without limitation, participating in proceedings at the relevant official record or registry);
- (c) the exercise of the Right to Register is subject to any bankruptcy, insolvency, composition, liquidation, administration, moratorium, reorganisation or similar laws affecting the rights of creditors and/or secured creditors of the ICD (including any challenges by other creditors of the ICD); and
- (d) if the Right to Register is exercised, several obligations may arise in respect of the relevant Portfolio Assets, including: (1) disclosure requirements in respect of the assets (including regulatory disclosure obligations); (2) requirement to appoint legal advisers, financial advisers and/or valuers in respect of the valuation and transfer of the assets; and (3) process and cost of registration of the assets. Such obligations may be complex, time-consuming and costly. There can be no assurance that the ICD will be willing or able to cooperate with the relevant parties and the Certificateholders in respect of such obligations.

If the Right to Register becomes exercisable but is not capable of being exercised (including for the foregoing reasons and whether at the option of the Certificateholders or otherwise), the Certificateholders may be required to establish that there has been a breach of contract by the ICD in order to prove for damages. Such breach of contract may be due to: (a) a breach by the ICD of the requirement to purchase the Trustee's interest, title, right and benefit in, to and under the relevant Portfolio Assets on the relevant Dissolution Date pursuant to the provisions of the Purchase Undertaking Deed; and/or (b) a breach by the ICD of its undertaking to maintain actual or constructive possession, custody or control of all or any part of the Portfolio Assets comprising the Portfolio during the Portfolio Ownership Period (as defined in the Master Service Agency Agreement).

If the Right to Register becomes exercisable and is exercised, there can be no assurance that any proceeds realised from the disposition of the relevant Portfolio Assets following such exercise will be equal to or more than the relevant Purchase Undertaking Deed Exercise Price. The ICD has undertaken in the Master

Trust Deed that, if the Right to Register is exercisable by the Trustee and such right is exercised, the ICD shall be in breach of its obligation under the Purchase Undertaking Deed to purchase, and accept the transfer and assignment of, all of the Trustee's rights, title, interests, benefits and entitlements in, to and under the Portfolio Assets of the relevant Series at the relevant Purchase Undertaking Deed Exercise Price specified in the relevant Exercise Notice, whereupon the ICD shall (as an independent, severable and separately enforceable obligation) fully indemnify the Trustee for the purpose of redemption in full of the Trust Certificates then outstanding, provided that the amount payable under any such indemnity claim shall not exceed the difference between: (i) any proceeds realised from the disposition of the relevant Portfolio Assets following the exercise of the Right to Register; and (ii) the relevant Purchase Price. Accordingly, investors may not be entitled to recover the full Sale Undertaking Deed Exercise Price or Purchase Undertaking Deed Exercise Price, as the case may be.

As a result, the Certificateholders may not be able to recover, or may face significant challenges in recovering, an amount equal to the relevant Purchase Undertaking Deed Exercise Price and, in turn, the amount payable to them upon redemption.

For the avoidance of doubt, no investigation has been or will be made by the Trustee, the Arranger, the Dealers, the Delegate or the Agents as to the terms of the relevant underlying contracts, agreements and/or documents evidencing or otherwise related to or associated with the relevant Portfolio Assets.

Ownership of the Portfolio Assets

The *Shari'a* analysis is as follows: an ownership interest in the Portfolio Assets comprised within the relevant Portfolio should pass to the Trustee under the Master Purchase Agreement and the relevant Supplemental Purchase Agreement (together, the "**Purchase Agreement**"). The Trustee will declare a trust in respect of the Portfolio Assets and the other Trust Assets in favour of the Certificateholders of the relevant Series pursuant to the relevant Trust Deed. Accordingly, from a *Shari'a* perspective, Certificateholders should, through the ownership interest obtained by the Trustee pursuant to the terms of the Purchase Agreement, have an undivided ownership interest in the relevant Portfolio Assets.

The Portfolio Assets will be selected by the ICD, and the Certificateholders, the Trustee, the Delegate and the Agents will have no ability to influence such selection. Only limited representations will be obtained from the ICD in respect of the Portfolio Assets and limited investigation and enquiry will be made and no due diligence will be conducted in respect of any Portfolio Assets. In particular, the precise terms of such Portfolio Assets sold or held will not be known (including whether there are any restrictions on transfer or any further obligations required to be performed by ICD to give effect to the transfer of the ownership interest in the Portfolio Assets).

Although the ICD has undertaken in the Title Agency Agreement to do all acts or things as may be reasonably requested by the Trustee or required by applicable law to implement the intended purpose of the relevant Master Purchase Agreement or otherwise to preserve or enforce the Trustee's rights under the relevant Master Purchase Agreement, the ICD and the Trustee have agreed and acknowledged in the Title Agency Agreement that, except where the Right to Register arises, the title to the Portfolio Assets is not intended to be registered (to the extent registrable) in the name of the Trustee and the ICD shall hold the registered title to the Portfolio Assets for and on behalf of the Trustee. The ICD and the Trustee have also agreed that this will not affect the rights and obligations of any party under the Title Agency Agreement, Master Purchase Agreement and Supplemental Purchase Agreement, any sale agreement entered into pursuant to the Purchase Undertaking Deed or the Sale Undertaking Deed and/or any purchase agreement entered into in accordance with the terms of the Master Service Agency Agreement, including, without limitation, the right of ownership, and the associated risks and benefits, from a *Shari'a* perspective of the Trustee to the Portfolio Assets under such documents which shall pass to the Trustee at the time of the relevant sale. Therefore, unless the Right to Register is exercised (as to which, see further "*Limitations relating to the Right to Register*"), the Certificateholders may not have any enforceable claim to any Portfolio Assets which require perfection in order to legally transfer any ownership interest therein.

Transfer of the Portfolio Assets

Limited investigation has been or will be made as to whether any interest in any Portfolio Assets may be transferred as a matter of the law governing the contracts (if any), the law of the jurisdiction where such Portfolio Assets are located or any other relevant law. No investigation will be made by the Trustee, the

Arranger or the Dealers to determine if any Purchase Agreement will have the effect of transferring an interest in the relevant Portfolio Assets.

The occurrence of a Tangibility Event may have a significant adverse effect on the liquidity and market value of the Trust Certificates and/or lead to a Clean Up Call

Following the occurrence of a Tangibility Event, the Trustee shall promptly give notice to the Certificateholders specifying: (a) that a Tangibility Event has occurred, together with an explanation of the reasons for, and evidence of, such occurrence; (b) that, as determined in consultation with the *Shari'a* Adviser, the Trust Certificates shall only be tradable in accordance with the *Shari'a* principles of debt trading (such as the principle that debt is to be traded against tangible assets and/or eligible commodities on a spot settlement basis); (c) that, on the date falling 15 days following the Tangibility Event Redemption Date, the Trust Certificates will be delisted from any stock exchange (if any) on which the Trust Certificates have been admitted to listing or if such date is not a business day, the next following business day ("**business day**" being, for this purpose, a day on which the stock exchange on which the Trust Certificates are admitted to listing is open for business); and (d) the Tangibility Event Put Period, during which period any Certificateholder shall have the right to require the redemption of all or any of its Trust Certificates. Upon receipt of such notice, the Certificateholders may elect, within the Tangibility Event Put Period, for all or any of their Trust Certificates to be redeemed in accordance with Condition 11.5 (*Dissolution following a Tangibility Event*). If 75 per cent. or more of the aggregate face amount of the outstanding Trust Certificates of a Series have been redeemed pursuant to Condition 11.5 (*Dissolution following a Tangibility Event*), the remaining outstanding Trust Certificates may be redeemed at the option of the Trustee in whole, but not in part, as further described in Condition 11.7 (*Clean Up Call Right*). Accordingly, a Tangibility Event may have a significant adverse effect on the liquidity and market value of the Trust Certificates or result in a redemption of a Series of Trust Certificates at the option of the Trustee.

The occurrence of a Total Loss Event may have a significant adverse effect on the liquidity and market value of the Trust Certificates

If a Total Loss Event occurs, the Service Agent shall promptly, upon becoming aware of the occurrence of such event notify the Trustee of such occurrence. The Trustee shall, upon receipt of such notice from the Service Agent, promptly notify Certificateholders that: (a) such event has occurred; (b) from the date of such notice, and until any further notice from the Trustee, in consultation with the *Shari'a* Adviser, the Trust Certificates of the relevant Series should be tradable only in accordance with *Shari'a* principles of debt trading (such as the principle that debt is to be traded against tangible assets and/or eligible commodities on a spot settlement basis); and (c) on the date of such notice an application will be made for the Trust Certificates of the relevant Series to be delisted from any stock exchange (if any) on which such Trust Certificates have been admitted to listing or if such date is not a business day, the next following business day ("**business day**" being, for this purpose, a day on which the stock exchange on which the Trust Certificates are admitted to listing is open for business).

Following any replacement of the relevant Portfolio Asset(s) in accordance with the Master Service Agency Agreement, the Service Agent shall notify the Trustee and the Delegate of the same and the Trustee shall promptly, following receipt of such notice from the Service Agent and in consultation with the *Shari'a* Adviser, deliver a notice to the Certificateholders in accordance with Condition 18 (*Notices*) that: (i) from the date of that notice the Trust Certificates of the relevant Series may be traded at any price; and (ii) the Trust Certificates of the relevant Series shall be re-listed, as soon as reasonably practicable, on the stock exchange (if any) on which the Trust Certificates had previously been admitted to listing.

Accordingly, such an event may (due to, among other things, its impact on tradability of the Trust Certificates) have a significant adverse effect on the liquidity and market value of the Trust Certificates.

Risk Factors Relating to the Structure of Certain Trust Certificates

The regulation and reform of benchmarks may adversely affect the value of Trust Certificates linked to or referencing such benchmarks

Interest rates and indices which are deemed to be "benchmarks" (including, without limitation, the euro interbank offered rate ("**EURIBOR**")) have been subject to significant regulatory scrutiny and legislative intervention in recent years. This relates not only to creation and administration of benchmarks, but also to the use of a benchmark rate. In the EU for example, the EU Benchmarks Regulation applies to the provision

of, contribution of input data to, and the use of, a benchmark within the EU, subject to certain transitional provisions. Similarly, Regulation (EU) No. 2016/1011 as it forms part of the domestic law of the UK by virtue of the EUWA (the "**UK Benchmarks Regulation**") applies to the provision of, contribution of input data to, and the use of, a benchmark within the UK, subject to certain transitional provisions.

Legislation such as the EU Benchmarks Regulation or the UK Benchmarks Regulation, if applicable, could have a material impact on any Trust Certificates linked to EURIBOR or another benchmark rate or index, for example, if the methodology or other terms of the benchmark are changed in the future in order to comply with the terms of the EU Benchmarks Regulation or UK Benchmarks Regulation or other similar legislation, or if a critical benchmark is discontinued or is determined to be by a regulator to be "no longer representative". Such factors could (amongst other things) have the effect of reducing or increasing the rate or level or may affect the volatility of the published rate or level of the benchmark. They may also have the effect of discouraging market participants from continuing to administer or contribute to certain "benchmarks", trigger changes in the rules or methodologies used in certain "benchmarks", or lead to the discontinuance or unavailability of quotes of certain "benchmarks".

Although EURIBOR has subsequently been reformed in order to comply with the terms of the EU Benchmarks Regulation, it remains uncertain as to how long it will continue in its current form, or whether it will be further reformed or replaced with Euro short-term rate ("**€STR**") or an alternative benchmark.

The elimination of EURIBOR or any other benchmark, or changes in the manner of administration of any benchmark, could require or result in an adjustment to the amounts payable in respect of Trust Certificates in respect of which Floating Periodic Distribution Amount Provisions are specified as applicable in the relevant Final Terms ("**Floating Rate Trust Certificates**"), or result in adverse consequences to holders of any Trust Certificates linked to such benchmark (including Floating Rate Trust Certificates whose profit rates are linked to benchmarks that are subject to reform). Furthermore, even prior to the implementation of any changes, uncertainty as to the nature of alternative reference rates and as to potential changes to such benchmark may adversely affect such benchmark during the term of the relevant Trust Certificates, the return on the relevant Trust Certificates and the trading market for securities (including the Trust Certificates) based on the same benchmark.

The administrator of SONIA, SOFR or €STR or any related index may make changes that could change the value of SONIA, SOFR or €STR or any related index or discontinue SONIA, SOFR or €STR or any related index

The Bank of England, The Federal Reserve Bank of New York or the European Central Bank (or their successors), as administrator of the Sterling Overnight Index Average ("**SONIA**"), the Secured Overnight Financing Rate ("**SOFR**") and €STR respectively, may make methodological or other changes that could change the value of these risk-free rates and/or indices, including changes related to the method by which such risk-free rate and/or index is calculated, eligibility criteria applicable to the transactions used to calculate SONIA, SOFR or €STR, or timing related to the publication of SONIA, SOFR or €STR or any related indices. In addition, the administrator may alter, discontinue or suspend calculation or dissemination of SONIA, SOFR or €STR or any related index (in which case a fallback method of determining the profit rate on the Trust Certificates will apply). The administrator has no obligation to consider the interests of Certificateholders when calculating, adjusting, converting, revising or discontinuing any such risk-free rate and/or index.

"Fallback" arrangements may lead to Trust Certificates performing differently or the effective application of a "fixed rate"

If a relevant benchmark (including any page on which such benchmark may be published (or any other successor service)) becomes unavailable, amounts payable in respect of Floating Rate Trust Certificates will be determined for the relevant Return Accumulation Period by the fallback provisions applicable to such Trust Certificates set out in the Conditions. Depending on the manner in which the profit rate is to be determined under the Conditions, if Screen Rate Determination applies, this may result in the effective application of a fixed rate based on the rate which applied in the previous Return Accumulation Period when the relevant benchmark was available. This is because where Screen Rate Determination is specified as the manner in which the Rate in respect of Floating Rate Trust Certificates is to be determined, the Conditions provide that the Rate shall be determined by reference to the Relevant Screen Page. In circumstances where the relevant Reference Rate is discontinued, neither the Relevant Screen Page, nor any successor or replacement may be available, and in such circumstances, the Conditions provide for the

Rate to be determined by the Calculation Agent by reference to quotations from banks communicated to the Calculation Agent. Where such quotations are not available (as may be the case if the relevant banks are not submitting rates for the determination of such Reference Rate), the Rate may ultimately revert to the Rate applicable as at the last preceding Periodic Distribution Determination Date before the relevant Reference Rate was discontinued.

If a Benchmark Event (as defined in the Conditions) occurs, there is a possibility that the profit rate could alternatively be set by an Independent Adviser or (if the Trustee and the ICD are unable to appoint an Independent Adviser, or the Independent Adviser appointed by it fails to determine a Successor Rate or an Alternative Rate) the ICD (without a requirement for the consent or approval of Certificateholders) by reference to a Successor Rate or an Alternative Rate and that such Successor Rate or Alternative Rate may be adjusted (if required). The consent of the Certificateholders shall not be required in connection with effecting a Successor Rate or an Alternative Rate (as applicable) and/or (in either case) an Adjustment Spread or such other changes, including for the execution of any documents or other steps by the Delegate, the Principal Paying Agent or the Calculation Agent. The ICD shall promptly, following the determination of any successor rate, give notice thereof to the Principal Paying Agent and the Certificateholders, which shall specify the effective date(s) for such successor rate or alternative rate and any consequential changes made to the Conditions.

The Trustee and the ICD may be unable to appoint an Independent Adviser or the Independent Adviser appointed by the Trustee and the ICD (or if the Trustee and the ICD are unable to appoint an Independent Adviser, or the Independent Adviser appointed by it fails to determine a Successor Rate or an Alternative Rate, the ICD itself) may fail to determine the Successor Rate or failing which the Alternative Rate, in which case the Rate applicable to Return Accumulation Period shall be equal to the Rate last determined in relation to the Trust Certificates in respect of the immediately preceding Return Accumulation Period (or alternatively, if there has not been a first Periodic Distribution Date, the profit rate shall be the initial Rate), or the Rate applicable as at the last preceding Periodic Distribution Determination Date before the occurrence of the Benchmark Event is likely to result in Trust Certificates linked to or referencing the relevant Reference Rate performing differently (which may include payment of a lower Rate) than they would do if the relevant Reference Rate were to continue to apply, or if a Successor Rate or Alternative Rate could be determined. Any of the foregoing could have a material adverse effect on the value or liquidity of, and return on, any Floating Rate Trust Certificates which reference EURIBOR (or any other benchmark).

The above-mentioned risks related to benchmarks may also impact a wider range of benchmarks in the future. Investors in Floating Rate Trust Certificates which reference such other benchmarks should be mindful of the applicable fall-back provisions applicable to such Trust Certificates and the adverse effect this may have on the value or liquidity of, and return on, any Floating Rate Trust Certificates which reference any such benchmark.

Methodologies for the calculation of risk-free rates (including overnight rates or forward-looking rates) which are possible reference rates for the Trust Certificates may vary and may evolve

"Risk-free" rates, such as SONIA, SOFR and €STR as reference rates for Eurobonds, have become more commonly used as benchmark rates for bonds and sukuk in recent years. Most of the rates are backwards-looking, but the methodologies to calculate the risk-free rates are not uniform. Such different methodologies may result in slightly different profit amounts being determined in respect of otherwise similar securities.

In addition, investors should consider how any mismatch between applicable conventions for the use of reference rates in the security, financing and hedging markets may impact any hedging or other financial arrangements which they may put in place in connection with any acquisition, holding or disposal of Trust Certificates referencing such risk-free rates.

Trust Certificates referencing risk-free rates may also have no established trading market when issued, and an established trading market may never develop or may not be very liquid. Market terms for securities referencing such risk-free rates, such as the spread over the index reflected in profit rate provisions, may evolve over time, and trading prices of such Trust Certificates may be lower than those of later-issued indexed securities as a result. Further, if the relevant risk-free rates do not prove to be widely used in securities like the Trust Certificates, the trading price of such Trust Certificates linked to such risk-free rates may be lower than those of Trust Certificates referencing indices that are more widely used. Investors in such Trust Certificates may not be able to sell such Trust Certificates at all or may not be able to sell

such Trust Certificates at prices that will provide them with a yield comparable to similar investments that have a developed secondary market, and may consequently suffer from increased pricing volatility and market risk.

Certain administrators of risk-free rates have published hypothetical and actual historical performance data. Hypothetical data inherently includes assumptions, estimates and approximations and actual historical performance data may be limited in the case of certain risk-free rates. Investors should not rely on hypothetical or actual historical performance data as an indicator of the future performance of such risk-free rates.

Investors should consider these matters when making their investment decision with respect to any Trust Certificates which reference SONIA, SOFR, €STR or any related indices.

It is not possible to calculate profit rates in advance for Trust Certificates which reference SONIA, SOFR, €STR or any related indices

Profit on Trust Certificates which reference a backwards-looking risk-free rate is only capable of being determined immediately prior to the relevant Periodic Distribution Date. It may therefore be difficult for investors in Trust Certificates which reference such risk-free rates to reliably estimate the amount of profit which will be payable on such Trust Certificates. Further, in contrast to Trust Certificates referencing interbank offered rates, if Trust Certificates referencing backwards-looking SONIA, SOFR or €STR become due and payable under Condition 15 (*Dissolution Events*) or are otherwise redeemed early on a date which is not a Periodic Distribution Date, the final profit rate payable in respect of such Trust Certificates shall be determined by reference to a shortened period ending immediately prior to the date on which the Trust Certificates become due and payable or are scheduled for redemption.

Investors should consider these matters when making their investment decision with respect to any Trust Certificates.

Risks relating to Renminbi-denominated Trust Certificates

Trust Certificates denominated in Renminbi ("**Renminbi Trust Certificates**") may be issued under the Programme. Renminbi Trust Certificates contain particular risks for potential investors, including:

Renminbi is not completely freely convertible and there are regulations on the remittance of Renminbi into and outside the People's Republic of China which may adversely affect the liquidity of Renminbi Trust Certificates

Renminbi is not completely freely convertible at present. The government of the PRC (the "**PRC Government**") continues to regulate conversion between Renminbi and foreign currencies despite significant reduction over the years by the PRC Government of control over trade transactions involving import and export of goods and services as well as other frequent routine foreign exchange transactions. These transactions are known as current account items. However, remittance of Renminbi by foreign investors into the PRC for the purposes of capital account items such as capital contributions, is generally only permitted upon obtaining specific approvals from or completing specific registrations or filings with, the relevant authorities on a case-by-case basis and is subject to a strict monitoring system. Regulations in the PRC on the remittance of Renminbi into the PRC for settlement of capital account items are developing gradually.

Although the People's Bank of China (the "**PBOC**") has implemented policies improving accessibility to Renminbi to settle cross-border transactions in the past, there is no assurance that the PRC Government will liberalise regulations regarding cross-border remittance of Renminbi in the future or that new regulations in the PRC will not be promulgated in the future which have the effect of restricting or eliminating the remittance of Renminbi into or outside the PRC. In the event that funds cannot be repatriated outside the PRC in Renminbi, this may affect the overall availability of Renminbi outside the PRC and the ability of the Trustee to source Renminbi to finance its obligations under Renminbi Trust Certificates.

There is only limited availability of Renminbi outside the PRC, which may affect the liquidity of Renminbi Trust Certificates and the Trustee's ability to source Renminbi outside the PRC to service such Renminbi Trust Certificates

As a result of the regulation imposed by the PRC Government of cross-border Renminbi fund flows, the availability of Renminbi outside the PRC is limited.

While the PBOC has entered into agreements on the clearing of Renminbi business (the "**Settlement Agreements**") with financial institutions in a number of financial centres and cities (the "**RMB Clearing Banks**"), including but not limited to Hong Kong and is in the process of establishing Renminbi clearing and settlement mechanisms in several other jurisdictions, the current size of Renminbi-denominated financial assets outside the PRC is limited. Renminbi business participating banks do not have direct Renminbi liquidity support from the PBOC. The relevant RMB Clearing Bank only has access to onshore liquidity support from the PBOC for the purpose of squaring open positions of participating banks for limited types of transactions. The relevant RMB Clearing Bank is not obliged to square for participating banks any open positions resulting from other foreign exchange transactions or conversion services and the participating banks will need to source Renminbi from outside the PRC to square such open positions.

Although it is expected that the offshore Renminbi market will continue to grow in depth and size, its growth is subject to many constraints as a result of PRC laws and regulations on foreign exchange. There is no assurance that new PRC regulations will not be promulgated or the Settlement Agreements will not be terminated or amended in the future which will have the effect of restricting availability of Renminbi outside the PRC. The limited availability of Renminbi outside the PRC may affect the liquidity of the Renminbi Trust Certificates. To the extent the Trustee is required to source Renminbi outside the PRC to service the Renminbi Trust Certificates, there is no assurance that the Trustee will be able to source such Renminbi on satisfactory terms, if at all. If Renminbi is not available in certain circumstances as described in the Terms and Conditions applicable to Renminbi Trust Certificates, the Trustee can make payments in other currencies as set out in the Terms and Conditions.

Investment in Renminbi Trust Certificates is subject to exchange rate risks

The value of Renminbi against the U.S. dollar and other foreign currencies fluctuates from time to time and is affected by changes in the PRC and international political and economic conditions and by many other factors. In August 2015, the PBOC implemented changes to the way it calculates the midpoint against the U.S. dollar to take into account market-maker quotes before announcing the daily midpoint. This change, among others that may be implemented, may increase the volatility in the value of Renminbi against other currencies. All payments of profit and principal with respect to Renminbi Trust Certificates will be made in Renminbi unless otherwise specified. As a result, the value of these Renminbi payments in U.S. dollar or other foreign currency terms may vary with the prevailing spot exchange rates in the marketplace. If the value of Renminbi depreciates against the U.S. dollar or other applicable foreign currencies, the value of an investor's investment in U.S. dollar or other applicable foreign currency terms will decline.

In the event that access to Renminbi becomes restricted to the extent that, by reason of RMB Inconvertibility, RMB Non-transferability or RMB Illiquidity (as defined in the Terms and Conditions), the Trustee is unable, or it is impossible for it, to pay profit or principal in Renminbi, the Terms and Conditions allow the Trustee to make payment in such other currency as may be specified in the relevant Final Terms as the "Relevant Currency" at the prevailing spot rate of exchange, all as provided in more detail in the Terms and Conditions. As a result, the value of these Renminbi payments may vary with the prevailing spot exchange rates in the marketplace. If the value of the Renminbi depreciates against such currency as may be specified in the relevant Final Terms as the "Relevant Currency" or other foreign currencies, the value of a holder's investment in such currency as may be specified in the relevant Final Terms as the "Relevant Currency" or other foreign currency terms will decline.

An investment in Renminbi Trust Certificates is subject to profit rate risks

The PRC Government has gradually liberalised the regulation of interest rates in recent years. Further liberalisation may increase profit rate volatility. Renminbi Trust Certificates may carry a fixed profit. Consequently, the trading price of such Renminbi Trust Certificates will vary with fluctuations in profit. If a holder of Renminbi Trust Certificates tries to sell any Renminbi Trust Certificates before their maturity, they may receive an offer that is less than the amount invested.

Payments in respect of Renminbi Trust Certificates will only be made to investors in the manner specified in such Renminbi Trust Certificates

Investors may be required to provide certification and other information (including Renminbi account information) in order to be allowed to receive payments in Renminbi in accordance with the Renminbi clearing and settlement system for participating banks in the RMB Settlement Centre(s) (as defined in the Terms and Conditions). Except in the limited circumstances stipulated in Condition 9 (*Payment*), all Renminbi payments to investors in respect of Renminbi Trust Certificates will be made solely (i) for so long as such Renminbi Trust Certificates are represented by a Global Trust Certificate held with the common depositary for Euroclear and Clearstream, Luxembourg or any alternative clearing system, by transfer to a Renminbi bank account maintained in the applicable RMB Settlement Centre(s) in accordance with prevailing Euroclear and Clearstream, Luxembourg rules and procedures or those of such alternative clearing system, as set out in the relevant Final Terms, as the case may be; or (ii) for so long as such Renminbi Trust Certificates are represented by Individual Registered Trust Certificates (as defined in "Overview" above), by transfer to a Renminbi bank account maintained in the RMB Settlement Centre(s) in accordance with prevailing rules and regulations. Other than as described in the Terms and Conditions, the Trustee cannot be required to make payment by any other means (including in any other currency or in bank notes, by cheque or draft or by transfer to a bank account in the PRC).

Investment in Renminbi Trust Certificates may be subject to PRC tax

In considering whether to invest in any Renminbi Trust Certificates, investors should consult their individual tax advisers with regard to the application of PRC tax laws to their particular situations as well as any tax consequences arising under the laws of any other tax jurisdictions. The value of the Certificateholder's investment in any Renminbi Trust Certificates may be materially and adversely affected if the Certificateholder is required to pay PRC tax with respect to acquiring, holding or disposing of and receiving payments under those Renminbi Trust Certificates.

Risk Factors Relating to the Trust Certificates

The Trust Certificates are limited recourse obligations

The Trust Certificates to be issued under the Programme represent an undivided ownership interest solely in the relevant Trust Assets. Recourse in respect of each Series is limited to the Trust Assets of that Series and proceeds of such Trust Assets are the sole source of payments on the relevant Trust Certificates. Following an early dissolution for any reason (as further described in the Conditions), the sole rights of each of the Delegate and, through the Delegate, the Certificateholders of the relevant Series will be against the ICD to pay the relevant Purchase Undertaking Deed Exercise Price in respect of such Series (together with any amounts due to the Trustee pursuant to any other Programme Document or Transaction Document). Certificateholders will otherwise have no recourse to any affiliate of the foregoing entities, or the Delegate or any Agent or any of their respective affiliates, in respect of any shortfall in the expected amounts due under the relevant Trust Assets.

In addition, unless: (i) the Delegate, having become bound to proceed against the ICD: (a) fails to do so within a reasonable period; or (b) is unable by reason of an order of a court having competent jurisdiction to do so, and such failure or inability is continuing; and (ii) the relevant investor (or such investors together with other investors who propose to proceed directly against any of the Trustee or the ICD, as the case may be) holds at least 20 per cent. of the then outstanding aggregate face amount of the relevant Series of Trust Certificates, investors have no direct recourse to the ICD and there is no assurance that the net proceeds of the realisation of any enforcement action with respect to the Trust Assets (which will be by way of enforcing the ICD's and the Trustee's respective obligations under the Programme Documents and the Transaction Documents to which they are a party) will be sufficient to make all payments due in respect of the relevant Trust Certificates.

After enforcing or realising the rights in respect of the Trust Assets of a Series and distributing the net proceeds of such Trust Assets in accordance with Condition 5.2 (*Application of Proceeds from Trust Assets*), the obligations of the Trustee in respect of the Trust Certificates of the relevant Series shall be satisfied and neither the Delegate nor any Certificateholder may take any further steps against the Trustee to recover any further sums in respect of such Trust Certificates and the right to receive any such sums unpaid shall be extinguished. Furthermore, the Trustee, the Delegate or any Certificateholder shall have the right to cause the sale or other disposition of any of the Trust Assets in accordance with and to the extent

set out in the Transaction Documents. The sole right of the Trustee, the Delegate and the Certificateholders against the Obligor shall be to enforce the obligations of the Obligor under the Transaction Documents to which it is a party.

The Delegate may request the Certificateholders to provide an indemnity and/or security and/or prefunding to its satisfaction

In certain circumstances, the Delegate may (at its sole discretion) request the holders of the relevant Trust Certificates to provide an indemnity and/or security and/or pre-funding to its satisfaction before it takes actions on behalf of the holders of such Trust Certificates. The Delegate shall not be obliged to take any such actions if not indemnified and/or secured and/or pre-funded to its satisfaction. Negotiating and agreeing to an indemnity and/or security and/or pre-funding can be a lengthy process and may impact on when such actions can be taken. The Delegate may not be able to take actions, notwithstanding the provision of an indemnity and/or security and/or prefunding to it, in breach of the terms and conditions governing the relevant Trust Certificates or the relevant Programme Documents or the relevant Transaction Documents and/or in circumstances where there is uncertainty or dispute as to the applicable laws or regulations and, to the extent permitted by the relevant Programme Documents or the Transaction Documents and the applicable law, it will be for the holders of the relevant Trust Certificates to take such actions directly.

The Trust Certificates may be subject to early redemption

The Trust Certificates may be subject to early redemption in certain circumstances as further described in Condition 11 (*Capital Distributions of Trust*). An early dissolution feature of any Trust Certificate is likely to limit its market value. During any period when the Trustee may redeem any Trust Certificates, the market value of those Trust Certificates generally may not rise substantially above the dissolution amount payable.

Consents to variation of Programme Documents, Transaction Documents and other matters

The Master Trust Deed contains provisions permitting the Delegate, or Trustee acting on the directions of the Delegate, from time to time and at any time without any consent or sanction of the Certificateholders, to make any modification to the Programme Documents or the Transaction Documents if, in the opinion of the Delegate, such modification is: (i) of a formal, minor or technical nature; (ii) made to correct a manifest error or proven (to the satisfaction of the Delegate) error; or (iii) not materially prejudicial to the interest of Certificateholders and is other than in respect of a Reserved Matter. Unless the Delegate otherwise decides, any such modification shall as soon as practicable thereafter be notified to the Certificateholders and shall in any event be binding upon the Certificateholders.

Ability of defined majorities to bind all Certificateholders

The Master Trust Deed contains provisions for calling meetings of Certificateholders of a Series to consider matters affecting their interests generally. These provisions permit defined majorities to bind all Certificateholders of such a Series including Certificateholders who did not attend and vote at the relevant meeting and Certificateholders who voted in a manner contrary to the majority.

Investors who hold less than the minimum Specified Denomination may be unable to sell their Trust Certificates and may be adversely affected if individual registered Trust Certificates are subsequently required to be issued

In relation to any issue of Trust Certificates which have denominations consisting of a minimum Specified Denomination plus one or more higher integral multiples of another smaller amount, it is possible that such Trust Certificates may be traded in amounts in excess of the minimum Specified Denomination that are not integral multiples of such minimum Specified Denomination. In such a case a holder who, as a result of trading such amounts, holds an amount which is less than the minimum Specified Denomination in his account with the relevant clearing system would not be able to sell the remainder of such holding without first purchasing a face amount of Trust Certificates at or in excess of the minimum Specified Denomination such that its holding amounts to a Specified Denomination. Further, a holder who, as a result of trading such amounts, holds an amount which is less than the minimum Specified Denomination in his account with the relevant clearing system at the relevant time may not receive an individual Trust Certificate in respect of such holding (should individual Trust Certificates be printed) and would need to purchase a face amount of Trust Certificates at or in excess of the minimum Specified Denomination such that its holding amounts to a Specified Denomination.

If such Trust Certificates in individual form are issued, holders should be aware that individual Trust Certificates which have a denomination that is not an integral multiple of the minimum Specified Denomination may be illiquid and difficult to trade.

Risk Factors Relating to Enforcement

Enforcement risk

Ultimately, the payments under the Trust Certificates are dependent upon the ICD making payments in the manner contemplated under the Programme Documents and the Transaction Documents to which it is a party. If the ICD should fail to do so, it may be necessary to bring an action against the ICD to enforce its obligations which could be time consuming and costly.

The ICD has irrevocably agreed to the Transaction Documents and the Programme Documents being governed by English law and that any disputes shall be referred to and finally resolved by arbitration under the London Court of International Arbitration (LCIA) Rules. Notwithstanding that an arbitration award may be rendered in London, the New York Convention on the Recognition and Enforcement of Foreign Arbitral Awards 1958 (the "**New York Convention**") in favour of the Certificateholders, such awards may not be enforceable consistently under the laws of all of the ICD's Member Countries. The ICD has also agreed to submit to the jurisdiction of the English Courts at the option of the Delegate, the Certificateholders, the Agents or the Trustee, as the case may be, in respect of any dispute under certain Programme Documents and Transaction Documents. Notwithstanding that a judgment may be obtained in favour of the Certificateholders, there is no assurance that the ICD has or would at the relevant time have assets in the UK against which such a judgment could be enforced. Under the laws of some of the ICD's Member Countries (for example, under the laws of the Kingdom of Saudi Arabia) while the parties to any agreement may stipulate the laws of England as the law by which that agreement is to be governed and construed and submit to the jurisdiction of the English Courts, the courts of such Member Countries may not be bound by such acceptance or submission. If any actions were instituted before such courts and adjudicatory authorities, such courts and authorities may not apply the relevant foreign law but, rather, would apply local laws which may not recognise the doctrine of conflict of laws.

Furthermore, the ICD's Articles of Agreement provide that all property and assets of the ICD shall, wheresoever located and by whomsoever held, be immune from all forms of judicial seizure, attachment or execution before the delivery of a final judgment against it.

Claims for specific performance

In the event that the ICD fails to perform its obligations under the Programme Documents or the Transaction Documents to which it is a party, the potential remedies available to the Trustee include obtaining an order for specific performance of the ICD's obligations or a claim for damages. There is no assurance that a court will provide an order for specific performance which is a discretionary matter.

The amount of damages which a court may award in respect of a breach will depend upon a number of possible factors including an obligation on the Trustee to mitigate. No assurance is provided on the level of damages which a court may award in the event of a failure by the ICD to perform its obligations set out in the Programme Documents and/or the Transaction Documents.

Shari'a requirements in relation to interest awarded by an arbitrator or court

In accordance with applicable *Shari'a* principles, each of the Trustee and the Delegate will waive all and any entitlement it may have to interest awarded in its favour, whether by any arbitrator or court in connection with any dispute under any of the Programme Documents or the Transaction Documents or otherwise. Should there be any delay in the enforcement of a judgment or arbitration given against the ICD, judgment interest (or equivalent interest awarded in connection with an arbitration) may well accrue in respect of that delay and, as a result of the waiver referred to above, Certificateholders will not be entitled to receive any part of such interest.

Change of law

The structure of the Programme and of any issue of Trust Certificates under it are based on English law and administrative practice in effect as at the date of this Base Prospectus. No assurance can be given as to the impact of any possible judicial decision or change to English law or administrative practice after the date

of this Base Prospectus, nor can any assurance be given as to whether any such change could adversely affect the ability of the Trustee to make payments under the Trust Certificates or of the ICD to comply with its obligations under the Programme Documents and the Transaction Documents to which it is a party.

Additional Risk Factors

Credit ratings

The ICD has been assigned long-term ratings of 'A+' with a stable outlook from Fitch, 'A2' with a stable outlook from Moody's and 'A' with a stable outlook from S&P. Trust Certificates issued under the Programme may be rated. Where an issue of Trust Certificates is rated, such rating will not necessarily be the same as the rating assigned to other issues of Trust Certificates issued pursuant to the Programme. A rating is not a recommendation to buy, sell or hold securities, may not reflect the potential impact of all risks related to the structure and market factors discussed herein and other factors that may affect the value of the Trust Certificates and may be subject to suspension, reduction or withdrawal at any time by the assigning rating agency. Any adverse change in an applicable credit rating could adversely affect the trading price for the Trust Certificates issued under the Programme.

In general, European regulated investors are restricted under the CRA Regulation from using credit ratings for regulatory purposes, unless such ratings are issued by a credit rating agency established in the EEA and registered under the CRA Regulation (and such registration has not been withdrawn or suspended, subject to transitional provisions that apply in certain circumstances). Such general restriction may also apply in the case of credit ratings issued by non-EEA credit rating agencies, unless the relevant credit ratings are endorsed by an EEA-registered credit rating agency or the relevant non-EEA third country rating agency is certified in accordance with the CRA Regulation (and such endorsement action or certification, has not been withdrawn or suspended), subject to transitional provisions that apply in certain circumstances. The list of registered and certified rating agencies published by ESMA on its website in accordance with the CRA Regulation is not conclusive evidence of the status of the relevant rating agency included in such list, as there may be delays between certain supervisory measures being taken against a relevant rating agency and the publication of the updated ESMA list. Certain information with respect to the credit rating agencies and ratings is set out on the cover of this Base Prospectus.

Investors regulated in the UK are subject to similar restrictions under the UK CRA Regulation. As such, UK regulated investors are required to use for UK regulatory purposes ratings issued by a credit rating agency established in the UK and registered under the UK CRA Regulation. In the case of ratings issued by non-UK credit rating agencies, third country credit ratings can either be: (i) endorsed by a UK registered credit rating agency; or (ii) issued by a third country credit rating agency that is certified in accordance with the UK CRA Regulation. Note this is subject, in each case, to: (a) the relevant UK registration, certification or endorsement, as the case may be, not having been withdrawn or suspended; and (b) transitional provisions that apply in certain circumstances.

If the status of the rating agency rating the Trust Certificates changes, relevant regulated investors may no longer be able to use the rating for regulatory purposes in the EEA or the UK, as applicable, and the Trust Certificates may have a different regulatory treatment. This may result in relevant regulated investors selling the Trust Certificates which may impact the value of the Trust Certificates and any secondary market.

Absence of secondary market and limited liquidity

There is no assurance that a secondary market for the Trust Certificates of any Series will develop or, if it does develop, that it will provide the Certificateholders with liquidity of investment or that it will continue for the life of such Trust Certificates. Accordingly, a Certificateholder may not be able to find a buyer to buy its Trust Certificates readily or at prices that will enable the Certificateholder to realise a desired yield. The market value of the Trust Certificates may fluctuate and a lack of liquidity, in particular, can have a material adverse effect on the market value of the Trust Certificates. Accordingly, the purchase of the Trust Certificates is suitable only for investors who can bear the risks associated with a lack of liquidity in the Trust Certificates and the financial and other risks associated with an investment in the Trust Certificates. An investor in the Trust Certificates must be prepared to hold the Trust Certificates for an indefinite period of time or until their maturity.

Application may be made to Euronext Dublin for Trust Certificates issued under the Programme to be admitted to the Official List and to be admitted to trading on the regulated market of Euronext Dublin. In addition, an application has been made to the DFSA and to Nasdaq Dubai for Trust Certificates issued under this Programme during the period of 12 months from the date of this Base Prospectus to be admitted to Nasdaq Dubai. However, there can be no assurance that any such listing will occur or, if it does occur, that it will enhance the liquidity of the Trust Certificates.

TERMS AND CONDITIONS OF THE TRUST CERTIFICATES

The following is the text of the Terms and Conditions of the Trust Certificates, which (subject to modification and except for the text in italics) will be endorsed on each Trust Certificate in individual registered form issued under the Programme and will apply to the Global Trust Certificate. The relevant Final Terms in relation to any Tranche of Trust Certificates complete the following Terms and Conditions for the purpose of such Trust Certificates. The Terms and Conditions for any Trust Certificate in global form will differ from these terms and conditions which would apply to a Trust Certificate in individual registered form to the extent described under "Form of Trust Certificates".

ICDPS Sukuk Limited (in its capacity as issuer and as trustee, the "**Trustee**") has established a programme (the "**Programme**") for the issuance of Trust Certificates.

Trust Certificates issued under the Programme (the "**Trust Certificates**") are issued in series (each a "**Series**") of Trust Certificates and each Series may comprise one or more tranches (each a "**Tranche**"). Each Tranche is the subject of final terms ("**Final Terms**") in the case of a Tranche of **Trust Certificates**. The Conditions applicable to any particular Tranche of Trust Certificates are these Conditions as completed by the relevant Final Terms. In the event of any inconsistency between these Conditions and the relevant Final Terms, the relevant Final Terms shall prevail.

In these Conditions, references to "**Trust Certificates**" shall be references to Trust Certificates which are subject to the relevant Final Terms.

Each Trust Certificate will represent an undivided ownership interest in the relevant Trust Assets (as defined herein) held by the Trustee on trust (the "**Trust**") for, *inter alia*, the benefit of the registered holders of the Trust Certificates pursuant to: (a) an amended and restated master trust deed (the "**Master Trust Deed**") dated 22 September 2025 and made between the Trustee, the Islamic Corporation for the Development of the Private Sector (the "**ICD**") and The Law Debenture Trust Corporation p.l.c. (the "**Delegate**"); and (b) the relevant supplemental trust deed (each a "**Supplemental Trust Deed**" and, together with the Master Trust Deed, the "**Trust Deed**") applicable to each Tranche.

The Delegate is entitled to receive its properly incurred fees, costs, charges and expenses for acting in relation to the Trust Certificates from the distributions of Trust Assets ahead of the distributions to Certificateholders.

Payments relating to the Trust Certificates will be made pursuant to an amended and restated agency agreement dated 22 September 2025 (the "**Agency Agreement**") made between the Trustee, the ICD, the Delegate, HSBC Bank plc as principal paying agent (the "**Principal Paying Agent**", which expression shall include any successor agent) and as calculation agent (in such capacity as the "**Calculation Agent**") and HSBC Bank plc as registrar (in such capacity the "**Registrar**") and as transfer agent (in such capacity, the "**Transfer Agent**", and together with the Calculation Agent, the Transfer Agent, the Registrar, the Principal Paying Agent and any other paying agent appointed thereunder, the "**Agents**").

Subject as set out below, copies of the following documents are available for inspection and/or collection obtainable free of charge during normal business hours at the Specified Office (as defined herein) for the time being of the Principal Paying Agent. 7. FIXED PERIODIC DISTRIBUTION AMOUNT PROVISIONS

7.1 Application

This Condition 7 is applicable to the Trust Certificates only if the Fixed Periodic Distribution Amount Provisions are specified as applicable in the relevant Final Terms.

7.2 Periodic Distribution Amount

A Periodic Distribution Amount representing a defined share of the profit in respect of the Trust Assets for the relevant Series of Trust Certificates will be payable in respect of the Trust Certificates and be distributable by the Trustee (out of amounts transferred to the Transaction Account in accordance with the Programme Documents and/or the Transaction Documents) to the Certificateholders in accordance with these Conditions.

7.3 Calculation of Periodic Distribution Amount

The Periodic Distribution Amount payable in respect of each Trust Certificate for any Return Accumulation Period shall be the relevant Fixed Amount (or, if so specified in the Final Terms, the Broken Amount so specified) and, if the Trust Certificates are in more than one Specified Denomination, shall be the relevant Fixed Amount (or, as the case may be, Broken Amount) in respect of the relevant Specified Denomination.

In the case of a Trust Certificate where the Specified Currency is Renminbi and the relevant Final Terms specifies a Business Day Convention to be applicable (an "**Adjusted Renminbi Fixed Periodic Distribution Certificate**"), each Periodic Distribution Date (and, accordingly, the relevant Return Accumulation Period) will be adjusted (if required) in accordance with the relevant Business Day Convention. For this purpose, the provisions relating to the application of a Business Day Convention set out in Condition 9 (*Payment*) shall apply to this Condition 7.3, *mutatis mutandis*, save that, for the purposes of the Conditions relating to an Adjusted Renminbi Fixed Periodic Distribution Certificate, the term Business Day shall mean a day (other than a Saturday or Sunday) on which commercial banks and foreign exchange markets settle payments in the applicable RMB Settlement Centre(s).

The Periodic Distribution Amount payable on any Periodic Distribution Date in respect of each Trust Certificate for any period for which a Fixed Amount is not specified, shall be the amount determined by applying the applicable Rate to the Calculation Amount, multiplying the product by the relevant Day Count Fraction and rounding the resultant figure to the nearest sub-unit of the Specified Currency (half a sub-unit being rounded upwards) and multiplying such rounded figure by a fraction equal to the Specified Denomination of such Trust Certificate divided by the Calculation Amount. For this purpose, a "**sub-unit**" means, in the case of any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, in the case of euro, means one cent and, in the case of Renminbi, means CNY 0.01.

7.4 Periodic Distribution Date

Subject to Condition 7.6 (*Cessation of Profit Entitlement*) or any early redemption of the Trust Certificates pursuant to these Conditions (including, without limitation, pursuant to Condition 11 (*Capital Distribution of Trust*) or Condition 15 (*Dissolution Events*)), and unless otherwise specified in the relevant Final Terms, each Periodic Distribution Amount will be made in respect of the relevant Trust Certificates in arrear on each Periodic Distribution Date.

7.5 Return Accumulation Period

The Periodic Distribution Amount payable on each Periodic Distribution Date will be in respect of the relevant Return Accumulation Period which, unless otherwise specified in the relevant Final Terms, shall be the period from and including the Return Accrual Commencement Date of the relevant Series of Trust Certificates to but excluding the first Periodic Distribution Date in respect of such Series and each successive period from and including a Periodic Distribution Date to but excluding the next succeeding Periodic Distribution Date.

7.6 Cessation of Profit Entitlement

No further amounts will be payable on any Trust Certificate from and including the Maturity Date or, as the case may be, the relevant Dissolution Date, unless, upon due presentation, default is made in the payment of the relevant Dissolution Amount or any part thereof, in which case Periodic Distribution Amounts will continue to be payable in respect of the Trust Certificates in the manner provided in this Condition 7 to the earlier of: (a) the Relevant Date; or (b) the date on which a Sale Agreement or Transfer Agreement (as applicable) is executed pursuant to the Sale Undertaking

Deed or an ICD Purchase Agreement is executed pursuant to the Purchase Undertaking Deed, as the case may be. For the avoidance of doubt, in the event that the relevant Dissolution Date falls after the Maturity Date, no Periodic Distribution Amounts will accrue from and including the Maturity Date.

7.7 Notifications, etc. to be Final

All notifications, opinions, determinations, certificates, calculations, quotations and decisions given, expressed, made or obtained for the purposes of the provisions of this Condition 7, whether by the Calculation Agent or, if applicable, the Trustee or the Delegate, as the case may be, will (in the absence of wilful default, bad faith or of manifest error or proven error) be binding on the Trustee, the Delegate, the Principal Paying Agent and all Certificateholders of such Series. No liability to the Trustee, the ICD, the Delegate, the Principal Paying Agent or the Certificateholders shall attach to the Calculation Agent or, where applicable, the Trustee or the Delegate, as the case may be, in connection with the exercise or non-exercise by it of its powers, duties and discretions under this Condition 7.

8. FLOATING PERIODIC DISTRIBUTION AMOUNT PROVISIONS

8.1 Application

This Condition 8 is applicable to the Trust Certificates only if the Floating Periodic Distribution Amount Provisions are specified as applicable in the relevant Final Terms.

8.2 Periodic Distribution Amount

A Periodic Distribution Amount representing a defined share of the profit in respect of the Trust Assets for the relevant Series of Trust Certificates will be payable in respect of the Trust Certificates and be distributable by the Trustee (out of amounts transferred to the Transaction Account in accordance with the Programme Documents and/or the Transaction Documents) to the Certificateholders in accordance with these Conditions.

8.3 Screen Rate Determination (excluding for Trust Certificates referencing SONIA, SOFR or €STR)

Subject to Condition 8.11 (*Benchmark Replacement*), if Screen Rate Determination is specified in the relevant Final Terms as the manner in which the Rate(s) is/are to be determined and the Reference Rate is specified in the relevant Final Terms as being a Reference Rate other than SONIA, SOFR or €STR, the Rate applicable to the Trust Certificates for each Return Accumulation Period will be determined by the Calculation Agent on the following basis:

- (a) if the Reference Rate specified in the relevant Final Terms is a composite quotation or customarily supplied by one entity, the Calculation Agent will determine the Reference Rate which appears on the Relevant Screen Page as of the Relevant Time on the relevant Periodic Distribution Determination Date;
- (b) in any other case, the Calculation Agent will determine the arithmetic mean of the Reference Rates which appear on the Relevant Screen Page as of the Relevant Time on the relevant Periodic Distribution Determination Date;
- (c) if, in the case of paragraph (a) above, such rate does not appear on that page or, in the case of paragraph (b) above, fewer than two such rates appear on that page or if, in either case, the Relevant Screen Page is unavailable, the Calculation Agent will:
 - (i) request the principal Relevant Financial Centre office of each of the Reference Banks to provide a quotation of the Reference Rate at approximately the Relevant Time on the Periodic Distribution Determination Date to prime banks in the Relevant Financial Centre interbank market in an amount that is representative for a single transaction in that market at that time; and
 - (ii) determine the arithmetic mean of such quotations; and

- (d) subject to Condition 8.11 (*Benchmark Replacement*), if fewer than two such quotations are provided as requested, the Calculation Agent will determine the arithmetic mean of the rates (being the nearest to the Reference Rate, as determined by the Calculation Agent) quoted by major banks in the Principal Financial Centre of the Specified Currency, selected by the Calculation Agent, at approximately 11.00 a.m. (local time in the Principal Financial Centre of the Specified Currency) on the first day of the relevant Return Accumulation Period for financing in the Specified Currency to leading European banks for a period equal to the relevant Return Accumulation Period and in an amount that is representative for a single transaction in that market at that time,

and the Rate for such Return Accumulation Period shall be the sum of the Margin and the rate or (as the case may be) the arithmetic mean so determined, provided that if the Calculation Agent is unable to determine a rate or (as the case may be) an arithmetic mean in accordance with the above provisions in relation to any Return Accumulation Period, and provided further that such failure is not due to the occurrence of a Benchmark Event, the Rate applicable to the Trust Certificates during such Return Accumulation Period will be the sum of the Margin and the rate or (as the case may be) the arithmetic mean last determined in relation to the Trust Certificates in respect of a preceding Return Accumulation Period.

If the Rate cannot be determined because of the occurrence of a Benchmark Event, the Rate shall be calculated in accordance with the terms of Condition 8.11 (*Benchmark Replacement*).

In this Condition 8.3, Reference Rate shall be any one of the following as specified in the relevant Final Terms:

- CNH Hong Kong interbank offered rate ("CNH HIBOR")
- Emirates interbank offered rate ("EIBOR")
- Eurozone interbank offered rate ("EURIBOR")
- Hong Kong interbank offered rate ("HIBOR")

- (i) where the Calculation Method in respect of the relevant Series of Trust Certificates is specified in the relevant Final Terms as being "Compounded Daily", the Rate applicable to the Trust Certificates for each Return Accumulation Period will (subject to Condition 8.11 (*Benchmark Replacement*)) and subject as provided below) be the Compounded Daily Reference Rate plus or minus (as indicated in the relevant Final Terms) the Margin, all as determined by the Principal Paying Agent (or such other party responsible for the calculation of the Rate, as specified in the relevant Final Terms) on the Periodic Distribution Determination Date and the resulting percentage will be rounded, if necessary, to the fifth decimal place, with 0.000005 being rounded upwards; and
 - (ii) where the Calculation Method in respect of the relevant Series of Trust Certificates is specified in the relevant Final Terms as being "Weighted Average", the Rate applicable to the Trust Certificates for each Return Accumulation Period will (subject to Condition 8.11 (*Benchmark Replacement*)) and subject as provided below)

be the Weighted Average Reference Rate plus or minus (as indicated in the relevant Final Terms) the Margin, all as determined by the Principal Paying Agent (or such other party responsible for the calculation of the Rate, as specified in the relevant Final Terms) on the Periodic Distribution Determination Date and the resulting percentage will be rounded, if necessary, to the fifth decimal place, with 0.000005 being rounded upwards.

- (b) Where "SONIA" is specified as the Reference Rate in the relevant Final Terms, subject to Condition 8.11 (*Benchmark Replacement*), if, in respect of any Business Day, the Principal Paying Agent (or such other party responsible for the calculation of the Rate, as specified in the relevant Final Terms) determines that the SONIA rate is not available on the Relevant Screen Page or has not otherwise been published by the relevant authorised distributors, such SONIA rate shall be:
- (i) the Bank of England's Bank Rate (the "**Bank Rate**") prevailing at 5.00 p.m. (or, if earlier, close of business) on the relevant Business Day plus the mean of the spread of the SONIA rate to the Bank Rate over the previous five days on which a SONIA reference rate has been published, excluding the highest spread (or, if there is more than one highest spread, one only of those highest spreads) and lowest spread (or, if there is more than one lowest spread, one only of those lowest spreads); or
 - (ii) if the Bank Rate is not published by the Bank of England at 5.00 p.m. (or, if earlier, close of business) on the relevant Business Day, the SONIA rate published on the Relevant Screen Page (or otherwise published by the relevant authorised distributors) for the first preceding Business Day on which the SONIA rate was published on the Relevant Screen Page (or otherwise published by the relevant authorised distributors),

(and, in each case, "r" shall be interpreted accordingly).

- (c) Where "SOFR" is specified as the Reference Rate in the relevant Final Terms, subject to Condition 8.11 (*Benchmark Replacement*), if, in respect of any Business Day, the Principal Paying Agent (or such other party responsible for the calculation of the Rate, as specified in the relevant Final Terms) determines that the SOFR rate does not appear on the Relevant Screen Page (and is not otherwise published by the relevant authorised distributors), such Reference Rate shall be the SOFR for the first preceding Business Day on which the SOFR was published on the SOFR Administrator's Website (and "r" shall be interpreted accordingly).
- (d) Where "€STR" is specified as the Reference Rate in the relevant Final Terms, subject to Condition 8.11 (*Benchmark Replacement*), if, in respect of any Business Day, the Principal Paying Agent (or such other party responsible for the calculation of the Rate, as specified in the relevant Final Terms) determines that the €STR rate does not appear on the Relevant Screen Page (and is not otherwise published by the relevant authorised distributors), such Reference Rate shall be the €STR for the first preceding Business Day on which the €STR was published by the €STR Administrator on the €STR Administrator's Website as determined by the Principal Paying Agent (or such other party responsible for the calculation of the Rate, as specified in the relevant Final Terms) (and "r" shall be interpreted accordingly).
- (e) In the event that the Rate for the relevant Return Accumulation Period cannot be determined in accordance with the foregoing provisions, subject to Condition 8.11 (*Benchmark Replacement*), the Rate for such Return Accumulation Period shall be: (i) that determined as at the last preceding Periodic Distribution Determination Date (though substituting, where a different Margin is to be applied to the relevant Return Accumulation Period from that which applied to the last preceding Return Accumulation Period, the Margin relating to the relevant Return Accumulation Period, in place of the Margin relating to that last preceding Return Accumulation Period); or (ii) if there is no such preceding Periodic Distribution Determination Date, the initial Rate which would have been applicable to such Series of Trust Certificates for the first Return Accumulation Period had the Trust Certificates been in issue for a period equal in duration to the

scheduled first Return Accumulation Period but ending on (and excluding) the Return Accrual Commencement Date (but applying the Margin applicable to the first Return Accumulation Period).

- (f) If the relevant Series of Trust Certificates become due and payable in accordance with Condition 15 (*Dissolution Events*), the last Periodic Distribution Determination Date shall, notwithstanding any Periodic Distribution Determination Date specified in the relevant Final Terms, be deemed to be the date on which such Trust Certificates became due and payable and the Rate on such Trust Certificates shall, for so long as the Trust Certificates remain outstanding, be that determined on such date.
- (g) For the purposes of this Condition 8.4, if "Payment Delay" is specified in the relevant Final Terms as being applicable, all references in these Conditions to profit on the Trust Certificates being payable on a Periodic Distribution Date shall be read as references to profit on the Trust Certificates being payable on an Effective Periodic Distribution Date instead. 8.5 Cessation of Profit Entitlement

No further amounts will be payable on any Trust Certificate from and including the Maturity Date or, as the case may be, the relevant Dissolution Date unless, upon due presentation, default is made in the payment of the relevant Dissolution Amount or any part thereof, in which case Periodic Distribution Amounts will continue to be payable in respect of the Trust Certificates in the manner provided in this Condition 8 to the earlier of: (a) the Relevant Date; or (b) the date on which a Sale Agreement or Transfer Agreement (as applicable) is executed pursuant to the Sale Undertaking Deed or an ICD Purchase Agreement is executed pursuant to the Purchase Undertaking Deed, as the case may be. For the avoidance of doubt, in the event that the relevant Dissolution Date falls after the Maturity Date, no Periodic Distribution Amounts will accrue from and including the Maturity Date.

8.6 **Calculation of Periodic Distribution Amount**

The Calculation Agent will, as soon as practicable after the time at which the Rate is to be determined in relation to each Return Accumulation Period, calculate the Periodic Distribution Amount payable in respect of each Trust Certificate for such Return Accumulation Period. The Periodic Distribution Amount will be calculated by applying the Rate applicable to the relevant Return Accumulation Period to:

- (a) in the case of Trust Certificates that are represented by a Global Trust Certificate, the aggregate face amount outstanding of the Trust Certificate represented by such Global Trust Certificate; or
- (b) in the case of Trust Certificates in individual registered form, the Calculation Amount,

and in each case, multiplying the product by the relevant Day Count Fraction and rounding the resultant figure to the nearest sub-unit of the Specified Currency (half a sub-unit being rounded upwards). Where the Specified Denomination of a Trust Certificate in individual registered form is a multiple of the Calculation Amount, the Periodic Distribution Amount payable in respect of such Trust Certificate shall be the product of the amount determined in respect of such Trust Certificate above and the Specified Denomination divided by the Calculation Amount. For this purpose, a "sub-unit" means, in the case of any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, in the case of euro, means one cent.

8.7 **Return Accumulation Period**

The Periodic Distribution Amount payable on each Periodic Distribution Date will be in respect of the relevant Return Accumulation Period which, unless otherwise specified in the relevant Final Terms, shall be the period from and including the Return Accrual Commencement Date of the relevant Series of Trust Certificates to but excluding the first Periodic Distribution Date in respect of such Series and each successive period from and including a Periodic Distribution Date to but excluding the next succeeding Periodic Distribution Date.

8.8 **Calculation of Other Amounts**

If the relevant Final Terms specifies that any other amount is to be calculated by the Calculation Agent, the Calculation Agent will, as soon as practicable after the time or times at which any such amount is to be determined, calculate the relevant amount. The relevant amount will be calculated by the Calculation Agent in the manner specified in the relevant Final Terms.

8.9 **Publication**

The Calculation Agent will cause each Rate, Instalment Amount and Periodic Distribution Amount determined by it, together with the relevant Periodic Distribution Date, and any other amount(s) required to be determined by it together with any relevant payment date(s) to be notified to the Principal Paying Agent and each competent authority, stock exchange and/or quotation system (if any) by which the Trust Certificates have then been admitted to listing, trading and/or quotation as soon as practicable after such determination but (in the case of each Rate, Instalment Amount, Periodic Distribution Amount and Periodic Distribution Date) in any event not later than the first day of the relevant Return Accumulation Period. Notice thereof shall also promptly be given to the Certificateholders. The Calculation Agent (or, as the case may be, the Trustee or the Delegate) will be entitled to recalculate any Periodic Distribution Amount (on the basis of the foregoing provisions) without notice in the event of an extension or shortening of the relevant Return Accumulation Period. If the Calculation Amount is less than the minimum Specified Denomination the Calculation Agent shall not be obliged to publish each Periodic Distribution Amount but instead may publish only the Calculation Amount and the Periodic Distribution Amount in respect of a Trust Certificate having the minimum Specified Denomination.

8.10 **Notifications, etc. to be Final**

All notifications, opinions, determinations, certificates, calculations, quotations and decisions given, expressed, made or obtained for the purposes of the provisions of this Condition 8 (*Floating*

Periodic Distribution Amount Provisions), whether by the Calculation Agent, the ICD or, if applicable, the Trustee or the Delegate, as the case may be, will be binding on the Trustee, the Delegate, the Principal Paying Agent and all Certificateholders (in the absence of wilful default, bad faith or manifest error or proven error). No liability to the Trustee, the ICD, the Delegate, the Principal Paying Agent or the Certificateholders shall attach to the Calculation Agent or, where applicable, the Trustee or the Delegate, as the case may be, in connection with the exercise or non-exercise by it of its powers, duties and discretions under this Condition 8 (*Floating Periodic Distribution Amount Provisions*).

8.11 **Benchmark Replacement**

Notwithstanding the provisions in Condition 8.3 (*Screen Rate Determination (excluding for Trust Certificates referencing SONIA, SOFR and €STR)*) and Condition 8.4 (*Screen Rate Determination for Trust Certificates referencing SONIA, SOFR and €STR*), if the ICD (in consultation, to the extent practicable, with the Calculation Agent or such other person specified in the relevant Final Terms as the party responsible for calculating the Rate(s) and Periodic Distribution Amount(s)) determines that a Benchmark Event has occurred in relation to a Reference Rate when any Rate (or the relevant component part thereof) remains to be determined by such Reference Rate, then the following provisions shall apply:

- (a) the Trustee and the ICD shall use reasonable endeavours to appoint, as soon as reasonably practicable, an Independent Adviser to determine, no later than five Business Days prior to the relevant Periodic Distribution Determination Date relating to the next succeeding Return Accumulation Period (the "**IA Determination Cut-off Date**"), a Successor Rate or, alternatively, if there is no Successor Rate, an Alternative Rate and (in either case) any Adjustment Spread for purposes of determining the Rate (or the relevant component part thereof) applicable to the Trust Certificates for all future Return Accumulation Periods (subject to the subsequent operation of this Condition 8.11);
- (b) if the Trustee and the ICD are unable to appoint an Independent Adviser, or the Independent Adviser appointed by it fails to determine a Successor Rate or an Alternative Rate prior to the IA Determination Cut-off Date, the ICD (acting in good faith and in a commercially reasonable manner) may determine a Successor Rate or, alternatively, if there is no Successor Rate, an Alternative Rate and (in either case) any Adjustment Spread;
- (c) if a Successor Rate or, failing which, an Alternative Rate (as applicable) is determined in accordance with the preceding provision, such Successor Rate or, failing which, an Alternative Rate (as applicable) shall be the Reference Rate for each of the future Return Accumulation Periods (subject to the subsequent operation of, and to adjustment as provided in this Condition 8.11), provided that, if Condition 8.11(b) applies and the ICD is unable to or does not determine a Successor Rate or Alternative Rate prior to the relevant Periodic Distribution Determination Date, the Rate applicable to the next succeeding Return Accumulation Period shall be equal to the Rate last determined in relation to the Trust Certificates in respect of the preceding Return Accumulation Period (or alternatively, if there has not been a first Periodic Distribution Date, the profit rate shall be the initial Rate) (subject, where applicable, to substituting the Margin that applied to such preceding Return Accumulation Period for the Margin that is to be applied to the relevant Return Accumulation Period). For the avoidance of doubt, the proviso in this Condition 8.11(c) shall apply to the relevant Return Accumulation Period only and any subsequent Return Accumulation Periods are subject to the subsequent operation of and to adjustment as provided in this Condition 8.11;
- (d) if the Independent Adviser or the ICD determines a Successor Rate or, failing which, an Alternative Rate (as applicable) in accordance with the above provisions, the Independent Adviser (in consultation with the ICD) or the ICD (as applicable) may also without the consent or approval of Certificateholders, acting in good faith and in a commercially reasonable manner, specify changes to these Conditions, including but not limited to the Day Count Fraction, Relevant Screen Page, Business Day Convention, Business Days, Periodic Distribution Determination Date, and/or the definition of Reference Rate applicable to the Trust Certificates, and the method for determining the fallback rate in relation to the Trust Certificates, in order to ensure the proper operation of such Successor

Rate or Alternative Rate (as the case may be) and (in either case) any Adjustment Spread. If the Independent Adviser (in consultation with the ICD) or the ICD (as applicable) determines that an Adjustment Spread is required to be applied to the Successor Rate or the Alternative Rate (as applicable) and determines the quantum of, or a formula or methodology for determining, such Adjustment Spread, then such Adjustment Spread shall be applied to the Successor Rate or the Alternative Rate (as applicable). If the Independent Adviser (in consultation with the ICD) or the ICD (as applicable) is unable to determine the quantum of, or a formula or methodology for determining such Adjustment Spread, then such Successor Rate or Alternative Rate (as applicable) will apply without an Adjustment Spread;

- (e) if any Successor Rate, Alternative Rate or Adjustment Spread is determined in accordance with this Condition 8.11 and the Independent Adviser (if appointed) or the ICD (as applicable) (acting in good faith and in a commercially reasonable manner) determines that amendments to these Conditions, the Master Trust Deed, the Agency Agreement, any other Programme Document and/or any Transaction Document are necessary to ensure the proper operation of such Successor Rate, Alternative Rate and/or Adjustment Spread (such amendments, the "**Benchmark Amendments**"), then the Trustee and the ICD shall, subject to giving notice thereof in accordance with Condition 8.11(f), without any requirement for the consent or approval of Certificateholders, vary these Conditions, the Master Trust Deed, the Agency Agreement, such other Programme Document(s) and/or Transaction Document(s) to give effect to such Benchmark Amendments with effect from the date specified in such notice. At the request of the ICD, but subject to receipt by the Delegate of a certificate signed by two authorised signatories of the ICD confirming: (i) that a Benchmark Event has occurred; (ii) the Successor Rate or, as the case may be, the Alternative Rate; and (iii) where applicable, any Adjustment Spread and/or the specific terms of any Benchmark Amendments and that any such Benchmark Amendments are necessary to ensure the proper operation of such Successor Rate, Alternative Rate and/or Adjustment Spread, the Delegate shall, without any requirement for the consent or approval of the Certificateholders, be obliged to concur with the ICD in effecting any Benchmark Amendments (including, *inter alia*, by the execution of an agreement supplemental to or amending the Master Trust Deed, the Agency Agreement, any other Programme Document and/or any Transaction Document) provided that no such Benchmark Amendments shall impose more onerous obligations on the Delegate or expose it to any additional duties or liabilities, or decrease its rights and protections, unless the Delegate consents;
- (f) the Trustee and the ICD shall promptly, following the determination of any Successor Rate or Alternative Rate (as applicable) or Adjustment Spread and the specific terms of any Benchmark Amendments to these Conditions, the Master Trust Deed, the Agency Agreement, any other Programme Document and/or any Transaction Document, promptly give notice thereof to the Delegate, the Principal Paying Agent, the Calculation Agent and the Certificateholders. Such notice shall be irrevocable and shall specify the effective date of the Benchmark Amendments, if any; and
- (g) an Independent Adviser appointed pursuant to this Condition 8.11 shall act in good faith as an expert and (in the absence of negligence, wilful misconduct, bad faith or fraud) shall have no liability whatsoever to the ICD, the Trustee, the Delegate, the Principal Paying Agent, the Calculation Agent or the Certificateholders for any determination made by it pursuant to this Condition 8.11.

9. PAYMENT

Payment of Dissolution Amounts and Periodic Distribution Amounts will be made by transfer to the registered account (as defined below) of the Certificateholder or by cheque drawn on a bank that processes payments in the Specified Currency mailed to the registered address of the Certificateholder if it does not have a registered account. Payments of Dissolution Amounts and payments of Periodic Distribution Amounts due otherwise than on a Periodic Distribution Date will only be made against surrender of the relevant Trust Certificate at the Specified Office of any of the Agents. Periodic Distribution Amounts on Trust Certificates due on a Periodic Distribution Date will be paid to the holder shown on the Register on the Record Date.

For the purposes of this Condition 9, a Certificateholder's "**registered account**" means the account (which, in the case of a payment in Renminbi, means the Renminbi account) in the Specified Currency maintained by or on behalf of such Certificateholder with a bank that processes payments in the Specified Currency, details of which appear on the Register at the close of business, in the case of principal and Periodic Distribution Amounts due otherwise than on a Periodic Distribution Date, on the fifth (in the case of Renminbi) and the second (in the case of a currency other than Renminbi) Payment Business Day before the due date for payment and, in the case of principal and Periodic Distribution Amounts due on a Periodic Distribution Date, on the relevant Record Date, and a Certificateholder's registered address means its address appearing on the Register at that time.

All such payments will be made subject in all cases to: (a) any fiscal or other laws and regulations applicable thereto in the place of payment, but without prejudice to the provisions in Condition 13 (*Taxation*); and (b) any withholding or deduction required pursuant to an agreement described in Section 1471(b) of the U.S. Internal Revenue Code of 1986 (the "**Code**") or otherwise imposed pursuant to Sections 1471 through 1474 of the Code, any regulations or agreements thereunder, any official interpretations thereof, or (without prejudice to the provisions of Condition 13 (*Taxation*)) any law implementing an intergovernmental approach thereto.

Where payment is to be made by transfer to a registered account, payment instructions (for value the due date or, if that is not a Payment Business Day, for value the first following day which is a Payment Business Day) will be initiated and, where payment is to be made by cheque, the cheque will be mailed, on the Payment Business Day preceding the due date for payment or, in the case of a payment of principal or due otherwise than on a Periodic Distribution Date, if later, on the Payment Business Day on which the relevant Trust Certificate is surrendered at the Specified Office of an Agent.

Unless otherwise specified in the relevant Final Terms, Certificateholders will not be entitled to any payment for any delay after the due date in receiving the amount due if the due date is not a Payment Business Day, if the Certificateholder is late in surrendering its Trust Certificate (if required to do so) or if a cheque mailed in accordance with this Condition 9 arrives after the due date for payment.

If the amount of any Dissolution Amount or Periodic Distribution Amount which is due on the Trust Certificates is not paid in full, the Registrar will annotate the Register with a record of the amount of any Dissolution Amount or Periodic Distribution Amounts in fact paid.

If the Specified Currency of the Trust Certificates is Renminbi, "RMB Currency Event" is specified as being applicable in the relevant Final Terms and a RMB Currency Event exists on a date for payment of any amount in respect of any Trust Certificate, the Trustee's obligation to make a payment in Renminbi under the Conditions may be replaced by an obligation to pay such amount in the Relevant Currency specified in the relevant Final Terms converted using the Spot Rate for the relevant Rate Calculation Date.

Upon the occurrence of a RMB Currency Event, the Trustee shall give irrevocable notice as soon as practicable and not less than five days prior to the due date for payment to the Certificateholders in accordance with Condition 18 (*Notices*) stating the occurrence of the RMB Currency Event, giving details thereof and the action proposed to be taken in relation thereto.

Notwithstanding the foregoing, all payments in respect of any Trust Certificates in Renminbi will be made solely by credit to a Renminbi account maintained by the payee at a bank in the applicable RMB Settlement Centre(s) in accordance with applicable laws, rules, regulations and guidelines issued from time to time (including all applicable laws and regulations with respect to the settlement of Renminbi in the applicable RMB Settlement Centre(s)).

10. AGENTS

10.1 Agents of Trustee

In acting under the Agency Agreement and in connection with the Trust Certificates, the Agents act solely as agents of the Trustee and, to the extent provided therein, the Delegate, and do not

assume any obligations towards or relationship of agency or trust for or with any of the Certificateholders.

10.2 Specified Offices

The names of the initial Agents and the initial Specified Offices are listed in the Agency Agreement. Each of the Trustee and the ICD reserves the right at any time to vary or terminate the appointment of any Agent and to appoint additional or other Agents, provided that:

- (a) it will at all times maintain a Principal Paying Agent;
- (b) it will at all times maintain a Registrar;
- (c) if and for so long as any Trust Certificates are admitted to listing, trading and/or quotation on any competent authority, stock exchange and/or quotation system, it will at all times maintain a Principal Paying Agent and/or Transfer Agent having its Specified Office in any place required by such competent authority, stock exchange and/or quotation system; and
- (d) it will at all times maintain a Calculation Agent.

Notice of any termination or appointment and of any changes in Specified Offices will be given to the Certificateholders promptly by the Trustee in accordance with Condition 18 (*Notices*).

11. CAPITAL DISTRIBUTIONS OF TRUST

11.1 Scheduled Dissolution

Unless the Trust Certificates are redeemed earlier, each Series of the Trust Certificates will be redeemed on the relevant Maturity Date at its Final Dissolution Amount together with, for the avoidance of doubt, any due but unpaid Periodic Distribution Amounts (out of amounts transferred to the Transaction Account in accordance with the Programme Documents and/or the Transaction Documents).

11.2 Redemption by Instalments

In relation to any Series of Trust Certificates where the relevant Final Terms provide for this Condition 11.2 as being applicable, unless the Trust Certificates are redeemed earlier, the Trust Certificates shall be partially redeemed on each Instalment Date at the related Instalment Amount. The outstanding face amount of each such Trust Certificate shall be reduced by the Instalment Amount (or, if such Instalment Amount is calculated by reference to a proportion of the face amount of such Trust Certificate, such proportion) for all purposes with effect from the related Instalment Date.

No further amounts will be payable on any Trust Certificate from and including the relevant Instalment Date, unless, upon due presentation, default is made in the payment of the relevant Instalment Amount or any part thereof, in which case Periodic Distribution Amounts (if any) will continue to be payable in respect of the Trust Certificates in the manner provided in these Conditions to the earlier of: (a) the Relevant Date; or (b) the date on which a Sale Agreement or Transfer Agreement (as applicable) is executed pursuant to the Sale Undertaking Deed or an ICD Purchase Agreement is executed pursuant to the Purchase Undertaking Deed, as the case may be.

11.3 Early Dissolution for Tax Reasons

The Trustee may, at its option but with the prior written consent of the ICD, redeem the Trust Certificates in whole, but not in part, upon the occurrence of a Tax Event by giving not less than 30 nor more than 60 days' notice to the Certificateholders (which notice shall be irrevocable) and specifying the relevant dissolution date in such notice (the "**Tax Dissolution Date**"), provided that no such notice shall be given unless the Trustee has received the relevant exercise notice from the ICD under the Sale Undertaking Deed and no such notice of dissolution shall be given earlier than 90 days prior to the earliest date on which the Trustee or the ICD, as the case may be, would be

obliged to pay such additional amounts if a payment in respect of the Trust Certificates, any Programme Document or any Transaction Document (as applicable) were then due.

The Trustee shall redeem the Trust Certificates at the Early Dissolution Amount (Tax) (together with any due but unpaid Periodic Distribution Amounts (if any) to, but excluding, the Tax Dissolution Date) on the Tax Dissolution Date.

A "**Tax Event**" shall occur if:

The Trust in respect of a Series of Trust Certificates may be dissolved and the corresponding Trust Certificates redeemed at the option of the Trustee (with the prior written consent of the ICD) in whole, but not in part, at any time on giving not less than 30 nor more than 60 days' notice to the Certificateholders (which notice shall be irrevocable), at the Early Dissolution Amount (Tax), together with any due but unpaid Periodic Distribution Amounts (if any) to, but excluding, the Dissolution Date:

- (a) (i) the Trustee has or will become obliged to pay additional amounts as provided or referred to in Condition 13 (*Taxation*) as a result of any change in, or amendment to, the laws or regulations of a Relevant Jurisdiction or any change in the application or official interpretation of such laws or regulations (including a holding by a court of competent jurisdiction or, by any authority in or of a Relevant Jurisdiction having a power tax), which change or amendment becomes effective on or after the Issue Date of the first Tranche, and (ii) such obligation cannot be avoided by the Trustee taking reasonable measures available to it; and
- (b) the Trustee has received notice from the ICD that: (i) the ICD has or will become obliged to pay additional amounts pursuant to the terms of any of the Programme Documents or Transaction Documents to which it is a party as a result of any change in, or amendment to, the laws or regulations of a Relevant Jurisdiction or any change in the application or official interpretation of such laws or regulations (including a holding by a court of competent jurisdiction or, by any authority in or of a Relevant Jurisdiction have a power tax), which change or amendment becomes effective on or after the Issue Date of the first Tranche; and (ii) such obligation cannot be avoided by the ICD taking reasonable measures available to it,

provided that the Trustee has delivered to the Delegate and the Principal Paying Agent: (i) a certificate signed by two directors of the Trustee (in the case of paragraph (a) above) or two authorised signatories of the ICD (in the case of paragraph (b) above) stating that the Trustee is entitled to effect such redemption and dissolution and setting forth a statement of facts showing that the conditions precedent in paragraph (a) or paragraph (b) above, as the case may be, have occurred; and (ii) an opinion of independent legal or tax advisers of recognised standing to the effect that the Trustee or the ICD, as the case may be, has or will become obliged to pay such additional amounts as a result of such change or amendment. The Delegate shall be entitled to accept (without further investigation) any such certificate and opinion as sufficient evidence thereof, in which case it shall be conclusive and binding on the Certificateholders.

11.4 **Dissolution at the Option of the Trustee**

If the Optional Dissolution (Call) Right is specified in the relevant Final Terms as being applicable, the Trustee may, at its option but with the prior written consent of the ICD, redeem the Trust Certificates in whole, but not in part, on the Optional Dissolution Date by giving not less than 30 nor more than 60 days' notice to the Certificateholders (which notice shall be irrevocable).

The Trustee shall redeem the Trust Certificates at the Optional Dissolution Amount (Call) (together with any due but unpaid Periodic Distribution Amounts (if any) to, but excluding, the Optional Dissolution Date out of amounts transferred to the Transaction Account in accordance with the Programme Documents and/or the Transaction Documents) on the Optional Dissolution Date.

11.5 **Dissolution following a Tangibility Event**

Upon the occurrence of a Tangibility Event and receipt of a Tangibility Event Notice (as defined in the Master Service Agency Agreement) pursuant to the terms of the Master Service Agency

Agreement, the Trustee shall promptly give notice (a "**Delisting Notice**") to the Certificateholders in accordance with Condition 18 (*Notices*), specifying: (a) that a Tangibility Event has occurred, together with an explanation of the reasons for, and evidence of, such occurrence; (b) that, as determined in consultation with the *Shari'a* Adviser, the Trust Certificates shall only be tradable in accordance with the *Shari'a* principles of debt trading (such as the principle that debt is to be traded against tangible assets and/or eligible commodities on a spot settlement basis); (c) that, on the date falling 15 days following the Tangibility Event Redemption Date, the Trust Certificates will be delisted from any stock exchange (if any) on which the Trust Certificates have been admitted to listing or if such date is not a business day, the next following business day ("**business day**" being, for this purpose, a day on which the stock exchange on which the Trust Certificates are admitted to listing is open for business); and (d) the Tangibility Event Put Period, during which period any Certificateholder shall have the right to require the redemption of all or any of its Trust Certificates.

Upon receipt of the Delisting Notice, a Certificateholder may exercise its right to require the redemption of all or any of its Trust Certificates by delivering a notice to the Delegate (the "**Tangibility Event Put Notice**") during the Tangibility Event Put Period and in accordance with the standard procedures of, and in a form acceptable to, the relevant clearing system(s) from time to time. Any such Tangibility Event Put Notice shall be irrevocable except where, prior to the relevant Tangibility Event Redemption Date, a Dissolution Event has occurred and the Delegate has declared the Trust Certificates due and payable pursuant to Condition 15 (*Dissolution Events*), in which event such Certificateholder may elect by notice to the Trustee to withdraw its Tangibility Event Put Notice.

If any Certificateholder exercises its right to redeem its Trust Certificates in accordance with this Condition 11.5, the Trustee shall redeem such Trust Certificates at the Tangibility Event Dissolution Amount (together with any due but unpaid Periodic Distribution Amounts (if any) to, but excluding, the Tangibility Event Redemption Date out of amounts transferred to the Transaction Account in accordance with the Programme Documents and/or the Transaction Documents) on the Tangibility Event Redemption Date.

For the avoidance of doubt, neither the Delegate nor any Agent will have any responsibility for monitoring or ensuring compliance with any such *Shari'a* principles of debt trading (such as the principle that debt is to be traded against tangible assets and/or eligible commodities on a spot settlement basis) nor shall it be liable to any Certificateholder or any other persons in respect thereof.

11.6 **Dissolution following a Total Loss Event**

Upon the occurrence of a Total Loss Event, the Service Agent shall promptly, upon becoming aware of any such occurrence, notify the Trustee, and upon such notification, the Trustee shall promptly deliver a notice to the relevant Certificateholders (a "**Trading and Delisting Notice**") in accordance with Condition 18 (*Notices*) specifying that: (a) such event has occurred; (b) from the date of such Trading and Delisting Notice, and until any further notice from the Trustee, in consultation with the *Shari'a* Adviser, the Trust Certificates should be tradable only in accordance with *Shari'a* principles of debt trading (such as the principle that debt is to be traded against tangible assets and/or eligible commodities on a spot settlement basis); and (c) on the date of such Trading and Delisting Notice an application will be made for the Trust Certificates to be delisted from any stock exchange (if any) on which such Trust Certificates have been admitted to listing or if such date is not a business day, the next following business day ("**business day**" being, for this purpose, a day on which the stock exchange on which the Trust Certificates are admitted to listing is open for business).

If the relevant Portfolio Assets have been replaced as set out in the Master Service Agency Agreement by the 59th day after the occurrence of a Total Loss Event in accordance with the Master Service Agency Agreement, the Service Agent shall notify the Trustee and the Delegate of the same and the Trustee shall promptly, following receipt of such notice from the Service Agent and in consultation with the *Shari'a* Adviser, deliver a notice to the Certificateholders in accordance with Condition 18 (*Notices*) that: (i) from the date of that notice the Trust Certificates may be traded at any price; and (ii) the Trust Certificates shall be re-listed, as soon as reasonably

practicable, on the stock exchange (if any) on which the Trust Certificates had previously been admitted to listing.

If the relevant Portfolio Assets have not been replaced as set out in the Master Service Agency Agreement by the 59th day after the occurrence of a Total Loss Event, the Trustee shall, by no later than the close of business in London on the 61st day after the occurrence the Total Loss Event (the "**Total Loss Dissolution Date**"), redeem such Trust Certificates at the Total Loss Dissolution Amount (together with any due but unpaid Periodic Distribution Amounts (if any) to, but excluding, the Total Loss Dissolution Date out of amounts transferred to the Transaction Account in accordance with the Programme Documents and/or the Transaction Documents).

For the avoidance of doubt, neither the Delegate nor any Agent will have any responsibility for monitoring or ensuring compliance with any such *Shari'a* principles of debt trading (such as the principle that debt is to be traded against tangible assets and/or eligible commodities on a spot settlement basis) nor shall it be liable to any Certificateholder or any other persons in respect thereof.

11.7 Clean Up Call Right

If 75 per cent. or more of the aggregate face amount of Trust Certificates then outstanding have been redeemed pursuant to Condition 11.5 (*Dissolution following a Tangibility Event*), the Trustee may, at its option but with the prior written consent of the ICD, redeem the Trust Certificates in whole, but not in part, by giving not less than 15 nor more than 30 days' notice to the Certificateholders (which notice shall be irrevocable) on the dissolution date specified in such notice (the "**Clean Up Dissolution Date**").

The Trustee shall redeem the Trust Certificates at the Clean Up Call Dissolution Amount (together with any due but unpaid Periodic Distribution Amounts (if any) to, but excluding, the Clean Up Dissolution Date out of amounts transferred to the Transaction Account in accordance with the Programme Documents and/or the Transaction Documents) on the Clean Up Dissolution Date.

11.8 No Other Optional Early Dissolution

The Trustee shall not be entitled to redeem any Series of Trust Certificates and the Trustee shall not be entitled to dissolve the Trust created in respect of such Series at its option otherwise than as provided in this Condition 11.

11.9 Cancellation

All Trust Certificates which are redeemed will forthwith be cancelled and, accordingly, may not be held, reissued or resold. If all (and not some only) of the outstanding Trust Certificates are cancelled pursuant to this Condition 11, the Trust shall be dissolved, the Trust Certificates shall cease to represent interests in the Trust Assets and no further amounts shall be payable in respect thereof and the Trustee shall have no further obligations in respect thereof.

12. PURCHASE OF TRUST CERTIFICATES

The ICD may at any time purchase Trust Certificates at any price in the open market or otherwise. Following any purchase of Trust Certificates pursuant to this Condition 12, the ICD may deliver such Trust Certificates to the Principal Paying Agent for cancellation and by delivering a Cancellation Notice (as defined in the Sale Undertaking Deed) to the Trustee. Accordingly, such Trust Certificates will forthwith be cancelled and, accordingly, may not be held, reissued or resold. If all (and not some only) of the outstanding Trust Certificates are cancelled pursuant to this Condition 12, the Trust shall be dissolved, the Trust Certificates shall cease to represent interests in the Trust Assets and no further amounts shall be payable in respect thereof and the Trustee shall have no further obligations in respect thereof.

13. TAXATION

All payments in respect of the Trust Certificates by or on behalf of the Trustee shall be made without withholding or deduction for, or on account of, any Taxes, unless the withholding or deduction of the Taxes is required by law. In such event, the Trustee will pay to the

Certificateholders additional amounts so that the full amount which otherwise would have been receivable under the Trust Certificates is received by parties entitled thereto, except that no such additional amount shall be payable to any Certificateholder:

- (a) who is liable for such Taxes in respect of such Trust Certificate by reason of having some connection with any Relevant Jurisdiction other than the mere holding of such Trust Certificate; or
- (b) where (in the case of principal or Periodic Distribution Amounts on dissolution) the relevant Trust Certificate is surrendered for payment more than 30 days after the Relevant Date except to the extent that the relevant Certificateholder would have been entitled to such additional amount if it had surrendered the relevant Trust Certificate on the last day of such period of 30 days, assuming that day to have been a Payment Business Day.

In these Conditions, references to Dissolution Amounts and Periodic Distribution Amount shall be deemed to include any additional amounts payable under this Condition 13.

14. **PRESCRIPTION**

The rights to receive distributions in respect of the Trust Certificates will be forfeited unless presented for payment within periods of ten years (in the case of Dissolution Amounts) and a period of five years (in the case of Periodic Distribution Amounts) from the Relevant Date in respect thereof.

15. **DISSOLUTION EVENTS**

If any of the following events occurs and is continuing (each, a "**Dissolution Event**"):

- (a) default is made in the payment of any Dissolution Amount in respect of the relevant Series of Trust Certificates on the date fixed for payment thereof, or default is made in the payment of any Periodic Distribution Amount in respect of any Trust Certificate on the due date for payment thereof, and in the case of any Periodic Distribution Amount only, such default continues for a period of seven days;
- (b) the Trustee fails duly to perform or comply with any of the obligations expressed to be assumed by it in the Programme Documents or Transaction Documents to which it is a party and such failure or breach remains unremedied for 30 days after the Delegate has given written notice thereof to the Trustee;
- (c) an Insurance Notice Event and/or an ICD Event occurs;
- (d) the Trustee repudiates any Programme Document or Transaction Document to which it is a party or does or causes to be done any act or thing evidencing an intention to repudiate any Programme Document or Transaction Document to which it is a party; or
- (e) at any time it is or will become unlawful for the Trustee (by way of insolvency or otherwise) to perform or comply with any of its obligations under the Programme Documents or Transaction Documents or any of the obligations of the Trustee under the Programme Documents or Transaction Documents are not or cease to be legal, valid, binding and enforceable,

then the Delegate at its discretion may, and if so requested in writing by the Certificateholders representing not less than one-fifth in face amount of the Trust Certificates of the relevant Series for the time being outstanding or if so directed by an Extraordinary Resolution (a "**Dissolution Request**"), and subject to being indemnified and/or secured and/or prefunded to its satisfaction and to the provisions of Condition 16.2 (*Enforcement by the Delegate*) shall, give notice to the Trustee and the ICD (delivered to the Trustee and the ICD or to the Specified Office of the Principal Paying Agent) (a "**Dissolution Notice**") that the Trust Certificates of the relevant Series are to be redeemed whereupon they shall become immediately due and payable on the date specified in such Dissolution Notice which may be the date of the Dissolution Notice (such date being, the "**Dissolution Event Redemption Date**") at their Dissolution Event Amount together with due but unpaid Periodic Distribution Amounts (if any) to, but excluding, the Dissolution Event Redemption

Date. A copy of the Dissolution Notice shall also promptly be given by the Delegate to the Certificateholders of the relevant Series in accordance with Condition 18 (*Notices*). Upon payment in full of such amounts, the Trust Certificates shall cease to represent interests in the Trust Assets and no further amounts shall be payable in respect thereof and the Trustee shall have no further obligations in respect thereof and the Trust in respect of the relevant Series of Trust Certificates shall be dissolved on the day after the last outstanding Trust Certificate has been redeemed.

The Trustee and/or the ICD shall notify the Delegate promptly following the occurrence of a Dissolution Event.

Upon the occurrence of a Dissolution Event or a Potential Dissolution Event, the Delegate shall (subject to Condition 16.2 (*Enforcement by the Delegate*)) take one or more of the following steps:

- (a) enforce the provisions of any of the Trust Certificates, the Programme Documents or the Transaction Documents in respect of a relevant Series; and
- (b) take such proceedings and/or other steps as it may think fit against or in relation to each of the Trustee and/or the ICD to realise Trust Assets and to recover amounts due to Certificateholders.

Following the enforcement, realisation and ultimate distribution of the net proceeds of the relevant Trust Assets in respect of the Trust Certificates to the Certificateholders in accordance with these Conditions and the Trust Deed, the Trustee shall not be liable for any further sums and, accordingly, Certificateholders may not take any action against the Trustee, the Delegate or any other person (including the ICD) to recover any such sum in respect of the Trust Certificates or the relevant Trust Assets.

16.2 Enforcement by the Delegate

The Delegate shall not be bound in any circumstances to take any action, step or proceeding to enforce or to realise the Trust Assets or take any action, steps or proceedings against the Trustee and/or the ICD under any of the Programme Documents or the Transaction Documents to which the Trustee or the ICD is a party unless directed or requested to do so: (a) by an Extraordinary Resolution; or (b) in writing by the Certificateholders holding at least one-fifth in face amount of the Trust Certificates then outstanding and, in either case, then only if it shall be indemnified and/or pre-funded and/or secured to its satisfaction against all Liabilities to which it may render itself liable or which it may incur by so doing.

16.3 No Direct Enforcement by Certificateholders

No Certificateholder shall be entitled to proceed directly against the Trustee or the ICD unless: (a) the Delegate, having become bound so to proceed: (i) fails to do so within a reasonable period; or (ii) is unable by reason of an order of a court having competent jurisdiction to do so, and such failure or inability is continuing; and (b) the relevant Certificateholder (or such Certificateholder together with the other Certificateholders who propose to proceed directly against any of the Trustee or the ICD, as the case may be) holds at least 20 per cent. of the then outstanding Aggregate Nominal Amount of the relevant Series of Trust Certificates. The Trustee, the Delegate or any Certificateholder shall have the right to cause the sale or other disposition of any of the relevant Trust Assets to the extent set out in and as expressly contemplated in the Programme Documents, the Transaction Documents and/or these Conditions, and the sole right of the Trustee, the Delegate and the Certificateholders against the Trustee and the Obligor (as applicable) shall be to enforce their respective obligations under the Programme Documents and the Transaction Documents.

16.4 No Further Steps

The foregoing paragraphs in this Condition 16 are subject to this Condition 16.4. After enforcing or realising the relevant Trust Assets and distributing the net proceeds of the relevant Trust Assets in accordance with Condition 5.2 (*Application of Proceeds from Trust Assets*), the obligations of the Trustee in respect of the Trust Certificates shall be satisfied and no Certificateholder may take any further steps against the Trustee to recover any further sums in respect of the Trust Certificates and the right to receive any such sums unpaid shall be extinguished. In particular, no Certificateholder shall be entitled in respect thereof to petition or to take any other steps for the winding-up of the Trustee or the Delegate.

16.5 Limited Recourse and Non-Petition

The Certificateholders acknowledge and agree that, notwithstanding anything to the contrary contained herein or in any Programme Document or Transaction Document:

- (a) no payment of any amount whatsoever under or in connection with these Conditions, any Programme Document or any Transaction Document shall be made by the Trustee (acting in any capacity) (and/or its shareholders, officers, directors or corporate services providers in their capacity as such) or any agents thereof except to the extent that funds are available therefor from the Trust Assets of the relevant Series of Trust Certificates;
- (b) no recourse may be had in respect of any shortfall in the amounts due and owing under or in connection with these Conditions, any Programme Document or any Transaction Document, whether for the payment of any fee, indemnity or other amount under, or any other obligation or claim arising out of or based upon, these Conditions, any Programme Document or any Transaction Document, against the Trustee (acting in any capacity) (and/or its shareholders, officers, directors or corporate services providers in their capacity as such) to the extent that the Trust Assets have been exhausted, following which all obligations of the Trustee shall be extinguished;
- (c) it will not petition for, or join any other person in instituting proceedings for, the reorganisation, liquidation, winding-up or receivership of the Trustee or any of its affiliates as a consequence of such shortfall or otherwise;
- (d) no recourse shall be had to any assets of the Trustee (and/or its shareholders, officers, directors or corporate services providers in their capacity as such) (other than Trust Assets of the relevant Series of Trust Certificates) or the ICD (to the extent it fulfils its obligations under the Programme Documents and Transaction Documents to which it is a party) or any of their affiliates in respect of any shortfall in the expected amounts from the relevant Trust Assets to the extent the relevant Trust Assets have been exhausted following which all the obligations of the Trustee shall be extinguished; and
- (e) it shall not be entitled to claim or exercise any right of set-off or counterclaim, in respect of any sums due under these Conditions, any Programme Document or any Transaction Document or claim any lien or other rights over any property held by the Trustee.

17. **REPLACEMENT OF INDIVIDUAL REGISTERED TRUST CERTIFICATES**

Should any Trust Certificate be lost, stolen, mutilated, defaced or destroyed it may be replaced at the Specified Office of the Transfer Agent upon payment by the claimant of the expenses incurred in connection with the replacement and on such terms as to evidence and indemnity as the Trustee may reasonably require. Mutilated or defaced Trust Certificates must be surrendered before replacements will be issued.

18. **NOTICES**

All notices regarding the Trust Certificates will be deemed to be validly given if mailed to the Certificateholders at their respective addresses on the Register and, if the Trust Certificates are admitted to trading on the regulated market of Euronext Dublin (or any other Stock Exchange (and when the rules of such Stock Exchange so require)), if published in a leading English language daily newspaper published in London (which is expected to be the *Financial Times*) or in either case, if such publication is not practicable, in a leading English language daily newspaper having general circulation in Europe (or published in a daily newspaper of general circulation in the jurisdiction of such Stock Exchange in the case of Trust Certificates admitted to trading on any other Stock Exchange). The Trustee shall also ensure that notices are duly published in a manner which complies with the rules of any competent authority, stock exchange and/or quotation system on which any Trust Certificates are from time to time admitted to listing, trading and/or quotation, including publication on the website of the relevant stock exchange, relevant competent authority or relevant quotation system.

Any such notice will be deemed to have been given on the seventh day after being so mailed or, if required to be published, on the date of the first publication or, where required to be published in more than one newspaper, on the date of the first publication in all required newspapers. Notices to be given by any Certificateholders shall be in writing and given by lodging the same, together with the relevant Certificate of Registration or Certificates of Registration, with the Registrar.

19. **MEETINGS OF CERTIFICATEHOLDERS, MODIFICATION, WAIVER, AUTHORISATION AND DETERMINATION AND REPLACEMENT OF DELEGATE**

The Master Trust Deed contains provisions for the Trustee and/or Delegate and/or the ICD to convene meetings of Certificateholders to consider any matter affecting their interests, including the modification or abrogation by Extraordinary Resolution of any of these Conditions, any of the provisions of the Master Trust Deed, or any other Programme Document or Transaction Document. The quorum at any meeting convened for passing an Extraordinary Resolution relating to the exercise of a Right to Register (as defined in the Master Trust Deed) will be one or more Eligible Persons holding or representing in the aggregate not less than 51 per cent. in face amount of the Trust Certificates for the time being outstanding and no such meeting shall be capable of adjournment. The quorum at any meeting for passing an Extraordinary Resolution (other than in connection with the exercise of a Right to Register) will be one or more Eligible Persons holding or representing in the aggregate more than 50 per cent. of the Aggregate Nominal Amount of the relevant Series of the Trust Certificates for the time being outstanding, or at any adjourned meeting one or more Eligible Persons present whatever the face amount of the Trust Certificates held or represented by them, except that any meeting the business of which includes a Reserved Matter (as defined in the Master Trust Deed), the quorum shall be one or more Eligible Persons present and holding or representing in aggregate not less than 75 per cent. of the Aggregate Nominal Amount of the Trust Certificates for the time being outstanding, or at any adjourned meeting, the quorum shall be one or more Eligible Persons present and holding or representing in aggregate not less than 25 per cent. of the Aggregate Nominal Amount of the Trust Certificates for the time being outstanding.

To be passed, an Extraordinary Resolution (other than in connection with the exercise of a Right to Register) requires a majority in favour consisting of not less than 75 per cent. of the persons voting on a show of hands or, if a poll is duly demanded, a majority of not less than 75 per cent. of the votes cast on such poll and, if duly passed, will be binding on all holders of the relevant Series of the Trust Certificates, whether or not they are present at the meeting and whether or not voting. In addition, a resolution in writing signed, or consent given by way of electronic consents through the relevant clearing system(s), by or on behalf of not less than 75 per cent. of Aggregate Nominal Amount of the Trust Certificates of the relevant Series or, as the case may be, the Trust Certificates of the relevant Series outstanding will take effect as if it were an Extraordinary Resolution (other than in connection with the exercise of a Right to Register). Such a resolution in writing may be contained in one document or several documents in the same form, each signed by or on behalf of one or more Certificateholders.

To be passed, an Extraordinary Resolution relating to the exercise of the Right to Register requires a majority in favour voting thereat upon a show of hands or, if a poll is duly demanded, by a majority of the votes cast on such poll, in each case, holding or representing in the aggregate not less than 51 per cent. in face amount of the Trust Certificates. In addition, a resolution in writing signed, or consent given by way of electronic consents through the relevant clearing system(s), by or on behalf of a majority in favour holding or representing in the aggregate not less than 51 per cent. in face amount of the Trust Certificates will take effect as if it were an Extraordinary Resolution relating to the exercise of the Right to Register. Such a resolution in writing may be contained in one document or several documents in the same form, each signed by or on behalf of one or more Certificateholders.

The Delegate may from time to time and at any time without any consent or sanction of the Certificateholders agree and require the Trustee to agree to any modification to these Conditions, the Master Trust Deed, or any other Programme Document or any Transaction Document if in its opinion such modification is: (a) of a formal, minor or technical nature; (b) made to correct a manifest error or proven (to the satisfaction to the Delegate) error; or (c) not materially prejudicial to the interests of the Certificateholders and is other than in respect of a Reserved Matter. In addition, other than in respect of a Reserved Matter, the Delegate may from time to time and at any time without any consent or sanction of the Certificateholders and on any such terms and conditions as seem expedient to it: (i) agree to the waiver or authorisation of any breach or proposed breach of, any of these Conditions, any provisions of the Master Trust Deed, any Programme Document or any other Transaction Document; or (ii) determine that any Dissolution Event or Potential Dissolution Event shall not be treated as such, which is not, in each case, in the opinion of the Delegate, materially prejudicial to the interests of the Certificateholders, provided that the

Delegate shall not exercise any such powers in contravention of any express direction by Extraordinary Resolution or of a request in writing made by Certificateholders representing not less than one-fifth in face amount of Trust Certificates of the relevant Series for the time being outstanding (but so that no such direction or request shall affect any waiver, authorisation or determination previously given or made). In addition, the Delegate shall (without any requirement for the consent or approval of the Certificateholders) be obliged to concur with the ICD in effecting any Benchmark Amendments.

In connection with the exercise by it of any of the powers, trusts, authorities and discretions vested in it by the Master Trust Deed, the Trust Certificates, the Conditions, the other Programme Documents or any Transaction Documents (including, without limitation, any modification, waiver, authorisation or determination), the Trustee and, where applicable, the Delegate shall have regard to the general interests of the Certificateholders as a class (but shall not have regard to any interests arising from circumstances particular to individual Certificateholders (whatever their number) and, in particular but without limitation, shall not have regard to the consequences of any such exercise for individual Certificateholders (whatever their number) resulting from their being for any purpose domiciled or resident in, or otherwise connected with, or subject to the jurisdiction of, any particular territory or any political sub-division thereof) and neither the Trustee nor the Delegate shall be entitled to require, nor shall any Certificateholder be entitled to claim from the Trustee, the Delegate or any other person, any indemnification or payment in respect of any tax consequence of any such exercise upon individual Certificateholders except to the extent provided in Condition 13 (*Taxation*).

Any modification, abrogation, waiver, authorisation or determination shall be binding on all the Certificateholders and, unless the Delegate otherwise decides, the Trustee shall be required to notify the Certificateholders of any modification, abrogation, waiver, authorisation or determination as soon as practicable thereafter in accordance with Condition 18 (*Notices*).

The Master Trust Deed also contains provisions regarding: (1) the removal of the Delegate in respect of a Series of Trust Certificates pursuant to an Extraordinary Resolution of Certificateholders of the relevant Series of Trust Certificates; and (2) the retirement of the Delegate upon not less than three months' notice in writing to the ICD and the Certificateholders of Trust Certificates then outstanding, provided that no such removal or retirement may become effective until a successor Delegate is appointed.

20. INDEMNIFICATION AND LIABILITY OF THE TRUSTEE AND THE DELEGATE

The Master Trust Deed contains provisions for the indemnification of each of the Trustee and the Delegate in certain circumstances and for its relief from responsibility, including provisions relieving the Trustee or the Delegate from taking action unless indemnified and/or pre-funded and/or secured to its satisfaction.

The Delegate makes no representation and assumes no responsibility for the validity or enforceability of the Programme Documents or the Transaction Documents and shall not under any circumstances have any liability to the Certificateholders in respect of any payment or delivery which should have been made by it, the Trustee or the ICD but is not so made or be obliged to account to the Certificateholders for any amount on any sum or assets which should have been paid or delivered by it, the Trustee or the ICD.

The Master Trust Deed contains provisions pursuant to which no director or officer of the Delegate or of any holding, affiliated or associated company of the Delegate shall be precluded from underwriting Trust Certificates issued under the Programme, with or without a commission or other remuneration, or from purchasing or otherwise acquiring, holding, dealing in or disposing of any notes, bonds, sukuk, debentures, shares or securities whatsoever or from being interested in any contract or transaction or from accepting and holding the office of trustee or administrator for the holders of any other securities, and in any such case neither the Delegate nor any director or officer of the Delegate shall be liable to the Certificateholders for any profit made by it or him thereby or in connection therewith.

21. **CURRENCY INDEMNITY**

All payments made in respect of the Trust Certificates shall be made in the Specified Currency irrespective of the currency of the Trust Assets. In respect of each Series of Trust Certificates and unless otherwise specified in the relevant Supplemental Trust Deed, the Trustee shall indemnify the Delegate and the Certificateholders and keep them indemnified against:

- (a) any Liability incurred by any of them arising from the non-payment in respect of any Series of Trust Certificates or of any other amount due to the Delegate or the Certificateholders under the Trust Deed or these Conditions by reason of any variation in the rates of exchange between those used for the purposes of calculating the amount due under a judgment or order in respect thereof and the spot rate prevailing at the date of actual payment; and
- (b) any deficiency arising or resulting from any variation in spot rates of exchange between:
(i) the date as of which the local currency equivalent of the amounts due or contingently due under the Trust Deed or these Conditions (other than this Condition 21) is calculated for the purposes of any bankruptcy, insolvency or liquidation of the relevant Trust, the Trustee or the ICD; and (ii) the final date for ascertaining the amount of claims in such bankruptcy, insolvency or liquidation relevant. The amount of such deficiency shall be deemed not to be reduced by any variation in rates of exchange occurring between the said final date and the date of any distribution of assets in connection with any such bankruptcy, insolvency or liquidation.

The above indemnities shall constitute obligations of the Trustee separate and independent from its obligations under the other provisions of the Trust Deed or these Conditions and shall apply irrespective of any indulgence granted by the Certificateholders from time to time and shall continue in full force and effect notwithstanding the judgment or filing of any proof or proofs in any bankruptcy, insolvency or liquidation of the relevant Trust, the Trustee or the ICD for a liquidated sum or sums in respect of amounts due under the Trust Deed or these Conditions (other than this Condition 21). Any such deficiency as aforesaid shall be deemed to constitute an actual loss suffered by the Certificateholders and no proof or evidence of any actual loss shall be required by the Trustee or the liquidator or liquidators of the Trust.

22. **FURTHER ISSUES**

In respect of any Series, the Trustee may from time to time, and on the Issue Date specified in the Final Terms in respect of each Tranche of Trust Certificates issued subsequent to the first Tranche of Trust Certificates, create and issue further Trust Certificates having the same terms and conditions as the outstanding Trust Certificates of such Series or terms and conditions which are the same in all respects save for the date and amount of the first payment of the Periodic Distribution Amount and the date from which Periodic Distribution Amounts start to accrue and so that such further issue shall be consolidated and form a single Series with the outstanding Trust Certificates of such Series. Any further Trust Certificates which are to form a single Series with the outstanding Trust Certificates previously constituted by the Trust Deed shall be constituted by a deed supplemental to the Trust Deed. The Certificateholders shall be deemed to have agreed that the Trustee may create and issue such further Trust Certificates without requiring any further consent from the Certificateholders. References in these Conditions to the Trust Certificates include (unless the context requires otherwise) any other Trust Certificates issued pursuant to this Condition 22 and forming a single Series with the Trust Certificates.

23. **CONTRACTS (RIGHTS OF THIRD PARTIES) ACT 1999**

No rights are conferred on any person under the Contracts (Rights of Third Parties) Act 1999 to enforce any term of these Conditions, but this does not affect any right or remedy of any person which exists or is available apart from that Act.

24. **SHARI'A COMPLIANCE**

Each of ICDPS Sukuk Limited and the Islamic Corporation for the Development of the Private Sector hereby agrees that it has accepted the *Shari'a*-compliant nature of the Conditions and the

Programme Documents and Transaction Documents to which it is a party and, to the extent permitted by law, further agrees that:

- (a) it shall not claim that any of its obligations under the Conditions (in the case of ICDPS Sukuk Limited) and/or the Programme Documents and/or the Transaction Documents to which it is a party (or any provision thereof) is *ultra vires* or not compliant with the principles of *Shari'a*;
- (b) it shall not take any steps or bring any proceedings in any forum to challenge the *Shari'a* compliance of the Conditions and/or the Programme Documents and/or the Transaction Documents to which it is a party; and
- (c) none of its obligations under the Conditions (in the case of ICDPS Sukuk Limited) and/or the Programme Documents and/or the Transaction Documents to which it is a party shall in any way be diminished, abrogated, impaired, invalidated or otherwise adversely affected by any finding, declaration, pronouncement, order or judgment of any court, tribunal or other body that the Conditions and/or the Programme Documents and/or the Transaction Documents to which it is a party are not compliant with the principles of *Shari'a*.

25. GOVERNING LAW AND DISPUTE RESOLUTION

25.1 Governing Law

Each Programme Document (other than the Corporate Services Agreement) and each Transaction Document, and any contractual or non-contractual obligations arising out of or in connection with any of them, is governed by, and shall be construed in accordance with, English law.

25.2 Agreement to Arbitrate

Subject to Condition 25.3 (*Option to litigate*), any dispute, claim, difference or controversy arising out of, relating to or having any connection with the Trust Deed, the Trust Certificates and these Conditions (including any dispute as to the existence, validity, interpretation, performance, breach or termination of the Trust Deed, the Trust Certificates and these Conditions or the consequences of the nullity of any of them or any dispute relating to any non-contractual obligations arising out of or in connection with them) (a "**Dispute**") shall be referred to and finally resolved by arbitration under the London Court of International Arbitration (LCIA) Arbitration Rules (the "**Rules**"), which Rules (as amended from time to time) are incorporated by reference into this Condition 25.2. For these purposes:

- (a) the place of arbitration shall be London;
- (b) there shall be three arbitrators, each of whom shall be disinterested in the arbitration, shall have no connection with any party thereto and shall be an attorney experienced in international securities transactions. The parties to the Dispute shall each nominate one arbitrator in the Request (as defined in the Rules) or Response (as defined in the Rules), as the case may be, and both arbitrators in turn shall appoint a further arbitrator who shall be the chairman of the Arbitral Tribunal (as defined in the Rules). In cases where there are multiple claimants and/or multiple respondents, the class of claimants jointly, and the class of respondents jointly shall each nominate one arbitrator. If one party or both fails to nominate an arbitrator within the time limits specified by the Rules, such arbitrator(s) shall be appointed by the LCIA. If the party nominated arbitrators fail to nominate the third arbitrator within 15 days of the appointment of the second arbitrator, such arbitrator shall be appointed by the LCIA; and
- (c) the language of the arbitration shall be English.

25.3 Option to Litigate

Notwithstanding Condition 25.2 (*Agreement to arbitrate*), the Delegate or (but only where permitted to take action in accordance with the terms of the Trust Deed and these Conditions) any

Certificateholder may, in the alternative, and at its sole discretion, by notice in writing to the Trustee and the ICD:

- (a) within 28 days of service of a Request; or
- (b) in the event no arbitration is commenced,

require that a Dispute be heard by a court of law. If the Delegate or, as the case may be, a Certificateholder, gives such notice, the Dispute to which such notice refers shall be determined in accordance with Condition 25.4 (*Effect of exercise of option to litigate*) and, subject as provided below, any arbitration commenced under Condition 25.2 (*Agreement to arbitrate*) in respect of that Dispute will be terminated. With the exception of the Delegate (whose costs will be borne by the ICD), each of the parties to the terminated arbitration will bear its own costs in relation thereto.

If any notice to terminate is given after service of any Request in respect of any Dispute, the Delegate or, as the case may be, the relevant Certificateholder, must also promptly give notice to the LCIA and to any Arbitral Tribunal already appointed in relation to the Dispute that such Dispute will be settled by the courts. Upon receipt of such notice by the LCIA, the arbitration and any appointment of any arbitrator in relation to such Dispute will immediately terminate. Any such arbitrator will be deemed to be *functus officio*. The termination is without prejudice to:

- (i) the validity of any act done or order made by that arbitrator or by the court in support of that arbitration before his appointment is terminated;
- (ii) the arbitrator's entitlement to be paid his proper fees and disbursements; and
- (iii) the date when any claim or defence was raised for the purpose of applying any limitation bar or any similar rule or provision.

25.4 Effect of Exercise of Option to Litigate

In the event that a notice pursuant to Condition 25.3 (*Option to litigate*) is issued, the following provisions shall apply:

- (a) subject to paragraph (c) below, the courts of England shall have exclusive jurisdiction to settle any Dispute and each of the Trustee and the ICD submits to the exclusive jurisdiction of such courts;
- (b) each of the Trustee and the ICD agrees that the courts of England are the most appropriate and convenient courts to settle any Dispute and, accordingly, that it will not argue to the contrary; and
- (c) this Condition 25.4 is for the benefit of the Delegate and Certificateholders only. As a result, and notwithstanding paragraph (a) above, the Delegate or (but only where permitted to take action in accordance with the terms of the Trust Deed and these Conditions) any Certificateholder may take proceedings relating to a Dispute ("**Proceedings**") in any other courts with jurisdiction. To the extent allowed by law, the Delegate or, as the case may be, the Certificateholders may take concurrent Proceedings in any number of jurisdictions.

25.5 Process Agent

Each of the Trustee and the ICD appoints Walkers (Europe) at The Scalpel, 11th Floor, 52 Lime Street, London EC3M 7AF, United Kingdom as its agent for service of process and undertakes that, in the event of Walkers ceasing so to act or ceasing to be registered in England, it will appoint another person approved by the ICD and the Delegate as its agent for service of process in respect of any Proceedings or Disputes. Nothing herein shall affect the right to serve proceedings in any manner permitted by law. Each of the Trustee and the ICD agrees that failure by a process agent to notify it of any process will not invalidate service.

25.6 Waiver of Immunity

The ICD represents and warrants that it has entered into the Programme Documents to which it is a party, and it shall enter into any Transaction Document to which it is a party, in connection with the exercise of its powers to raise money and issue securities, and, accordingly, it is not entitled to claim for itself or any of its assets immunity from legal process in actions taken in relation to any Programme Document or any Transaction Document and brought against it in a court of competent jurisdiction by the Trustee and/or the Delegate irrespective of the identity of the holders of the Trust Certificates, provided that no form of seizure, attachment or execution may be exercised against its property and assets wheresoever located and by whomsoever held, before the delivery of final judgment against it.

25.7 Waiver of Interest

- (a) Each of the Trustee and the ICD irrevocably agrees that no interest will be payable or receivable under or in connection with these Conditions and each of the Trustee and the ICD agrees that it will not claim any interest in respect of any Proceedings brought by or on behalf of any party under these Conditions. If it is determined that any interest is payable or receivable in connection with these Conditions by the Trustee or the ICD, whether as a result of any judicial or arbitral award or by operation of any applicable law or otherwise, each of the Trustee and the ICD agrees to waive any rights it may have to claim or receive such interest and agrees that if any such interest is actually received by it, it shall promptly donate the same to a registered or otherwise officially recognised charitable organisation.
- (b) For the avoidance of doubt, nothing in Condition 25.7(a) shall be construed as a waiver of rights in respect of any Periodic Distribution Amounts, Required Amounts, Profit Collections, Deferred Payment Price Instalment, Full Reinstatement Value, Total Loss Shortfall Amount, Dissolution Amounts, Deferred Payment Price, Sale Undertaking Deed Exercise Price, Purchase Undertaking Deed Exercise Price or profit or principal of any kind howsoever described payable by the Trustee (in any capacity) or the ICD (in any capacity) pursuant to the Programme Documents, the Transaction Documents and/or these Conditions, howsoever such amounts may be described or re-characterised by any court or arbitral tribunal.

FORM OF TRUST CERTIFICATES

Trust Certificates issued under the Programme will only be issued in registered form. Trust Certificates will be issued outside the United States in reliance on Regulation S.

Global Trust Certificates

Each Series of Trust Certificates will be evidenced by the Global Trust Certificate which will be deposited with, and registered in the name of a nominee for, a common depositary for Euroclear and Clearstream, Luxembourg. Only in the exceptional circumstances outlined below will individual registered trust certificates ("**Individual Registered Trust Certificates**") evidencing holdings of Trust Certificates to be issued in exchange for the Global Trust Certificate relating to the relevant Series.

Holders

For so long as any of the Trust Certificates is represented by a Global Trust Certificate held on behalf of Euroclear and/or Clearstream Luxembourg, the registered holder of the Global Trust Certificate shall, except as ordered by a court of competent jurisdiction or as required by law, be treated as the holder thereof (the "**Registered Holder**"). Each person (other than Euroclear or Clearstream, Luxembourg) who is for the time being shown in the records of Euroclear or of Clearstream, Luxembourg as entitled to a particular face amount of such Trust Certificates (in which regard, any certificate or other document issued by Euroclear or Clearstream, Luxembourg as to the face amount of such Trust Certificates standing to the account of any person shall be conclusive and binding for all purposes save in the case of manifest error or proven error) shall be treated as the holder of such face amount of such Trust Certificates for all purposes (including for the purposes of any quorum requirements of, or the right to demand a poll at, meetings of the Certificateholders) other than with respect to the payment of any amount payable on the face amount of any such Trust Certificates, for which purpose the Registered Holder of this Global Trust Certificate shall be deemed to be the holder of such face amount of the Trust Certificates in accordance with and subject to the terms of this Global Trust Certificate and the expressions "**Certificateholder**" and "**holder**" in relation to any Trust Certificates and related expressions shall be construed accordingly.

References to Euroclear and/or Clearstream, Luxembourg shall, whenever the context so permits, be deemed to include a reference to any additional or alternative clearing system specified in the relevant Final Terms.

Each Global Trust Certificate will be in registered form and registered in the name of a nominee for, and deposited on or about the relevant Issue Date with, a common depositary for Euroclear and Clearstream, Luxembourg. Upon confirmation from the common depositary that it holds the relevant Global Trust Certificate, Euroclear or Clearstream, Luxembourg, as the case may be, will record book-entry interests in the beneficial owner's account or the participant account through which the beneficial owner holds its interests in such Global Trust Certificate. These book-entry interests will represent the beneficial owner's beneficial interest in the relevant Global Trust Certificate. Beneficial interests in a Global Trust Certificate will be shown on, and the transfers thereof will be effected only through, records maintained by Euroclear and Clearstream, Luxembourg and their participants.

Exchange for Individual Registered Certificates

Unless otherwise specified in the relevant Final Terms, each Global Trust Certificate will become exchangeable in whole, but not in part, for Individual Registered Trust Certificates only in the limited circumstances specified in the relevant Global Trust Certificate. Beneficial owners of interests in a Global Trust Certificate will only be entitled to receive Individual Registered Trust Certificates under the following limited circumstances:

- (i) if either Euroclear or Clearstream, Luxembourg is closed for business for a continuous period of 14 days (other than by reason of holiday, statutory or otherwise) or announces an intention permanently to cease business or does in fact do so and no alternative clearing system satisfactory to the Trustee acting on the instructions of the ICD and (if so directed by the Certificateholders) the Delegate is available; or
- (ii) if any of the circumstances described in Condition 15 (*Dissolution Events*) occurs.

Thereupon the registered holder of the Global Trust Certificate or the Delegate may present the relevant Global Trust Certificate on any day (other than a Saturday or Sunday) on which banks are open for business in the city in which the Registrar has its office for exchange for the corresponding Individual Registered Trust Certificates.

In no event will Individual Registered Trust Certificates in bearer form be issued. Any Individual Registered Trust Certificate will be issued in registered form in the denominations specified in the relevant Final Terms.

Whenever a Global Trust Certificate is to be exchanged for Individual Registered Trust Certificates, such Individual Registered Trust Certificates will be issued in an aggregate face amount equal to the face amount of such Global Trust Certificate within five business days of the delivery, by or on behalf of the registered holder of the Global Trust Certificate, Euroclear, Clearstream, Luxembourg, and/or any other relevant clearing system to the Registrar of such information as is required to complete and deliver such Individual Registered Trust Certificates (including, without limitation, the names and addresses of the persons in whose names the Individual Registered Trust Certificates are to be registered and the face amount of each such person's holding) against the surrender of the Global Trust Certificate at the specified office of the Registrar. Such exchange will be effected in accordance with the provisions of the Agency Agreement and the regulations concerning the transfer and registration of Global Trust Certificates in schedule 3 (*Register and Transfer of Individual Registered Trust Certificates*) to the Master Trust Deed and, in particular, shall be effected without charge to any holder, but against such indemnity as the Registrar may require in respect of any tax or other duty of whatsoever nature which may be levied or imposed in connection with such exchange.

Payments

Whilst any Trust Certificates are represented by a Global Trust Certificate, Dissolution Amount and Periodic Distribution Amount payments on the Trust Certificates will be made to the Principal Paying Agent (as defined in the Terms and Conditions) and then credited by the Principal Paying Agent to the cash accounts of Euroclear, Clearstream, Luxembourg or their nominee or their common depositary as the registered holder of the relevant Trust Certificates. After receipt of any payment from the Principal Paying Agent to the common depositary, Euroclear or Clearstream, Luxembourg as the case may be, will credit their respective participants' accounts in proportion to those participants' holdings as shown in the records of Euroclear and Clearstream, Luxembourg, respectively. Payments by participants in Euroclear or Clearstream, Luxembourg to the beneficial owners of the relevant Trust Certificates will be governed by standing instructions, customary practice and any statutory or regulatory requirements as may be in effect from time to time. These payments will be the responsibility of the relevant participant and not of Euroclear, Clearstream, Luxembourg, the Principal Paying Agent or the Trustee.

Cancellation

Cancellation of any Trust Certificate represented by a Global Trust Certificate that is surrendered for cancellation (other than upon its redemption in full) will be effected by reduction in the aggregate face amount of the relevant Series of Trust Certificates in the Register.

Notices

In addition, each Global Trust Certificate contains provisions which modify the terms and conditions of the Trust Certificates as they apply to the Trust Certificates evidenced by such Global Trust Certificate. Notwithstanding Condition 18 (*Notices*), so long as any Global Trust Certificate is held on behalf of or for Euroclear, Clearstream, Luxembourg or any other clearing system (an "**alternative clearing system**"), notices to the holders of the Trust Certificates represented by such Global Trust Certificate may be given by delivery of the relevant notice to Euroclear, Clearstream, Luxembourg. Any notice delivered to Euroclear, Clearstream, Luxembourg or (as the case may be) such alternative clearing system shall be deemed to have been given on the day of delivery.

Meetings

It is a condition of the Trust Certificates that the Trustee is entitled to rely and bound to act only on the instructions of the Delegate acting on directions of the Certificateholders. It is a term of the Trust Certificates that whilst the Trust Certificates are in global form, for the purposes of convening meetings of

Certificateholders and obtaining instructions from Certificateholders and exercising discretions on their behalf, the Delegate (but not the Trustee) shall treat the Accountholders as if they were Certificateholders.

Euroclear and Clearstream, Luxembourg

Euroclear and Clearstream, Luxembourg each holds securities for their Accountholders and facilitate the clearance and settlement of securities transactions by electronic book-entry transfer between their respective Accountholders.

Euroclear and Clearstream, Luxembourg each provides various services including safekeeping, administration, clearance and settlement of internationally traded securities and securities lending and borrowing. Euroclear and Clearstream, Luxembourg each also deals with domestic securities markets in several countries through established depositary and custodial relationships. The respective systems of Euroclear and Clearstream, Luxembourg have established an electronic bridge between their two systems across which their respective Accountholders may settle trades with each other.

Accountholders in both Euroclear and Clearstream, Luxembourg are worldwide financial institutions including underwriters, securities brokers and dealers, banks, trust companies and clearing corporations. Indirect access to both Euroclear and Clearstream, Luxembourg is available to other institutions that clear through or maintain a custodial relationship with an accountholder of either system.

An Accountholder's overall contractual relations with either Euroclear or Clearstream, Luxembourg are governed by the respective rules and operating procedures of Euroclear or Clearstream, Luxembourg and any applicable laws. Both Euroclear and Clearstream, Luxembourg act under such rules and operating procedures only on behalf of their respective accountholders and have no record of or relationship with persons holding through their respective accountholders.

USE OF PROCEEDS

The net proceeds of each Tranche of the Trust Certificates issued under the Programme will be applied by the Trustee for the purchase of the Initial Asset Portfolio or Additional Assets (as the case may be) and, if applicable, for the purchase of the Commodities from the Commodity Agent (which may be on-sold to the ICD in consideration for the Deferred Payment Price). The ICD may, in turn, on-sell such Commodities to a commodity broker for a purchase price.

The net proceeds that the ICD receives from the sale of the Initial Asset Portfolio or Additional Assets (as the case may be) and, if applicable, the purchase price for the Commodities will be used by it for general corporate purposes.

The Articles of Agreement establishing the ICD have been signed and ratified or accepted by each of the Member Countries, the IsDB and the other Members.

As a multilateral development financial institution, the ICD is not subject to national banking regulation and is not supervised by any external regulatory authority. However, it is closely supervised by its general assembly (the "**General Assembly**"), its board of directors (the "**Board of Directors**"), its executive committee (the "**Executive Committee**") and its audit committee (the "**Audit Committee**") appointed by the Board of Directors (see "*Organisation, Management and Employment*" below).

The ICD has been granted certain immunities and privileges by the governments of the Member Countries. Pursuant to its Articles of Agreement, actions may only be brought against the ICD in a court of competent jurisdiction in a Member Country in which the ICD has an office, has appointed an agent for the purpose of accepting service or notice of process or where the ICD has issued or guaranteed securities. Moreover,

the property and assets of the ICD shall, wherever so located, be immune from all forms of judicial seizure, attachment or execution before delivery of a final judgment against the ICD. Such property and assets shall also be immune from search, requisition, confiscation, expropriation or any form of seizure through executive or legislative action by any government of a Member Country. Further, no action shall be brought against the ICD by any of the Members or persons acting or deriving claims from any of the Members or in respect of any personnel matters.

In each Member Country, the ICD has been granted an exemption from all taxes and tariffs on assets, property income and its operations and transactions authorised by the Articles of Agreement and from any liability involving payment or collection of any taxes. According to its Articles of Agreement, funds received by or payable to the ICD in respect of an investment of the ICD made in any Member Country's territories pursuant to its Articles of Agreement shall be free from generally applicable foreign exchange restrictions, regulations and controls in force in the territories of the Member Country.

The ICD is required to carry out its activities in accordance with the principles of *Shari'a*. A fundamental principle underlying the *Shari'a* approach to financial matters is that to earn a profit, it is always necessary to take a measured risk. The concept of a bank deposit or bank loan that earns interest and whose principal must be repaid in full does not correlate with this underlying principle. In practice, this means that all Islamic finance transactions must be asset based.

The principles of *Shari'a* are regularly clarified by the Islamic Fiqh Academy (the "**Fiqh Academy**"), an institution established by the Organisation of the Islamic Cooperation (the "**OIC**") to interpret and develop Islamic jurisprudence. The IsDB Group Shariah Board gives its opinion on matters on which the Fiqh Academy has not yet made any pronouncement. In particular, the ICD submits proposals for transactions, investments and products which are being used by it for the first time to the IsDB Group Shariah Board for a ruling on the conformity of such proposals with the principles of *Shari'a*.

Strategy

Five-pillar strategy

The ICD's strategic goal is to be a key enabler of the private sector development in its Member Countries. It is supported by five key pillars. In alignment with the ICD's Articles of Agreement and investment guidelines, these five key pillars place the private sector in focus.

- *Focusing its core offering on financial institutions.* The ICD aims to focus its future business based on its existing large network of financial institutions and its established product offering.
- *Implementing new innovative products and channels.* In order to prepare for future growth and increase its competitiveness, the ICD aims to introduce new solutions complementing its current offering.
- *Growing business in a financially sustainable way.* In order to deliver on its mandate, the ICD aims to put increased attention on financial sustainability and focus its efforts on sustainable and capital efficient businesses.
- *Serving Member Countries based on their development needs.* The ICD aims to adjust its product and service offering and coverage model to the development needs of its Member Countries based on its understanding of its target markets.
- *Deepening its collaboration within IsDB Group, with financial institutions and partners.* The ICD aims to increase its collaboration with other IsDB Group entities, financial institutions within its network, as well as other partners, such as multilateral development banks and international investors.

2025 operational plan

The ICD's 2025 operational plan (the "**2025 Plan**") was approved by the Board of Directors in December 2024. The 2025 Plan is guided by the strategic priorities and guidance provided by the Board of Directors, prevailing external environment that the ICD operates in, key development priorities and needs of Member Countries as well as its achievements in 2024. The 2025 Plan has been built on three strategic objectives, namely:

- *Endurance*: to continue the positive trajectory in operations upheld by enhanced business and financial resilience.
- *Efficiency*: to boost efficiency in resources, informational management, processes, and decision making which will feed into excellence in delivery.
- *Effectiveness*: to conduct business more strategically and adaptively in serving the development mandate and stakeholders, particularly by providing inclusive and innovative solutions.

In order to achieve the 2025 Plan, the ICD has identified key strategic initiatives under each strategic objective listed above in order to grow net profit in the medium-term and successfully progress towards the ICD's 10-year strategic ambitions.

10-year plan

In 2019, the ICD prepared its 10-year strategic plan in line with the IsDB Group's long term strategy. The ICD, as the private sector arm of the IsDB Group, is well positioned to play a significant role in the IsDB Group's effort through the development and promotion of the private sector as a vehicle for economic growth and prosperity. The ICD will aim to seek opportunities for growth and nurture such opportunities through a range of financial products and services. In line with its mandate and expertise, the ICD aims to encourage the development of the Islamic finance eco-system in its Member Countries as a vehicle for real sector development.

The IsDB Group New 10-Year Framework

During the IsDB Group 2025 Annual Meetings held in Algeria in May 2025, the IsDB Board of Governors approved a new 10-Year Strategic Framework (2026–2035) (the "**Framework**"). The Framework outlines a transformative vision to enhance the IsDB Group's developmental role, driven by principles of Islamic finance and solidarity. Central to this strategy is the emphasis on synergistic collaboration between IsDB Group entities to maximise developmental impact across Member Countries. The strategy introduces a structured implementation approach, combining an overarching 10-year framework with two consecutive 5-year corporate strategies specific to each IsDB Group member. The ICD, as a key private sector arm, is actively involved in formulating this blueprint and aligning its mandate to contribute towards private sector development, SME financing and economic diversification, reflecting its pivotal role in driving the IsDB Group's strategic ambitions. All IsDB Group entities are expected to deliver the first 5-year corporate strategy in the first half of 2026.

One of the core themes of the Framework is the reinforcement of synergies and combined efforts among the IsDB Group entities, which is described as critical for maximising additionality and delivering sustainable development outcomes. The ICD's contributions, alongside those of the ICIEC, the ITFC and others are structured to leverage each institution's strengths towards common objectives such as productivity-driven growth, financial inclusion, trade development and capacity building across Member Countries. The strategy also reaffirms the unique positioning of the IsDB Group as a development partner of choice through South-South cooperation and Islamic finance leadership, which are both areas where the ICD's private sector expertise is highly relevant.

Strengths

The ICD has the following core strengths:

Part of the IsDB Group with a strong shareholding structure

The IsDB, a multilateral development bank rated AAA (or its equivalent) by the three major rating agencies, is the largest shareholder of the ICD with shareholding of 41.5 per cent. as of the date of the Base Prospectus, with the next largest shareholder being the KSA at 26.2 per cent. Together with the shareholding of the Saudi Public Investment Fund of 7.9 per cent., the total shareholding of the KSA stands at 34.1 per cent. The total shareholding of the investment grade shareholders stands at 84.2 per cent (representing the accumulated shareholdings of the IsDB, the KSA, the Saudi Public Investment Fund, the State of Kuwait, the United Arab Emirates, Indonesia, Qatar, Malaysia, Kazakhstan and Azerbaijan). In addition to being the largest shareholder of the ICD, the IsDB also controls the Board of Directors as in accordance with the Articles of Agreement, at least 50 per cent. of the Board Members, including the Chairman of the Board of Directors, shall be representatives of the IsDB.

Focus on development of Islamic finance in the private sector

The ICD has the unique position being amongst a few multilateral financial institutions to date which offers Shari'a compliant products and services to the private sector. Its business strategy of supporting and financing Islamic financial institutions in the Member Countries, as well as sourcing Islamic funds for specific projects, enables it to enhance economic progress in the Member Countries through the development of infrastructure and social services. This strategy also enables the ICD to improve private sector employment opportunities in Member Countries.

Shari'a compliance strategy

The ICD aims to achieve a high level of Shari'a compliance by offering all its products and services in strict conformity with the parameters approved by the IsDB Group Shariah Board. The IsDB Group Shariah Board is responsible for advising the IsDB Group (including the ICD) on the Shari'a compliance of its products and transactions. This helps to ensure that the ICD's reputation as a premier Islamic bank is maintained at all times.

Diverse and innovative range of products

The ICD provides a wide range of products and services to its customers, ranging from murabaha placements to term and equity financing, as well as advisory. The diversification of its products and services ensures that its operations are not dependent on specific areas of business.

Knowledgeable and experienced management

The majority of the ICD's Board of Directors and Executive Committee members also hold positions at the IsDB, as well as other regional public institutions and government ministries. Many members of senior management are highly experienced in the relevant areas of Islamic finance, development and infrastructure and have been based in or worked in a variety of Member Countries. The breadth and depth of local knowledge provided by senior management assists the ICD's business areas in assessing the economic environment of the Member Countries and the institutions and projects which the ICD considers investing in.

Capital Structure and Ownership

Upon its establishment, the ICD's authorised share capital was U.S.\$1 billion comprising 100,000 shares having a par value of U.S.\$10,000 each, out of which U.S.\$500 million was available for subscription. At a meeting of its General Assembly in Ashgabat, Turkmenistan on 3 June 2009, the ICD's authorised share capital was increased to U.S.\$2 billion comprising 200,000 shares of U.S.\$10,000 each, out of which U.S.\$1 billion was allocated as issued share capital (i.e., capital which is available for subscription). The objective of the capital increase was to obtain additional capital to support the growth of the ICD's business in the Member Countries. During the ICD's 2015 Annual Meeting held on 11 June 2015 in Maputo, Mozambique, the General Assembly approved the increase of the ICD's authorised share capital to U.S.\$4 billion and issued share capital to U.S.\$2 billion. Shareholders, who committed to subscribe for such share capital, were expected to make these contributions in four annual instalments in the period from 2017 to 2020. As a result, the IsDB's shareholding of the ICD was expected to decline to 38.4 per cent. by the end of 2020, provided all Member Countries, who committed to subscribe, settled their contributions as they fall due. However, as there are instalments due but not yet paid in the amount of U.S.\$130,823,018 as at 31 December 2024, the IsDB's shareholding as at 31 December 2024 was 41.5 per cent. As at 31 December 2024, the ICD's consolidated subscribed share capital was U.S.\$1,720,335,354, of which U.S.\$1,589,512,336 was paid-up share capital.

To address the issue of unsubscribed shares, the General Assembly, in April 2024, approved the following rules:

- any unsubscribed portion may be offered to Members or dealt with on the directive of the Board of Directors;
- the ICD may consider a rescheduling arrangement under certain circumstances;
- where a Member in default does not qualify for rescheduling, the ICD will propose release of the shares;

- other than voluntary release, the ICD can also reduce the shareholding of a defaulting Member under certain conditions; and
- shares voluntarily released or reduced by the ICD can be issued to other Members or dealt with on the directive of the Board of Directors.

Shares held in the ICD cannot be pledged or encumbered and cannot be transferred to any other party other than the ICD unless the General Assembly approves a transfer between Members by a majority representing two thirds of the total votes of the Members.

The founding Members of the ICD were the IsDB and certain Member Countries and public financial institutions which signed up to the Articles of Agreement prior to 5 April 2000. The Articles of Agreement also permit other institutions of which a Member Country or the IsDB have majority control to accede to the Articles of Agreement on such conditions as may be imposed by the General Assembly. Under the Articles of Agreement, the General Assembly may also open the membership of the ICD to private sector institutions on such terms and conditions as it may determine.

The basic conditions applicable to the Member Countries are that each country must: (i) be a member country of the IsDB; (ii) sign and ratify the Articles of Agreement; and (iii) pay its contribution to the capital of the ICD.

As at the date of this Base Prospectus, the ICD is comprised of 56 Member Countries.

Organisation, Management and Employment

The organisational structure of the ICD is set out below. The Banking Department (the "BD") is responsible for providing term finance facilities to corporates and financial institutions as well as for providing project and infrastructure financing to projects in Member Countries. The Equity Department (the "ED") is responsible for all equity transactions of the ICD, covering banking equity, non-banking financial equity and corporate equity investments. Both the BD and ED are housed under the Business Solutions Complex which is headed by the Chief Investment Officer (the "CIO"). The Treasury Division is responsible for managing the ICD's liquidity through investments, securing funding for ICD, managing the syndication activities involving ICD's financing facilities or participating in external syndications as well as providing sukuk advisory services to public and private sector clients.

Other key functions within the ICD are the Strategy Department, the Finance Department, the Legal and Compliance Department, the Risk Management Department, the Internal Audit Department, the Partnerships Division, the Development Effectiveness Office, the Corporate Services and Communication Department and the People and Culture Department.

Each of the above functions, except for the BD, the ED and the Treasury Division reports to the CEO, who is responsible for the day-to-day business and operations of the ICD and who in turn reports to the Board of Directors. The BD and the ED reports to the CIO and the Treasury Division reports to the Finance Department Director.

General Assembly

All powers of the ICD are vested in the General Assembly. The General Assembly is the highest authority of the ICD. Pursuant to the Articles of Agreement, each Member appoints one representative to serve on the General Assembly. Each Member holds one vote for each share that it has subscribed and paid for via the Member's representative in the General Assembly. As at the date of this Base Prospectus, Members' representatives of the General Assembly are also members of the Board of Governors of the IsDB. Generally, decisions are taken by the General Assembly based on a majority of the voting power represented at a meeting for which a quorum (constituting not less than two thirds of the total voting power of the Members) is present. The General Assembly meets at least once a year in conjunction with the annual meeting held by the board of governors of the IsDB. The General Assembly designates a chairman from amongst its representatives who will hold the seat until his successor is elected at the next meeting of the General Assembly.

The General Assembly creates policies governing the work and general supervision of the ICD but may delegate certain powers to the Board of Directors. Some of the powers which the General Assembly may not delegate to the Board of Directors include admission or suspension of Member Countries, changes in the authorised share capital, election of the Board of Directors, approving the auditor's report and financial statements, as well as determining the reserves and distribution of net income. Pursuant to the Articles of Agreement, the General Assembly may also adopt additional rules and regulations relating to the ICD's operations, including rules and regulations relating to personnel, pensions and other benefits. The General Assembly may also meet on other occasions as the General Assembly deems necessary or if called by the Board of Directors.

Board of Directors

The Board of Directors is mainly responsible for the adoption of policies, operations strategy, budgets and the general conduct of the ICD's operations within the powers delegated to it by the General Assembly.

Under the Articles of Agreement, the Board of Directors shall consist of not less than six and not more than ten members ("**Directors**"), in addition to the Chairman of the Board of Directors (the "**Chairman**"). The IsDB shall appoint one or more Directors, who together with the Chairman shall constitute at least half of

the Board of Directors. Each Director holds office for three years and may be re-appointed. Elected members of the Board of Directors may be re-elected for not more than two consecutive terms. Generally, all matters before the Board of Directors shall be decided by a majority of the voting power represented at a meeting of the Board of Directors. A Director may not simultaneously serve as a representative on the General Assembly.

In accordance with the Articles of Agreement, the Board of Directors shall meet when the business of the ICD requires. The majority of the members of the Board of Directors shall constitute a quorum for any meeting provided that such majority represents at least two thirds of the total voting powers of the Members. A special meeting may also be called at any time by the Chairman or at the request of three members of the Board of Directors. Members of the Board of Directors appointed by the IsDB shall have the votes of the IsDB divided equally among them and each member of the Board of Directors shall be entitled to cast the number of votes which the members of the ICD whose votes counted towards his election are entitled to cast.

The Board of Directors is authorised, as per the ICD's by-laws, to exercise all the powers with the exception of the powers reserved to the General Assembly. By virtue of its position, the President of the IsDB is the Chairman of the Board of Directors. He presides over the meetings of the Board of Directors, but without the right to vote except in the event of a tie. He also participates at the meetings of the General Assembly but does not vote at these meetings.

The current IsDB President is Dr. Muhammed Sulaiman Al Jasser who assumed office on 9 August 2021. He was elected by the IsDB Board of Governors on 6 July 2021 for a term of five years.

The Executive Committee

The Board of Directors appoints an Executive Committee from the Members that serves as an expeditious decision-making body. It has the power to approve all financing and investment operations and all other powers delegated to it by the Board of Directors. The Executive Committee is composed of up to six members, of which two seats are allocated permanently to the Chairman and the representative from the Member Country holding the largest number of shares in the ICD (currently the KSA), respectively. The members of the Executive Committee are rotated on a yearly basis, enabling all members of the Board of Directors the opportunity to serve on this committee.

Audit, Risk and Compliance Committee

The Board of Directors appoints an Audit, Risk and Compliance Committee ("ARCC") from among its members for a three-year term. The ARCC has oversight responsibilities over the ICD's audit, risk and compliance functions, and it reports its findings to the Board of Directors. The Management Committee is responsible for: (i) developing policies for the effective operation of the ICD; (ii) establishing the ICD's strategic directions; (iii) monitoring the ICD's activities; and (iv) assisting with any other issues referred to it by the CEO. Meetings of the Management Committee are chaired by the CEO.

The Investment Committee

The Investment Committee acts as the ICD's highest decision-making body on credit approval, advisory service approval, credit monitoring and administration and remedial asset management. It endorses to the CEO any new financing, equity investment or advisory service transaction, as well as significant credit changes relating to individual transactions in the portfolio and workout strategies and proposals for approval. The Investment Committee ensures that all credit decisions are duly processed and approved in accordance with the ICD's credit process. All financing and investment decisions of up to U.S.\$30 million require only the approval of the CEO following endorsement by the Investment Committee. Decisions for the amount of more than U.S.\$30 million and up to U.S.\$50 million requires the approval of the Chairman of the Board of Directors and any amount above U.S.\$50 million is to be approved by the Executive Committee of the Board of Directors.

The ALCO is responsible for ensuring the adequate liquidity and efficient management of liquid funds in line with the ICD's Liquidity Policy. The ALCO's key responsibilities also include measuring and hedging the profit rate and foreign exchange risks. The ALCO is also responsible for endorsing the Treasury Risk Management Policy and the Capital Adequacy Policy and evaluating the appropriate stress scenarios relating to the ICD's capital position. The ALCO can intervene in operations of any other function, department or division of the ICD to mitigate the risks described above. It is responsible for the long-term structure of the ICD's balance sheet and issuance of debt capital and other investment instruments.

Risk Management Committee

The purpose of the Risk Management Committee (the "RMC") is to provide recommendations related to the ICD's Risk Appetite Policy, establish and monitor the tolerance levels for the management of identified risks and ensure consistent application of measures and controls to manage key risks within the ICD. The RMC exercises oversight over the implementation of the Risk Management Framework based on ICD's three-lines-of-defense approach in managing risks.

Technical Review Committee

The Technical Review Committee's (the "TRC") roles and responsibilities include, but are not limited to evaluating and approving concept clearance for financing proposals and approving the commencement of due diligence on projects and transactions. The TRC also reviews monitoring plans for investment assets and key decisions of equity investee companies and assesses the valuation of equity investments prior to submission for approval to the Investment Committee or the CEO.

Business areas and departments

The business operations of the ICD comprise three core business areas and departments, including the BD, the ED and the Treasury Division.

The ICD provides medium and long-term finance (i.e., term finance and syndicated finance) to corporates and financial institutions.

The BD supports direct term financing in Member Countries with less developed Islamic finance sectors, but bigger corporate sectors. The ICD's term finance products are key to enhance private sector operations in those Member Countries. More targeted and direct investments help maximise the ICD's development impact by creating new jobs and transferring technology and knowledge across borders. The ICD may participate alone or in partnership with other financial institutions in syndicated transactions. At the net approval level, from the ICD's establishment to 31 December 2024, total approvals stood at U.S.\$3.9 billion for 152 line of finance projects and U.S.\$2.2 billion for 178 term of finance projects.

The BD sources its own investment opportunities through its own contacts and also receives investment opportunities from other functions within the ICD. It processes the investment or financing proposal in accordance with the ICD's internal financing and investment guidelines. The BD then presents the proposal to the TRC for concept clearance and approval to proceed with due diligence. As part of the due diligence exercise, investment officers of the BD, together with representatives from the Legal Department, visit a prospective client in the relevant Member Country. During the due diligence visit, the team also meets with other stakeholders such as central banks and the relevant government ministries to understand the structure of the financial or corporate sector in the relevant Member Country. Following completion of the due diligence visit, the team updates the credit file and together with the Risk Management Department and Legal and Compliance Department performs a final review and collectively decides the readiness to present it to the Investment Committee for approval. If the financing and/or investment is above U.S.\$30 million and up to U.S.\$50 million, approval is also sought from the Chairman. Approvals for proposals of more than U.S.\$50 million is from the Executive Committee of the Board of Directors.

During the term of each investment or financing, the Portfolio Management Division monitors the implementation and running of the project until maturity to detect any issues and delinquencies. It also recommends provisioning against overdue accounts and transfers of such projects to the Special Operations Office (the "SOO") for recovery or restructuring, as necessary.

The Equity Department

The ED leads all equity transactions of the ICD covering equity investments in financial institutions and corporate equity. The ED is involved in project sourcing and origination, project appraisal, approval, equity investment management, portfolio management and stakeholder's relationship management. Since establishment until 31 December 2024, at the net approval level, approvals of total equity investments stood at U.S.\$922.6 million over 130 projects.

The ED is responsible for sourcing investment opportunities in this business area, as well as collaborating with external parties to look for new investment opportunities. It processes investment or financing proposals in accordance with the ICD's internal financing and investment guidelines. The ED follows the same process of due diligence, review and approval as the BD. Disbursement of funds will only occur once legal requirements have been satisfied. The ICD will only close its books once it exits the project by selling its equity stake.

During the term of each investment, the ED appoints a team to monitor the implementation and operation of the project until maturity. Similar to the BD, the ED also recommends provisioning against impairment of the investment value and transfers such projects to the SOD for liquidation, as necessary.

Treasury Division

The Treasury Division is responsible for managing the ICD's liquid assets for distribution to the Member Countries and its own business needs. The Treasury Department is also responsible for the ICD's investments and managing liquidity buffers. The Capital Markets Unit is part of the Treasury Division and is focused on mobilising long-term funding for the ICD's net cash requirements for its operations, including its own operations, sukuk advisory, debt capital market and syndication activities.

Other Key Functions

The Risk Management Department

The ICD's Risk Management Department is responsible for formulating, implementing and updating the risk policies, risk management framework and risk management guidelines (processes, models, templates, etc.) to ensure the continuous identification and assessment of risk in the context of the ICD's business

operations globally. As part of this mandate, the Risk Management Department undertakes the following key roles:

- reporting breaches and changes in risk profiles to management;
- providing risk opinions on all investments, transactions, exposure proposals identifying risks and recommending measures to mitigate such risks;
- establishing organisation wide risk culture; and
- managing the rating process and review of the ICD with international rating agencies.

The Special Operations Office

The Special Operations Office (the "**SOO**") was established to manage, negotiate and resolve non-performing financings and distressed equity investments. The Office focuses on maximising recovery values, minimising losses and protecting ICD's interest. It operates in close coordination with other departments to ensure strategic alignment with the ICD's broader financial health and goals.

The Strategy Department

The main responsibilities of the Strategy Department are to oversee all of the ICD's activities pertaining to strategy development, business plan development, monitoring and reporting of strategy and business plan, research and organisational performance. It also tracks corporate strategic initiatives including the preparation of strategic direction, plans and monitoring the corporate scorecard in addition to the following activities:

- develop the ICD's corporate strategy, and facilitate the cascading of the ICD's strategy into departmental, sector and country specific strategies as and when needed;
- monitor the implementation of the corporate strategy and ensure all functions incorporate the corporate strategy within their function's targets;
- coordinate the development and the implementation of the business plans and manage the communication of the ICD's strategy to all departments;
- prepare and present periodic global and regional (Sub-Saharan Africa, Central Asia, MENA etc.) economic outlook and conduct country and sectorial studies;
- independently or jointly, undertake economic research and analysis to understand the economic development and private sector environment in Member Countries in order to provide strategic insights and/or policy guidelines for the ICD's management and business units to shed light on the ICD's business opportunities and intervention plans;
- serve as an adviser to business units regarding economic and development aspects of project proposals, business initiatives prepared for the ICD, Executive Committee, Board of Directors, etc.;
- assess the development and managing the corporate performance framework;
- evaluate the departmental KPI development procedures with each function, based on the organisational strategy and corporate performance.
- establish the alignment of the ICD's medium- and short-term business strategies to its long-terms strategies and vision; and
- oversee the preparation and peer-review of economic and research documents for internal and external users (e.g., the ICD's annual report and other relevant periodicals and research such as the Private Sector Factbook, the SME Diagnostics, the ICD Bulletin etc.)

Development Effectiveness Office

The main role of the Development Effectiveness Office (the "DEO") is to act as a provider of technical expertise, advice, coordination, knowledge, and reporting on development effectiveness ("DE") matters, financial inclusion matters and results measurement practices. Other responsibilities include to:

- organise periodic DE themes regarding the implementation of the Articles of Agreement, including the means needed for implementation whether financial or non-financial;
- make full use of its high-level position, coordination, and oversight role to effectively consider all relevant aspects of the work of the ICD on DE;
- promote greater coordination, complementarity, partnerships, effectiveness, and efficiency of the ICD activities among the ICD stakeholders' ecosystems;
- assist in the mobilisation of technical and financial assistance and facilitate the provision of adequate financing for the implementation of DE programs, systems, and projects;
- serve as a focal point for the discussion of partnerships that promote DE, including sharing lessons learned, progress made and best practices; and
- financial inclusion products and services as well as strategies in partnership with like-minded foreign direct investors and donors. The prime service is to ease access to finance for unbanked and underserved individuals and micro, small and medium enterprises via all possible means.

Partnerships Division

The Partnerships Division acts as an enabler for the successful implementation of the ICD's strategic objectives. The key functions undertaken by this Division cover several areas including partnerships development, management and monitoring, global engagement and stakeholders relationship management, intra-group partnerships and group synergy coordination, enabling and monitoring of co-financing activity, executive support in relation to partnerships and global engagements, positioning of the ICD and increasing visibility, and partnerships strategy and operational planning.

The Partnerships Division implements the partnership management mechanism to scale up its operations in its target markets and sectors. It plays an instrumental role in coordinating the planning and implementation of country work programmes, strategic memorandum of understandings ("MOUs"), CEO-led missions and centralised leads pipeline. The Partnerships Division supports the Treasury Division during the planning and execution of deal and non-deal roadshows.

Legal and Compliance Department

With regard to legal matters, the Legal and Compliance Department is responsible for providing accurate, effective, and efficient and timely legal services that protect the ICD's interests; managing all the legal risks emanating from the operations of the ICD and institutional affairs (internal and external); providing support at the organisational and business unit levels, liaising with external legal counsels, advising on all projects, transactions and corporate arrangements of the ICD.

The Compliance team under the Legal and Compliance Department manages a broad range of compliance topics across businesses and operations. A key principle within the Compliance framework is identifying and assessing on an ongoing basis new or emerging compliance issues (both internal and external) that could impact or be impacted by the ICD. The framework also includes establishing compliance risk parameters and governance in line with the spirit of the ICD founding principles and industry standards.

The current Anti Money Laundering, Combating Financing Terrorism and Know Your Customer Policy was approved by the Board of Directors in 2024. It builds upon a similar policy adopted and implemented by the IsDB in 2019. The ICD is strongly committed to ensuring that all its activities are governed by its strict rules, procedures and guidelines. All activities are undertaken based on rigorous scrutiny, due diligence, monitoring and oversight using automated filtering and screening systems which cover all major international sanctions programs, embargoes, politically exposed persons (PEPs) and legal and regulatory enforcement lists etc. Additionally, the ICD takes into consideration the latest version of the unbiased and non-political recommendations of specialised international entities such as the Financial Action Task Force

(FATF) on Anti-Money Laundering and Combating Financing of Terrorists, International Convention for Suppression of the Financing of Terrorism and the UN Security Council Resolution No. 1373, as measures to combat money laundering and the financing of terrorism.

All compliance-related matters are entrusted to and handled by a dedicated independent Compliance Unit within the ICD, which reports functionally to the CEO and submits semi-annual reports to the Audit, Risk and Compliance Committee of the Board and is responsible for the development and implementation of compliance-related policies and procedures; the oversight and monitoring of all activities relating to the prevention, detection and combating of money laundering and terrorism financing, conducting compliance-related training and awareness activities; and the provision of support and guidance to the ICD senior management, as well as to all ICD employees. This ensures that money laundering and terrorism financing risks are adequately identified, excluded, and mitigated.

As a member of the IsDB Group, the ICD also has an approved Integrity Policy, Disclosure of Information and Conflict of Interest Policy and Whistleblowing Policy dealing with anti-bribery, anti-corruption, anti-fraud and conflict of interest.

The ICD's Sustainability Journey

Prior to 2011, the ICD's activities from a sustainability point of view were focused on achieving the objectives and mandate as provided in its Articles of Agreement. In 2011, the Board of Directors approved the Development Effectiveness Policy (the "**DEP**") of the ICD. The DEP was established to support the ICD's new strategy at that time which placed a strong focus on developmental impact. Four out of six principles of the strategy offer a strong focus on sustainability and developmental impact. Implementation of the newly adopted strategy required the internalisation of policies and systems to assess, measure, and report on developmental effectiveness and most importantly, capitalise on lessons learned. The ultimate goal of the DEP is to improve the developmental impact of the ICD via maximisation of the ICD's contribution to enhancing the factors and conditions that enable member countries to achieve their developmental goals. The aforementioned goal is achieved through continuous improvement of the ICD's operations in terms of design, implementation, and results.

To implement the DEP, the Development Effectiveness Framework (the "**DEF**") was established in 2012. The DEF takes the DEP to operational level by providing terms of reference to the relevant departments and divisions in the ICD, detailing the developmental performance indicators by sector and areas for investment and advisory, and by providing the scales for rating projects' performance. The DEF also serves as the main document to develop the ICD's Information Management Platform and Development Indicators Monitoring System.

In 2015, the ICD introduced internally the Sustainable Development Goals ("**SDGs**") Theory of Change, which are based on the United Nation's 17 Sustainable Development Goals. The SDGs Theory of Change, is a specific oriented approach for its investment, financing and advisory as summarised below:

- The ICD considers three of the SDGs as particularly important and directly and indirectly targets these through its investments, which are SDG 7: "Affordable and clean energy", SDG 8: "Decent Work and Economic Growth" and SDG 9: "Industry, Innovation and Infrastructure".
- The ICD aims at improving the enabling environment for economic growth and facilitating interaction between key stakeholders by emphasising two additional SDGs, namely SDG 13: "Climate Action" and SDG 17: "Partnership for the Goals".
- Finally, through its actions, the ICD aims to achieve indirect impact on five further SDGs through its investments and engagement. The SDGs are SDG 1: "No Poverty", SDG 2: "Zero Hunger", SDG 3: "Good Health and Well-Being", SDG 4: "Quality Education" and SDG 5: "Gender Equality".

In 2016, the ICD started investing in green projects in its Member Countries and included in the 2019 10-year strategic plan is the ICD's alignment to the above 10 SDGs, which will guide its business activities as well as investment decisions.

The ICD is also one of the founding signatories to the Operating Principles for Impact Management (the "**Impact Principles**") that was launched in 2019. The Impact Principles provide a reference point against which the impact management systems of funds and institutions may be assessed. They draw on emerging

best practices from a range of asset managers, asset owners, asset allocators, and development finance institutions. Each signatory is required to publish an annual disclosure statement in which they describe how the Impact Principles are incorporated into its investment process and the alignment of its impact management system and processes with the Impact Principles. More information on the Impact Principles can be found at <https://www.impactprinciples.org/>.

In February 2025, ICD formally adopted its institutional Sustainability Framework, which sets out a structured, multi-phase roadmap for integrating environmental, social, and governance (ESG) and climate-related considerations into its strategy, operations, governance, and risk management practices. The Framework is built around five pillars, such as (i) strategy and vision, (ii) governance and oversight, (iii) policy and standards, (iv) implementation and operations and (v) performance monitoring and reporting and includes 15 core components guiding its implementation. Phase one of the roadmap is currently underway and focuses on foundational initiatives, including the development of an ESG policy, a sustainability strategy and the launch of a double materiality assessment to help identify the most significant ESG risks and opportunities across ICD's portfolio. These efforts aim to enhance ICD's ESG alignment, improve transparency, and strengthen its long-term value proposition to stakeholders and investors.

Property

As at 31 December 2024, the ICD owned property comprising furniture, fixtures, computers, motor vehicles and other equipment carrying a total net value of U.S.\$2.0 million.

Digitalisation and IT Support

The ICD's digitalisation and information technology (the "**DIT**") division is focused on utilising IT systems to help facilitate the ICD's business interactions with clients around the world. The ICD considers the role of IT to be significant in ensuring that the ICD is able to conduct its business in a responsive, flexible and efficient way in the environment within which it operates.

If necessary, the ICD also makes use of IT services provided by the IsDB. Such services are being used across the IsDB Group in order to reduce costs and improve synergies within the IsDB Group.

Insurance

The ICD has various insurance policies in place, including directors' and officers' insurance, third party liability insurance and insurance covering its property and equipment to cover the ICD against various risks to which the ICD may be exposed.

Litigation

There is no material litigation, governmental proceeding, administrative action or arbitration proceeding, pending or threatened, against the ICD.

Employees

As at 31 December 2024, the ICD had 161 employees. The ICD has no history of material staff disputes outside of the IsDB Group and considers its relationship with its employees good.

RISK MANAGEMENT

The ICD's operations are exposed to a range of commercial, political and reputational risks. Managing these risks is, therefore, a priority for the ICD. The primary objective of the ICD's risk management framework is to identify, measure, monitor and control these risks. The framework comprises risk governance, policies, methodologies and processes.

Risk Governance

The Board of Directors and its committees provide the highest level of oversight for major risks in the ICD's operations. The Management Committee oversees corporate-wide risk issues and endorses all risk policies and guidelines for approval by the Board of Directors. The Investment Committee is the highest decision-making body for all financing and equity investment decisions, covering both new and existing transactions. The ALCO oversees the risks of the ICD's balance sheet, liquidity portfolio, management and funding operations. The Risk Management Department has the overall responsibility for managing the ICD's integrity, financial and operational risks. The Director of the Risk Management Department usually represents the ICD in the IsDB Group Risk Management Committee.

Risk Policies and Guidelines

As a multilateral financial institution, the ICD is not subject to the requirements of the Basel Committee or any other regulatory body. However, as a matter of policy, the ICD aligns its risk management framework with industry best practices, including the Basel Committee principles and peer multilateral development banks' practices. The Risk Management Department is responsible for developing and maintaining the ICD's risk policies and guidelines. The Board of Directors approves all risk policies following endorsement by various board and management committees, including the Audit Committee, the Management Committee, the IsDB Group Risk Management Committee and the ALCO. The ICD's key risk policies and guidelines are summarised as follows:

- the Risk Appetite Framework ("RAF"), approved by the Board of Directors in 2024, sets out the quantum and types of risks acceptable to the ICD in pursuance of its objectives. The types of risks that ICD faces are:
 - Financial risks which include (i) solvency risk, capitalization and profitability; (ii) market, liquidity and funding risk; and (iii) credit and concentration risk; and
 - Operational and non-financial risks which include (i) operational risk; (ii) resilience, cyber, technology and vendor risks; (iii) legal and compliance risk; (iv) people risk; (v) integrity risk; and (vi) reputational risk.

The methodology adopted by the ICD in developing the RAF is based on a three-level approach:

- Level I: high-level risk appetite statement capturing the long-term objectives of the ICD while maintaining adequate risk profile;
 - Level II: translates Level I approach into a set of the ICD's wide objectives and metrics along with management action trigger points and appropriate limits; and
 - Level III: translates Level II approach into granular risk acceptance criteria with build-in mechanism for necessary exceptions that may be required from time to time.
- the Capital Adequacy Policy, approved by the Board of Directors in 2014, outlines the prudential minimum level of capital to be maintained by the ICD to cover all risk assets in its operations. The capital adequacy ratio is defined as total members' equity divided by risk-weighted assets. The internal policy requires the ICD to maintain this ratio at 35.0 per cent. or higher. The calculation of risk-weighted assets is in line with those of the framework of the Basel Committee on Banking Supervision of the Bank for International Settlements and Standard & Poor's rating agency's risk adjusted capital framework methodology. Given the existing policy is more than 10 years old, the ICD is currently working on the revision of the Capital Adequacy Policy in order to benchmark against the latest practices of other multilateral development financial institutions and to align with the key risk indicators for capitalisation under the recently adopted Risk Appetite Framework, approved by its Board of Directors in December 2024. As at 31 December 2024, the Group's capital

adequacy ratio as per the existing policy was 31.8 per cent. (31 December 2023: 34.0 per cent.) and the Board of Directors have provided its approval for exemption of the existing policy until the revised policy is approved;

- the updated Liquidity Management Policy, which was approved by the Board of Directors in December 2023, lists three liquidity metrics namely:
 - i. adequate stock of unencumbered high quality liquid assets to meet liquidity needs for a 30 calendar-day liquidity stress scenario;
 - ii. Total Liquidity Requirement ("TLR") is the minimum stock of liquid assets the Group shall maintain and is calculated as a minimum of 75 per cent. of 24 months Net Cash Requirements ("NCR") and corresponds to minimum survival horizon of 24 months under normal business conditions;
 - iii. Prudential Minimum Liquidity ("PML") is the stock of liquid assets the Group shall maintain to meet its NCR for a period 12 months under stressed market conditions without access to capital markets. The PML is calculated as 45 per cent. of next three years' NCR.

The size of the liquidity portfolio of the Group as at 31 December 2024 was U.S.\$1,908.4 million. The ICD follows a conservative liquidity management approach by maintaining sufficient levels invested in cash, cash equivalents, commodity placements through financial institutions and Murabaha financing with short-term maturities of three to twelve months;

- the Treasury Risk Management Policy establishes the prudential limits relating to the management of the Group's liquidity portfolio covering market, credit, concentration and liquidity risks. The key metrics include a maximum weighted average modified duration limit of 3-year duration for market risk and weighted average portfolio risk rating of at least "A-/A3" for credit risk limits;
- the Asset and Liability Management Policy requires the ICD to match the currency and profit rate of its assets and liabilities. Accordingly, the ICD funds its floating rate assets with floating rate liabilities and *vice versa* for fixed rate assets. In addition, the ICD funds all equity investments strictly using its equity capital. To ensure flexibility in its funding operations, the ICD uses derivatives on a fully hedged basis to convert the currency and profit rate basis of its liabilities to match those of its assets;
- the Credit Risk Exposure Management Policy establishes prudential limits on the development-related operations portfolio covering asset class, country, sector, single obligor and group company;
- the Anti-Money Laundering and Countering Terrorist Financing Policy establishes detailed guidelines for ensuring that the ICD's resources are not used as a conduit for money laundering or terrorist financing activities; and
- the Anti-Corruption Guidelines is established to combat fraud and corruption (including bribery) through a sanctions process (the "**Sanctions Process**") aimed at firms or individuals that have engaged in fraud, corruption, coercion, collusion or obstruction with respect to any of the ICD's financings, investment and advisory services projects. The Sanctions Process applies to any of the ICD counterparty, including the companies in which the ICD makes an investment (both direct and indirect), companies that receive funding with the support of the ICD guarantees, sponsors, advisory services recipients and advisory services' consultants and service providers. Allegations that a firm or individual has engaged in sanctionable practices are investigated by the IsDB Group's compliance office. The ICD's counterparties, who engage in sanctionable practices, may be "debarred" which makes the offending party ineligible to do business with the IsDB Group for a period of time. Suspected fraud and corruption in the ICD financed projects, as well as allegations regarding misconduct of the ICD officials, employees or consultants can be reported by submitting a written report. Anybody, within or outside the ICD, may report fraud, corruption and misconduct.

Credit and Equity Risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. Equity risk is the risk of loss arising from changes in fair valuation of the Group's equity investments. Such valuation is sensitive to a variety of factors, including macroeconomic developments, management performance, demand or supply dynamic, political risk and exchange rate movements. The ICD is required to assess and assign an internal credit rating to each financing transaction, as well as to each treasury counterparty when a public rating from one of the major international rating agencies is not available. It uses an internally developed credit rating methodology that is broadly aligned with that of the major international rating agencies. The methodology comprises four templates for rating exposures to sovereign, corporate, financial institution and project finance. The internal credit rating scale comprises 21 categories that are mapped to those of international rating agencies.

The following table sets out the Group's credit and equity risk exposures as at 31 December 2024 (in U.S.\$ million) net of allowance for credit losses:

Risks in the operations portfolio

All new financing and equity investment transactions are subject to the ICD's credit approval process, which entails two rounds of review involving the TRC and the Investment Committee. At the TRC stage, the primary objective of the assessment is to ensure that the transaction generally complies with the ICD's developmental, operational, financial, integrity and risk management policies and principles. Following the TRC clearance, indicative term sheet is provided to the client and detailed due diligence is undertaken, the results of which are presented to the Investment Committee for final review. All transactions exceeding U.S.\$30 million are submitted to the Executive Committee for approval. The Risk Management Department acts as the Investment Committee's secretariat. All concept and final review papers are submitted to the Risk Management Department for initial review, for the preparation of a credit note for the TRC and Investment Committee's consideration. The Risk Management Department also propose the agenda for the Investment Committee's meetings following its review of the documentation submitted by business departments.

Following approval, monitoring of exposures is undertaken in accordance with the ICD's credit administration and monitoring process. All transactions are reviewed annually or in the case of watch list and impaired transactions, quarterly or monthly. The responsibility for monitoring transactions rests with the SOO. In this review, the ICD assesses the implementation progress, development impact and key risk factors as well as updates to the credit rating, equity valuation and provisions, as appropriate. In addition, the Credit Risk Exposure Management Policy establishes strategic limits on asset classes, as well as prudential limits on country, sector and obligor.

As at 31 December 2024, the average credit risk rating within the term finance portfolio was "B/B2". The ICD's internal ratings are based on scorecards developed by one of the rating agencies for the IsDB Group for the internal credit assessment of transactions. A score generated by a scorecard determines the ICD's internal risk profile of a counterparty.

Credit risk in treasury operations

The ICD invests funds held in its liquidity portfolio in accordance with the primary objective of safety and liquidity. The size of the liquidity portfolio of the Group was U.S.\$1,908.4 million as at 31 December 2024 and comprised cash and cash equivalents (excluding the bank balance in the amount of U.S.\$1,799,661 relating to the ICD Solidarity Fund as per Note 5 "Cash and Cash Equivalents" of the 2024 Consolidated Financial Statements), Investments in sukuk and Commodity Murabaha and Wakala placements. The weighted average risk rating of the liquidity portfolio was "A-" as at 31 December 2024, in line with the treasury risk management policy approved by the Board of Directors.

The following table sets out the Group's liquidity portfolio by country as at 31 December 2024 (in U.S.\$ million):

Country	Amount (U.S.\$ million)	%
UAE	392.4	20.6

The following table provides a breakdown of the ICD's liquidity portfolio by counterparty rating as at 31 December 2024:

Counterparty Ratings	%

AA+/Aa1 to AA-/Aa3	14.9
A+/A1 to A-/A3	51.6
BBB+/Baa1 to BBB-/Baa3	16.6
BB+/Ba1 and lower or unrated	10.8
	100.0

Single counterparty exposure limit covering Sukuk investments, money market placements, FX and derivative transactions, is set at the lower of 10 per cent. of the Group's expected liquidity portfolio, 20 per cent. of the counterpart's capital, or 12.5 per cent. of the Group total equity for A- or better rated counterparts. For BBB+ to BBB- rated counterparts, the lower of 7.5 per cent. of the Group's expected liquidity portfolio, 20 per cent. of the counterpart's capital, or 8.5 per cent. of the Group total equity.

Credit risk in derivatives

As at 31 December 2024, the Group's nominal outstanding *Shari'a*-compliant derivative transactions, including foreign exchange forward transactions, profit rate swaps and profit rate cross currency swaps amounted to U.S.\$421.7 million (U.S. \$698.8 million as of 31 December 2023). In line with the Asset and Liability Management Policy, these transactions were undertaken to hedge exchange rate and profit rate risks in the Group's assets and liabilities.

Market Risk

Market risk relates to the potential loss on the Group's risk exposures arising from movements in market prices or changes in fair valuation. The major sources of market risk in the Group's operations include mark-up rate risk, exchange rate risk and equity risk.

Market risk in operations portfolio

The Asset and Liability Management Policy requires the ICD to follow the matched funding principle in managing its assets and liabilities. The ICD, therefore, aims to ensure that the market rate basis and currencies of all debt funded assets match those of the underlying liabilities. Such approach ensures that the Group's income spread remains largely constant regardless of market rate and exchange rate movements.

Market risk in treasury liquidity portfolio

The major source of market risk in the Group's treasury liquidity portfolio relates to those liquid assets funded by equity funds. Such assets comprise mainly fixed or floating rate investments and as such the return on the equity funds is subject to profit rate risk. The ICD manages such risk by establishing a conservative maximum duration target limit of three years. The rest of the portfolio is funded using floating rate liabilities and investing in floating rate assets, the return on which is accordingly insulated from profit rate risk and driven mainly by the difference between the return on the liquid assets and the cost of the underlying liabilities. The liquidity portfolio is not exposed to exchange rate risk as the currencies of liquid assets match those of the underlying liabilities in line with the Asset and Liability Management Policy.

The 2024 Consolidated Financial Statements, together with the independent auditor's report of Deloitte and Touche & Co. (Chartered Accountants), are incorporated in this Base Prospectus by reference. The financial information presented above should be read in conjunction with such financial statements, the independent auditor's report and the notes thereto.

The preparation of the Group's consolidated financial statements requires the use of certain critical accounting estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires management to exercise its judgment in the process of applying the Group's accounting policies. The areas involving a higher degree of judgement or complexity or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in Note 4 to the 2024 Consolidated Financial Statements.

Year Ended 31 December 2024

The Group reported a net income from continuing operations of U.S.\$88.4 million in the year ended 31 December 2024, as compared to a net income from continuing operations of U.S.\$64.0 million in the year ended 31 December 2023, representing an increase of 38.1 per cent, for the period. As a result, the Group reported a net income of U.S.\$23.5 million in the year ended 31 December 2024 compared to a net income of U.S.\$9.3 million in the year ended 31 December 2023. This improvement was mainly due to an increase in revenue for all business segments of the Group.

The Group's income from commodity Murabaha and Wakala placements increased by 171.6 per cent. from U.S.\$10.9 million in the year ended 31 December 2023 to U.S.\$29.6 million in the year ended 31 December 2024 due to increase of total cash and cash equivalents and Commodity Murabaha and Wakala placements from U.S.\$243.6 million as at 31 December 2023 to U.S.\$510.6 million as at 31 December 2024 and the continued rising profit rate environment in 2024.

The Group's income from sukuk investments increased slightly by 3.0 per cent. from U.S.\$39.4 million in the year ended 31 December 2023 to U.S.\$40.6 million in the year ended 31 December 2024, despite the year-end balance for Investments in sukuk as at 31 December 2024 decreasing by 2.9% from U.S.\$1,441.4 million as at 31 December 2023 to U.S.\$1,399.6 million as at 31 December 2024.

The income from financing assets increased by 31.5 per cent. from U.S.\$62.3 million in the year ended 31 December 2023 to U.S.\$81.9 million in the year ended 31 December 2024 following the increase of total financing assets net of allowance for credit losses (i.e., the sum of Murabaha receivables, Instalment sales receivables, Ijarah Muntahia Bittamleek and Istisna'a receivable) by 12.7 per cent. from U.S.\$927.7 million as at 31 December 2023 to U.S.\$1,045.8 million as at 31 December 2024 as a result of higher disbursements made during the financial year ended 31 December 2024.

Total operating expenses increased by 10.9 per cent. from U.S.\$48.7 million in the year ended 31 December 2023 to U.S.\$54.0 million in the year ended 31 December 2024 as all expenses increased across the board. Staff costs increased by 7.6 per cent. Other administrative expenses increased by 23.3 per cent. and depreciation increased by 26.7 per cent.

Financing costs increased from U.S.\$74.5 million in the year ended 31 December 2023 to U.S.\$94.4 million in the year ended 31 December 2024 primarily as result of the high-profit rate environment in 2024.

In terms of its statement of financial position, the Group's total assets increased by 12.6 per cent. from U.S.\$3,218.2 million as at 31 December 2023 to U.S.\$3,624.7 million as at 31 December 2024.

The Group's liquidity position as at 31 December 2024 and as at 31 December 2023 was as follows:

Ratio	As at 31 December 2024	As at 31 December 2023
Liquidity portfolio/total assets.....	52.7%	52.3%
Liquidity portfolio/total funding.....	90.1%	93.8%
Liquidity portfolio/short-term funding	1,412.4%	208.7%

The Group's debt to equity ratio was 1.8 times at 31 December 2024 as compared to 1.6 times as at 31 December 2023. The increase was due to a net increase in total funding by 18.0 per cent., from U.S.\$1,795.5 million as at 31 December 2023 to U.S.\$2,118.8 million as at 31 December 2024 despite an increase in total equity from U.S.\$1,153.4 million as at 31 December 2023 to U.S.\$1,200.1 million as at 31 December 2024. Under the Articles of Agreement, the maximum permitted debt to equity ratio is set at 3.0 times.

Provisions for Impairment of Assets

Historically, the Group's impairments on its financial assets have been low despite the large proportion of funding to recipients in relatively high-risk countries. This reflects in part the preferred creditor treatment the Group has generally received from its customers or obligors. The impairment charge for the year ended 31 December 2024 was U.S.\$10.1 million as compared to the impairment charge of U.S.\$11.5 million for the year ending 31 December 2023.

Credit Risk and Credit Impaired Financing Assets

Depending on its credit risk, financing assets are classified as Stage 1 category (for assets without significant increase in credit risk), Stage 2 category (for assets with a significant increase in credit risk) or Stage 3 category (for credit impaired financing assets). As per the Group's provisioning policy, a financing asset is classified as credit impaired when the principal and/or profit/mark-up is due and remains unpaid for more than 90 days.

The Group obtains adequate guarantees and employs other methods of credit enhancements that will protect the value of its investments. Guarantees and securities obtained by the Group include bank guarantees, corporate guarantees, pledge of assets and possession of title to the property being financed. In general, the value of guarantees or other credit enhancements held by the Group against these assets as at the end of the

period ended 31 December 2024 were considered adequate to cover its outstanding exposures. Where the ICD's management and its provisioning committee assessed that the value of the receivable may not be fully recovered, an appropriate provision is recorded. The policy of the ICD in respect of securities and guarantees for term finance operations is that the sum of the securities package should be equal to or greater than 125 per cent. of the value of the assets financed.

As at 31 December 2024, the following subsidiaries have been consolidated on a line-by-line basis combining similar items of assets, liabilities, income and expenses of the ICD and its subsidiaries, except where the subsidiary is classified as held for sale:

Principal Differences between the Auditing Standards of AAOIFI and International Standards on Auditing (the "ISA")

The ICD is audited in accordance with the Auditing Standards for Islamic Financial Institutions issued by AAOIFI. As of the date of this Base Prospectus, there are six AAOIFI auditing standards. AAOIFI Auditing Standard No. 4 requires an external auditor to obtain sufficient and appropriate audit evidence adequate to provide reasonable assurance that the relevant Islamic financial institution is in compliance with the rules and principles of *Shari'a*. While the ISA are more comprehensive than AAOIFI auditing standards, and while AAOIFI Auditing Standard No. 4 is tailored to address *Shari'a* matters, there are no significant departures of AAOIFI auditing standards from the ISA. AAOIFI auditing standards require the application of the ISA in respect of matters not covered in detail by AAOIFI auditing standards, provided such standards do not contravene *Shari'a* rules and principles.

Principal Differences between the Financial Accounting Standards (the "FAS") issued by AAOIFI and IFRS

The financial statements of the ICD are prepared in accordance with the FAS issued by AAOIFI and the *Shari'a* rules and principles, as determined by the Shariah Board of the IsDB Group. For matters which are not covered by the FAS, the ICD uses the relevant standard issued or adopted by the IASB and the relevant

interpretation issued by IFRIC of IASB, provided they do not contradict the rules and principles of *Shari'a* as determined by the Shariah Board of IsDB Group.

The principal accounting differences between the FAS and IFRS, in so far as they apply to recognition and measurement principles, as applicable to the 2024 Consolidated Financial Statements are listed below.

Leasing Transactions

With regard to their structure, the Ijarah Muntahia Bittamleek leases are recorded as operating leases. Under AAOIFI, leased assets in the books of the ICD are presented at original cost less accumulated depreciation and accumulated impairment, if any up to the date of financial position, and income is allocated proportionately to the financial periods of the lease term. Under IFRS, the leased assets are presented at amounts disbursed less repayments and income is accrued since the inception of the lease.

Financial Instruments

FAS 30 "*Impairment, credit losses and onerous commitments*" and FAS 35 "*Risk Reserves*" collectively replaced FAS 11 "*Provisions and Reserves*" and have been developed on the new approach towards identification and recognition of impairment and credit losses, in particular the forward-looking expected losses, as introduced under IFRS 9 "*Financial Instruments*". FAS 30, although not as detailed as the IFRS equivalent, was developed in response to the issue of IFRS 9 and use the same approach in the identification, classification and measurement of credit losses. FAS 35, on the other hand, is not applicable to the ICD, given its business model, which does not include profit and loss taking investors.

FAS 28 "*Murabaha and Other Deferred Payment Sales*" supersedes the earlier FAS 2 "*Murabaha and Murabaha to the Purchase Orderer*" and FAS 20 "*Deferred Payment Sales*". This standard aims at setting out the accounting rules for measurement, recognition and disclosure of the transactions of Murabaha and other deferred payment sales. The overall approach towards the development of the standard is to bring the standard closer to the international best practices of accounting such as IFRS 9 "*Financial Instruments*", without compromising on the *Shari'a* principles and rules. Under AAOIFI, "*Murabaha and Other Deferred Payment Sales instruments*" are treated as sale transactions at cost plus deferred profit model with deferred profit, sales and cost of sales disclosed separately whereas under IFRS, these transactions are treated as debt type instruments measured at amortised cost.

FAS 31 "*Investment Agency (Al-Wakala Bi Al-Istithmar)*". The objective of this standard is to establish the principles of accounting and financial reporting for the investment agency (Al-Wakala Bi Al-Istithmar) instruments and the related assets and obligations from both the principal (investor) and the agent perspectives. It allows recognition of Wakala Instruments either on balance sheet or off-balance sheet depending upon the terms of the transactions from an agency accounting perspective unlike IFRS. This standard is effective from the financial periods beginning on or after 1 January 2020. At its 18th meeting held on 22-23 June 2020, AAOIFI permitted the delay in the implementation of the standard by one year (this does not apply to the institutions which started the implementation process or are subject to special regulatory requirements not permitting for such an extension). The ICD adopted the standard effective from 1 January 2021.

SUMMARY OF THE PRINCIPAL PROGRAMME DOCUMENTS

The following is a summary of certain provisions of the principal Programme Documents and is qualified in its entirety by reference to the detailed provisions of the principal Programme Documents. Copies of the Programme Documents will be available for inspection at the offices of the Principal Paying Agent (as defined in the Terms and Conditions).

Master Purchase Agreement

The Master Purchase Agreement will be entered into on 22 September 2025 between the Trustee (in its capacity as "**Purchaser**") and the ICD (in its capacity as "**Seller**") and will be governed by English law. A Supplemental Purchase Agreement between the same parties will be entered into on the Issue Date of each Tranche and will also be governed by English law.

Pursuant to the Master Purchase Agreement, the Seller may, from time to time, agree to sell to the Purchaser and the Purchaser may agree to purchase from the Seller all of the Seller's interests, title, rights and benefits in, to and under the relevant Initial Asset Portfolio or, as the case may be, Additional Assets in consideration for the payment of the relevant purchase price specified in the relevant Final Terms which will be payable on the relevant Issue Date. The relevant Initial Asset Portfolio or, as the case may be, Additional Assets will be set out in the schedule to the relevant Supplemental Purchase Agreement.

Title Agency Agreement

The Title Agency Agreement will be entered into on or around the date of this Base Prospectus between the Trustee and the ICD and will be governed by the English law.

Pursuant to the Title Agency Agreement, following the occurrence of a Dissolution Event which is continuing, the ICD has irrevocably and unconditionally authorised the Trustee to arrange, as soon as is reasonably practicable, for assets comprising the Portfolio Assets to be registered and/or recorded in the Trustee's name or that of its nominee, agent, delegate or assignee in the official record or registry applicable at the time of registration, as the case may, in the event that:

- (i) the ICD has failed or defaulted in its obligations to purchase the Portfolio Assets upon receiving the Exercise Notice under and in accordance with clause 3.1 with the Purchase Undertaking Deed; and
- (ii) the Trustee is unable to make a claim under the indemnity contained in clause 2.3 of the Purchase Undertaking Deed for an amount equal to the relevant Purchase Undertaking Deed Exercise Price as a result of the ICD failing to be, or otherwise claiming that it is not, in actual or constructive possession, custody or control of any of the Portfolio Assets,

provided that, at the relevant time: (1) no Total Loss Event has occurred and is continuing at the time of the delivery of the relevant Exercise Notice; and; and (2) it is possible to do so under, and is not in contravention with, any and all applicable governing laws and regulations of the relevant Member Country where the Portfolio Assets are located.

Further, the ICD and the Trustee have agreed and acknowledged that following entry into the relevant Asset Sale Agreement, the sale purchase, in accordance with the terms of the relevant Asset Sale Agreement from the ICD to the Trustee will have taken place and, as a result, all interests, title, rights and benefits in, to and under the relevant Portfolio Asset (including, for the avoidance of doubt, all risks and liabilities in relation thereto) will have, from a *Shari'a* perspective, transferred to the Trustee on the date of the relevant Asset Sale Agreement. Subject to the Right to Register, the title to the relevant Portfolio Assets of each Series is not intended to be registered (to the extent registrable) in the name of the Trustee and the ICD shall hold the registered title to the Portfolio Assets for and on behalf of the Trustee. In addition, the ICD and the Trustee have agreed that this will not affect the rights and obligations of any party under the relevant Asset Sale Agreement, including, without limitation, the right of ownership, and the associated risks and benefits, from a *Shari'a* perspective of the Trustee to the Portfolio Assets under the relevant Asset Sale Agreement.

Master Service Agency Agreement

The Master Service Agency Agreement will be entered into on 22 September 2025 between the Trustee, the ICD (in its capacity as "**Service Agent**") and the Delegate and will be governed by English law. A

Supplemental Service Agency Agreement between the same parties will be entered into on the Issue Date of each Tranche and will also be governed by English law.

Services

Pursuant to the Master Service Agency Agreement, the Trustee will appoint the Service Agent to perform the following services (the "**Services**") during the period commencing on the relevant Issue Date of the first Tranche of such Series and ending on the date on which all of the Trust Certificates of that Series are redeemed in full (the "**Portfolio Ownership Period**"):

- (i) it will service the relevant Portfolio in accordance with the Supplemental Service Agency Agreement which shall be completed at the time of issue of each Tranche of the relevant Series;
- (ii) it shall, subject to the terms of the Master Service Agency Agreement, ensure that on the Issue Date and at all times after the Issue Date of the first Tranche of a Series, the ratio of the Tangible Asset Value of the relevant Series as a proportion of the value of the Portfolio of such Series, expressed as a percentage (the "**Tangibility Ratio**") of the relevant Series is more than 50 per cent. If, at any time, the Tangibility Ratio falls (other than as a result of a Total Loss Event):
 - (a) to 50 per cent. or below (but is 33 per cent. or more), the Service Agent shall take any and all steps (in consultation with the *Shari'a* Adviser) to ensure such Tangibility Ratio is restored to more than 50 per cent. within the time period determined by the *Shari'a* Adviser; and
 - (b) to less than 33 per cent., a "**Tangibility Event**" shall occur and:
 - (1) promptly upon the Service Agent becoming aware of the Tangibility Event occurring, the Service Agent shall send a notice (the "**Tangibility Event Notice**") to the Trustee and the Delegate of such occurrence;
 - (2) upon receipt of a Tangibility Event Notice, the Trustee shall promptly give a Delisting Notice to the Certificateholders specifying:
 - (i) that a Tangibility Event has occurred, together with an explanation of the reasons for, and evidence of, such occurrence;
 - (ii) that, as determined in consultation with the *Shari'a* Adviser, the Trust Certificates shall only be tradable in accordance with the *Shari'a* principles of debt trading (such as the principle that debt is to be traded against tangible assets and/or eligible commodities on a spot settlement basis); and
 - (iii) that, on the date falling 15 days following the Tangibility Event Redemption Date, the Trust Certificates will be delisted from any stock exchange (if any) on which the Trust Certificates are admitted to listing or if such date is not a business day, the next following business day ("**business day**" being, for this purpose, a day on which the stock exchange on which the Trust Certificates are admitted to listing is open for business); and
 - (iv) the Tangibility Event Put Period, during which period any Certificateholder shall have the right to require the redemption of all or any of its Trust Certificates.

Save for the Service Agent's failure to deliver a Tangibility Event Notice in accordance with the above paragraph (which will constitute an ICD Event), any breach of this paragraph (ii) will not constitute an ICD Event;

- (iii) following the occurrence of a Total Loss Event, the Service Agent shall promptly, upon becoming aware of any such occurrence, notify the Trustee, and upon such notification, the Trustee shall promptly deliver a Trading and Delisting Notice to the Certificateholders specifying:

- (a) the occurrence of such event; and
- (b) that from the date of such Trading and Delisting Notice, and until any further notice from the Trustee, in consultation with the *Shari'a* Adviser, the Trust Certificates should be tradable only in accordance with the *Shari'a* principles of debt trading (such as the principle that debt is to be traded against tangible assets and/or eligible commodities on a spot settlement basis); and
- (c) that, on the date of such Trading and Delisting Notice an application will be made for the Trust Certificates of the relevant Series to be delisted from any stock exchange (if any) on which such Trust Certificates have been admitted to listing or if such date is not a business day, on the next following business day ("**business day**" being, for this purpose, a day on which the stock exchange on which the Trust Certificates are admitted to listing is open for business).

Following a replacement of the relevant Portfolio Assets as provided further below, the Service Agent shall notify the Trustee and the Delegate of the same and the Trustee shall promptly, following receipt of such notice from the Service Agent and in consultation with the *Shari'a* Adviser, deliver a notice to the relevant Certificateholders in accordance with Condition 18 (*Notices*) that: (1) from the date of that notice the Trust Certificates may be traded at any price; and (2) the Trust Certificates of the relevant Series shall be re-listed, as soon as reasonably practicable, on the stock exchange (if any) on which the Trust Certificates had previously been admitted to listing;

- (iv) it will promptly notify (for and on behalf of the Trustee) to the ICD the available Principal Collections and, immediately following such notification, (to the extent that the ICD has Eligible Portfolio Assets available for sale to the Trustee and the details for which the Service Agent shall notify to the Trustee) the Trustee may, pursuant to and on the terms of a separate purchase agreement substantially in the form, *mutatis mutandis*, of a Supplemental Purchase Agreement, purchase all of the ICD's interest, title, right and benefit in, to and under such further Eligible Portfolio Assets made available by or on behalf of the ICD, provided that the purchase price for such further Eligible Portfolio Assets shall not be greater than such available Principal Collections;
- (v) it shall do all acts and things (including execution of such documents, issue of notices and commencement of any proceedings) that it considers (and without the need for the consent of the Trustee) reasonably necessary to ensure the assumption of, and compliance by, each Asset Obligor with its covenants, undertakings or other obligations under the relevant Asset Contracts in accordance with applicable law and the terms of the Asset Contract, in each case in respect of the relevant Portfolio Assets;
- (vi) it shall procure that any Portfolio Assets included in the Portfolio are maintained to a standard it would hold in respect of its own assets and procure that such Portfolio Assets are insured in accordance with the terms of the relevant Asset Contracts;
- (vii) it shall use reasonable endeavours to ensure that all Asset Obligors comply with their obligations in respect of the Portfolio Assets in accordance with the terms of the Asset Contracts;
- (viii) it shall use all reasonable endeavours to ensure the timely receipt of all Collections payable in respect of the Portfolio Assets (free and clear of, and without withholding or deduction for, taxes), investigate non-payment of any Collections and generally make all reasonable efforts to collect or enforce the collection of such Collections as and when the same shall become due including so that the Profit Collections in respect of each Portfolio Distribution Period are at least equal to the Expected Profit Collections Amount and shall record such Collections in the relevant Collection Account in accordance with the terms of the Master Service Agency Agreement;
- (ix) it shall maintain the Collection Accounts and the Reserve Account in accordance with the terms of the Master Service Agency Agreement;
- (x) it shall prepare and deliver a servicing report (substantially in the form set out in the Master Service Agency Agreement) on each Portfolio Distribution Determination Date to the Trustee and the Delegate in respect of each immediately preceding Portfolio Distribution Period;

- (xi) it shall pay, on account and on behalf of the Trustee, any actual costs (excluding any funding costs (whether in the form of interest or otherwise)), expenses, actual losses (excluding any opportunity losses) and taxes (other than proprietorship taxes) which would otherwise be payable by the Trustee as a result of the Trustee's ownership of the Portfolio;
- (xii) it shall promptly pay, on account and on behalf of the Trustee, all proprietorship taxes (if any) charged, levied or claimed in respect of the Portfolio Assets of the relevant Series by any relevant taxing authority and promptly, upon request, provide to the Trustee appropriate receipts or certificates from the relevant taxing authority for the full amount of all proprietorship taxes paid by it;
- (xiii) it shall investigate any breaches by counterparties of Asset Contracts relating to the Portfolio Assets and shall investigate any Defaulted Portfolio Assets;
- (xiv) it shall keep and maintain all documents, books, records and other information reasonably necessary or advisable for the collection of all amounts due in respect of the relevant Portfolio (including, without limitation, records adequate to permit the identification on each issue date of each Portfolio Asset and identification of all amounts received in respect of each existing Portfolio Asset comprised in the relevant Portfolio) and make the same available to the Trustee or such other person as the Trustee may reasonably request;
- (xv) it shall obtain all necessary licences, authorisations and consents in connection with any of the Portfolio Assets and its obligations under or in connection with the Master Service Agency Agreement;

- (xviii) it shall provide any other information to the Trustee or any other party as required under any Programme Document or any Transaction Document;

- (xx) in relation to each Portfolio Asset forming part of the relevant Portfolio:
 - (a) subject always to paragraph (c) below, it will (on account and on behalf of the Trustee):
 - (1) ensure that such Portfolio Assets are properly insured, and shall effect such insurances in respect of such Portfolio Assets (through brokers and with reputable insurance companies in good financial standing) (the "**Insurances**") including against a Total Loss Event. The Service Agent undertakes to ensure that the insured amount relating to a Total Loss Event will, at all times, be at least equal to the Full Reinstatement Value;
 - (2) promptly make a claim in respect of each loss relating to such Portfolio Assets in accordance with the terms of the Insurances; and
 - (3) ensure that, in the event of a Total Loss Event occurring, unless such Portfolio Assets have been replaced pursuant to paragraph (b) below, all the proceeds of the Insurances against a Total Loss Event are in an amount equal to the Full Reinstatement Value and are credited in the Specified Currency to the Principal Account of the relevant Series by no later than the 60th day after the occurrence of the Total Loss Event; and

Immediately following such notification, the Trustee may, pursuant to and on the terms of a separate purchase agreement substantially in the form, *mutatis mutandis*, of a Supplemental Purchase Agreement, purchase and accept the transfer and assignment of all of the ICD's interests, title, rights and benefits in, to and under such Replacement Eligible Portfolio Assets from the ICD at a purchase price to be paid by the Service Agent on behalf of the Trustee using the proceeds of the Insurances (or the assignment of the rights to such proceeds) to or to the order of the ICD;
- (c) wherever the Service Agent procures Insurances in accordance with the terms of the Master Service Agency Agreement (including the renewal of any Insurances in existence on the Issue Date) it shall use its reasonable endeavours to obtain such Insurances on a *takaful* basis if such *takaful* insurance is available on commercially viable terms. If no such *takaful* insurance is available on commercially viable terms, the Service Agent shall procure conventional insurance; and
- (xxi) it shall carry out any incidental matters relating to any of the above.

If, following the occurrence of a Total Loss Event at any time during the Portfolio Ownership Period in relation to a Series: (i) the notice referred to paragraph (xx)(a)(4) has not been delivered by the Service Agent to the Trustee and the Delegate within the first 60 days of the first Tranche of the relevant Series and prior to the occurrence of such Total Loss Event; (ii) the Portfolio Assets have not been replaced pursuant to paragraph (xx)(b) above; and (iii) the amount (if any) credited to the Principal Account of the relevant Series pursuant to paragraph (xx)(a)(3) is less than the relevant Full Reinstatement Value (the difference between the Full Reinstatement Value and the amount credited to the Principal Account being the "**Total Loss Shortfall Amount**"), then the Service Agent undertakes to: (1) transfer the amounts (if any) credited to the Principal Account in accordance with paragraph (xx)(a)(3); and (2) to pay the Total Loss Shortfall Amount, in each case, directly to the Transaction Account of the relevant Series (in same day, freely transferable, cleared funds) by no later than close of business in London on the 61st day after the Total Loss Event has occurred. Subject to transferring such amounts (if any) credited to the relevant Principal Account and/or paying such Total Loss Shortfall Amount in accordance with paragraph, there will be no further claim against the Service Agent for failing to comply with its obligations relating to Insurances in respect of the relevant Series.

Substitution of Portfolio Assets

In relation to each Series, provided that a Total Loss Event has not occurred in respect of such Series (or, if a Total Loss Event has occurred, the Portfolio Assets of the relevant Series have been replaced in accordance with the Master Service Agency Agreement), upon any Portfolio Asset ceasing to be an Eligible Portfolio Asset, the ICD shall use its best endeavours to identify new Portfolio Assets for potential replacement of the relevant Portfolio Asset(s) that has ceased to be an Eligible Portfolio Asset and, from the date of such substitution, the Portfolio shall exclude such substituted Portfolio Assets and shall include such new Portfolio Assets. The Service Agent shall promptly notify the Trustee if any Portfolio Asset ceases to be an Eligible Portfolio Asset.

Covenant

The Service Agent will covenant with, and undertake to, the Trustee in the Master Service Agency Agreement that, without prejudice to any of its specific obligations under the Master Service Agency Agreement, *inter alia*, in relation to each Series, it shall maintain actual or constructive possession, custody or control of all of the Portfolio Assets comprising the Portfolio during the Portfolio Ownership Period and there is nothing in the Asset Contracts that would prevent it from remaining in actual or constructive possession, custody or control of all of the Portfolio Assets comprising the Portfolio during the Portfolio Ownership Period

Fee

In respect of each Series, for so long as the Service Agent is acting as Service Agent, the Trustee agrees to pay to the Service Agent on the date of each Supplemental Service Agency Agreement, a nominal fee of U.S.\$100. Save for this and any Incentive Payments, no other amounts shall be payable by the Trustee to the Service Agent.

Payments

The Service Agent will agree in the Master Service Agency Agreement that all payments by the Service Agent to the Trustee under the Master Service Agency Agreement must be made without any withholding or deduction for or on account of any present or future Taxes imposed by the Relevant Jurisdictions unless required by law and without set-off or counterclaim of any kind. If there is any such withholding or deduction, the Service Agent shall pay all additional amounts as will result in the receipt by the Trustee of such net amounts as would have been receivable by it if no withholding or deduction had been made and accordingly the Service Agent undertakes to pay to the Trustee or such other persons as the Trustee may direct such additional amounts forthwith upon demand and in the Specified Currency and in the manner prescribed in the Master Service Agency Agreement.

The payment obligations of the Service Agent under the Master Service Agency Agreement and each Supplemental Service Agency Agreement are and will be direct, unsubordinated and unsecured obligations of the Service Agent and shall, save for such exceptions as may be provided by applicable legislation and subject to the negative pledge provisions described in Condition 6.2 (*Negative Pledge*), at all times rank at least equally with all other unsecured and unsubordinated indebtedness and monetary obligations of the Service Agent, present and future.

The Sale Undertaking Deed will be executed as a deed on 22 September 2025 by the Trustee in favour of the ICD and will be governed by English law.

Pursuant to the Sale Undertaking Deed, provided that: (i) no Total Loss Event has occurred and is continuing in respect of the relevant Series (or if a Total Loss Event has occurred, the Portfolio Assets of the relevant Series have been replaced in accordance with the Master Service Agency Agreement); and (ii) the right granted under paragraph (iv) below shall not be exercisable until the date falling six months from the Issue Date of the first Tranche of such Series unless otherwise approved in writing by the *Shari'a* Adviser, the Trustee will irrevocably grant to the ICD the following rights:

- (i) to require the Trustee to transfer and assign to the ICD on the relevant substitution date all of the Trustee's interests, title, rights and benefits in, to and under the substituted Portfolio Assets against the transfer and assignment to the Trustee of all of the ICD's interests, title, rights and benefits in, to and under the new Portfolio Assets, provided that:
 - (a) no Potential Dissolution Event, Dissolution Event or Tangibility Event has occurred and is continuing in respect of the relevant Series;
 - (b) the new Portfolio Assets are Eligible Portfolio Assets of an aggregate value which: (1) is equal to or greater than the aggregate value of the substituted Portfolio Assets on the date such assets were acquired by or on behalf of the Trustee pursuant to any Programme Document and/or Transaction Document; and (2) when aggregated with the aggregate value of any Portfolio Assets not replaced or substituted on the relevant substitution date, satisfies the Tangibility Ratio; and
 - (c) no exercise notice or cancellation notice has been delivered under the Sale Undertaking Deed or the Purchase Undertaking Deed, in each case, where such exercise notice or cancellation notice remains outstanding and the related redemption of Trust Certificates referred to therein has not occurred in accordance with the Conditions or, as the case may be, the related transfer and assignment of all of the Trustee's interest, title, right and benefit in, to and under the relevant Ineligible Portfolio Assets (as defined in the Purchase Undertaking Deed) has not occurred in accordance with the Purchase Undertaking Deed;
- (ii) following delivery of the Trust Certificates to the Principal Paying Agent for cancellation pursuant to Condition 12 (*Purchase of Trust Certificates*) (the "**Cancellation Certificates**"), to require the Trustee to transfer and assign to the ICD on the relevant cancellation date all of the Trustee's interests, title, rights and benefits in, to and under the relevant cancellation Portfolio Assets, provided that:
 - (a) no Potential Dissolution Event, Dissolution Event or Tangibility Event has occurred and is continuing in respect of the relevant Series;
 - (b) the cancellation Portfolio Assets are of a value which is not greater than the aggregate face amount of the Cancellation Certificates less the Cancellation Proportion of the aggregate amounts of Deferred Payment Price (which, for the purposes of this paragraph, shall exclude all Deferred Payment Price Instalments forming part of such Deferred Payment Price) then outstanding; and
 - (c) no exercise notice has been delivered under the Sale Undertaking Deed or the Purchase Undertaking Deed, in each case, where such exercise notice remains outstanding and the related redemption of Trust Certificates referred to therein has not occurred in accordance with the Conditions or, as the case may be, the related transfer and assignment of all of the Trustee's interest, title, right and benefit in, to and under the relevant Ineligible Portfolio Assets (as defined in the Purchase Undertaking Deed) has not occurred in accordance with the Purchase Undertaking Deed;

- (iv) if the Optional Dissolution (Call) Right is specified in the relevant Final Terms as applicable and such Optional Dissolution (Call) Right has been exercise pursuant to Condition 11.4 (*Dissolution*

at the Option of the Trustee), to require the Trustee to transfer and assign to the ICD on the Optional Dissolution Date all of the Trustee's interests, title, rights and benefits in, to and under the Portfolio Assets at the Exercise Price specified in the relevant exercise notice; and

- (v) if 75 per cent. or more of the aggregate face amount of Trust Certificates then outstanding have been redeemed and/or purchased and cancelled pursuant to Condition 11.5 (*Dissolution following a Tangibility Event*) and the clean up call right has been exercised pursuant to Condition 11.7 (*Clean Up Call Right*), to require the Trustee to transfer and assign to the ICD on the Clean Up Dissolution Date all of the Trustee's interests, title, rights and benefits in, to and under the Portfolio Assets at the Exercise Price specified in the relevant exercise notice,

in each case, by the purchase, transfer and assignment of all of the Trustee's interests, title, rights and benefits in, to and under the relevant substituted Portfolio Assets, cancellation Portfolio Assets or Portfolio Assets (as the case may be) on an "as is" basis but free and clear of any adverse claim and otherwise on the terms and subject to the conditions of the Sale Undertaking Deed.

If all of the Trust Certificates of a Series are being redeemed in full: (a) an amount equal to the amounts payable in respect of any Liquidity Facility and the Service Agency Liabilities Amounts, in each case, to be paid by the ICD as part of any relevant Sale Undertaking Deed Exercise Price upon exercise of the Sale Undertaking Deed; and (b) any amounts payable to the Service Agent in respect of any Liquidity Facility and any Service Agency Liabilities Amounts payable to the Service Agent, in each case, pursuant to the Master Service Agency Agreement and which have not been paid, shall be set-off against one another.

For the purposes of the above paragraphs:

Purchase Undertaking Deed

The Purchase Undertaking Deed will be executed as a deed on 22 September 2025 by the ICD in favour of the Trustee and the Delegate and will be governed by English law.

Pursuant to the Purchase Undertaking Deed, provided that no Total Loss Event has occurred and is continuing in respect of the relevant Series (or if a Total Loss Event has occurred, the Portfolio Assets of the relevant Series have been replaced in accordance with the Master Service Agency Agreement), the ICD will irrevocably grant to the Trustee and the Delegate (in each case, on behalf of itself and the Certificateholders) the following rights:

- (i) to require the ICD to purchase and accept the transfer and assignment on the Maturity Date all of the Trustee's interests, title, rights and benefits in, to and under the Portfolio Assets at the Exercise Price specified in the relevant exercise notice;
- (ii) provided that a Tangibility Event has occurred and one or more Tangibility Event Put Notices have been delivered in accordance with Condition 11.5 (*Dissolution following a Tangibility Event*), to require the ICD to purchase and accept the transfer and assignment on the Tangibility Event Redemption Date all of the Trustee's interests, title, rights and benefits in, to and under the relevant Portfolio Assets at the Tangibility Event Exercise Price specified in the relevant exercise notice;
- (iii) provided that a Dissolution Event has occurred and a Dissolution Notice has been delivered in accordance with Condition 15 (*Dissolution Events*), to require the ICD to purchase and accept the transfer and assignment on the Dissolution Event Redemption Date all of the Trustee's interests, title, rights and benefits in, to and under the Portfolio Assets at the Exercise Price specified in the relevant exercise notice; and
- (iv) provided that the Trustee has received notice, or otherwise becomes aware, of any Portfolio Asset ceasing to be an Eligible Portfolio Asset (such asset being an "**Ineligible Portfolio Asset**"), to require the ICD to purchase and accept the transfer and assignment on the relevant exercise date all of the Trustee's interests, title, rights and benefits in, to and under the relevant Ineligible Portfolio Asset against the transfer and assignment to the Trustee of the ICD's interests, title, rights and benefits in, to and under certain new Eligible Portfolio Assets (being "**New Eligible Portfolio Assets**") or (in the event that the ICD does not have further New Eligible Portfolio Assets available for such purpose) at the exercise price specified in the relevant exercise notice,

in each case, by the purchase, transfer and assignment of all of the Trustee's interests, title, rights and benefits in, to and under the relevant Portfolio Assets on an "as is" basis but free and clear of any adverse claim and otherwise on the terms and subject to the conditions of the Purchase Undertaking Deed.

In relation to any Series, if:

- (a) at the time of delivery of an exercise notice in accordance with the provisions of the Purchase Undertaking Deed, the Islamic Corporation for the Development of the Private Sector remains in actual or constructive possession, custody or control of all or any part of the Portfolio Assets; and
- (b) following delivery of an exercise notice in accordance with the provisions of the Purchase Undertaking Deed, the ICD fails to pay the relevant Purchase Undertaking Deed Exercise Price in accordance with the provisions of the Purchase Undertaking Deed for any reason whatsoever,

the ICD shall (as an independent, severable and separately enforceable obligation) fully indemnify the Trustee for the purpose of redemption in full of the relevant Trust Certificates of such Series and, accordingly, the amount payable under any such indemnity claim will equal the relevant Purchase Undertaking Deed Exercise Price.

The ICD will undertake in the Purchase Undertaking Deed, *inter alia*, to comply with all provisions of the Conditions, the Programme Documents and the Transaction Documents to which it is a party and which are expressed to be applicable to it including, without limitation, the negative pledge provisions described in Condition 6.2 (*Negative Pledge*).

Except as provided in the below paragraph, the ICD will undertake in the Purchase Undertaking Deed that all payments by the ICD to the Trustee under the Purchase Undertaking Deed must be made without any withholding or deduction for or on account of any present or future Taxes imposed by the Relevant

Jurisdictions unless required by law and without set-off or counterclaim of any kind. If there is any such withholding or deduction, the ICD shall pay all additional amounts as will result in the receipt by the Trustee of such net amounts as would have been receivable by it if no withholding or deduction had been made and accordingly the ICD undertakes to pay to the Trustee or such other persons as the Trustee may direct such additional amounts forthwith upon demand and in the Specified Currency and in the manner prescribed in the Purchase Undertaking Deed.

Notwithstanding the above paragraph, if all of the Trust Certificates of a Series are being redeemed in full: (1) an amount equal to the amounts payable in respect of any Liquidity Facility and the Service Agency Liabilities Amounts, in each case, to be paid by the ICD as part of any relevant Purchase Undertaking Deed Exercise Price upon exercise of the Purchase Undertaking Deed; and (2) any amounts payable to the Service Agent in respect of any Liquidity Facility and any Service Agency Liabilities Amounts payable to the Service Agent, in each case, pursuant to the Master Service Agency Agreement and which have not been paid, shall be set-off against one another.

The payment obligations of the ICD under the Purchase Undertaking Deed are and will be direct, unsubordinated and unsecured obligations of the ICD and shall, save for such exceptions as may be provided by applicable legislation and subject to the negative pledge provisions described in Condition 6.2 (*Negative Pledge*), at all times rank at least equally with all other unsecured and unsubordinated indebtedness and monetary obligations of the ICD, present and future.

For the purposes of the above paragraphs:

"Exercise Price" means, in relation to each Series:

- (a) the aggregate of:
 - (i) the aggregate face amount of the Trust Certificates of such Series then outstanding; *plus*
 - (ii) an amount equal to all due and unpaid Periodic Distribution Amounts (if any) relating to such Trust Certificates; *plus*
 - (iii) without double counting, any other amounts payable on redemption of the Trust Certificates as specified in the applicable Final Terms (if any); *plus*
 - (iv) to the extent not previously satisfied in accordance with the Master Service Agency Agreement, an amount equal to the sum of any outstanding: (1) amounts payable to the Service Agent in respect of any Liquidity Facility; and (2) any Service Agency Liabilities Amounts, in each case, in respect of the relevant Series; *plus*
 - (v) without double counting, an amount representing any amounts payable by the Trustee (in any capacity) under the Programme Documents and the Transaction Documents (including but not limited to amounts due but unpaid to the Delegate pursuant to the relevant Condition); *less*
- (b) the amounts (if any) that are standing to the credit of the Principal Account relating to that Series which have been paid into the Transaction Account in accordance with the Master Service Agency Agreement and which shall be available on the relevant Dissolution Date to pay a proportion of the aggregate amounts payable on redemption of the Trust Certificates; *less*
- (c) the aggregate amount of each Deferred Payment Price then outstanding (if any) in respect of the relevant Series which has been paid into the Transaction Account in accordance with the Master Murabaha Agreement and which shall be available on the relevant due date to pay a proportion of the aggregate amounts payable on redemption of the Trust Certificates;

"Tangibility Event Exercise Price" means, in relation to each Series:

- (a) the aggregate of:
 - (i) the aggregate face amount of the Tangibility Event Put Certificates; *plus*

- (ii) an amount equal to all due and unpaid Periodic Distribution Amounts (if any) relating to the Tangibility Event Put Certificates; *plus*
 - (iii) without double counting, any other amounts payable on redemption of the Tangibility Event Put Certificates as specified in the applicable Final Terms (if any); *plus*
 - (iv) (if all of the Trust Certificates of the relevant Series are being redeemed) to the extent not previously satisfied in accordance with the Master Service Agency Agreement, an amount equal to the sum of any outstanding: (1) amounts payable to the Service Agent in respect of any Liquidity Facility; and (2) any Service Agency Liabilities Amounts, in each case, in respect of the relevant Series; *plus*
 - (v) (if all of the Trust Certificates of the relevant Series are being redeemed) without double counting, an amount representing any amounts payable by the Trustee (in any capacity) under the Programme Documents and the Transaction Documents (including but not limited to amounts due but unpaid to the Delegate pursuant to the relevant Condition); *less*
- (b) (if all of the Trust Certificates of the relevant Series are being redeemed) the amounts (if any) that are standing to the credit of the Principal Account relating to that Series which have been paid into the Transaction Account in accordance with the Master Service Agency Agreement and which shall be available on the relevant Dissolution Date to pay a proportion of the aggregate amounts payable on redemption of the Trust Certificates; *less*
 - (c) the Tangibility Event Proportion each Deferred Payment Price then outstanding (if any) which has been paid into the Transaction Account in accordance with the Master Murabaha Agreement and which shall be available on the relevant due date to pay a proportion of the aggregate amounts payable on redemption of the Tangibility Event Put Certificates;

"Tangibility Event Proportion" means such proportion as is determined by dividing: (a) the aggregate face amount of the Tangibility Event Put Certificates; by (b) the aggregate outstanding face amount of the Trust Certificates of the relevant Series (which, for the avoidance of doubt, will include the relevant Tangibility Event Put Certificates); and

"Tangibility Event Put Certificates" means the Trust Certificates in respect of which Tangibility Event Put Notices have been delivered in accordance with the Conditions and specified as such in the exercise notice.

Master Murabaha Agreement

The Master Murabaha Agreement will be entered into on 22 September 2025 between the Trustee, the ICD (in its capacity as **"Buyer"**) and the Delegate and will be governed by English law.

In connection with each Tranche of Certificates, the Trustee may desire to enter into a Commodity Murabaha Investment with the Buyer using a portion of the issue proceeds of the Tranche as specified in the relevant Final Terms. Pursuant to the Master Murabaha Agreement, the Buyer may deliver to the Trustee a notice of request to purchase (the **"Notice of Request to Purchase"**) on or before the relevant Issue Date. Pursuant to the Notice of Request to Purchase, the Trustee (acting through a commodity agent) may purchase the Commodities which are the subject of that Notice of Request to Purchase from the commodity supplier at the relevant Commodity Purchase Price in accordance with the terms set out in that Notice of Request to Purchase and, following such purchase of the relevant Commodities, may offer to sell those Commodities to the Buyer at the relevant Deferred Payment Price on deferred payment terms in accordance with the terms of the Master Murabaha Agreement. Upon completion of the purchase of the Commodities by the Trustee and the Trustee gaining title to and (actual or constructive) possession of the Commodities, the Seller may deliver to the Buyer an offer notice (the **"Offer Notice"**) on or before the Issue Date indicating the Trustee's acceptance of the terms of the Notice of Request to Purchase. Provided that the Buyer has received the Offer Notice, the Buyer may accept the terms of, and countersign and deliver to the Trustee, such Offer Notice on or before the Issue Date. As soon as the Buyer has accepted the Trustee's offer by countersigning the relevant Offer Notice: (i) the relevant Murabaha Contract (as defined below) shall be created between the Trustee and the Buyer upon the terms of that Offer Notice and incorporating the terms and conditions set out in the Master Murabaha Agreement; (ii) the Trustee sells and the Buyer purchases the relevant Commodities on the terms set out in the Offer Notice; and (ii) ownership (including,

without limitation, the right of ownership from a *Shari'a* perspective) of and, upon the Buyer obtaining actual or constructive possession of the relevant Commodities, all risks in and to, the relevant Commodities shall immediately pass to and be vested in the Buyer, together with all rights and obligations relating thereto. Subject to the Buyer having purchased the Commodities, the Buyer may sell those Commodities to a third party.

The Buyer will agree in the Master Murabaha Agreement that all payments by the Buyer to the Trustee under the Master Murabaha Agreement must be made without any withholding or deduction for or on account of any present or future Taxes imposed by the Relevant Jurisdictions unless required by law and without set-off or counterclaim of any kind. If there is any such withholding or deduction, the Buyer shall pay all additional amounts as will result in the receipt by the Trustee of such net amounts as would have been receivable by it if no withholding or deduction had been made and accordingly the Buyer undertakes to pay to the Trustee or such other persons as the Trustee may direct such additional amounts forthwith upon demand and in the Specified Currency and in the manner prescribed in the Master Murabaha Agreement.

The payment obligations of the Buyer under the Master Murabaha Agreement and each Murabaha Contract are and will be direct, unsubordinated and unsecured obligations of the Buyer and shall, save for such exceptions as may be provided by applicable legislation and subject to the negative pledge provisions described in Condition 6.2 (*Negative Pledge*), at all times rank at least equally with all other unsecured and unsubordinated indebtedness and monetary obligations of the Buyer, present and future.

For the purposes of the above paragraphs, "**Murabaha Contract**" means, in relation to each relevant Tranche, an individual contract for the sale of Commodities at a deferred payment price and made pursuant to the Master Murabaha Agreement by the delivery of both an Offer Notice by the Trustee to the Buyer and the subsequent countersignature of such Offer Notice by the Buyer in accordance with the terms of the Master Murabaha Agreement.

Master Trust Deed

The Master Trust Deed will be entered into on 22 September 2025 between the Trustee, the ICD and the Delegate and will be governed by English law. A Supplemental Trust Deed between the same parties will be entered into on the Issue Date of each Tranche of Certificates and will also be governed by English law.

Upon the issue of a Global Trust Certificate initially representing the Trust Certificates of any Series, such Trust Certificates shall become constituted by the Master Trust Deed together with the applicable Supplemental Trust Deed without further formality. The Trust Certificates of each Series will represent direct, unsubordinated and unsecured undivided ownership interests in the Trust Assets of the relevant Series and will at all times rank *pari passu* without any preference or priority with all other present and future Trust Certificates of such Series.

The Trustee will agree in the Master Trust Deed that, in relation to each Series of Trust Certificates, it will, *inter alia*, hold the Trust Assets in relation to the relevant Series of Trust Certificates, from and including the date that such other Trust Assets are transferred to or otherwise vested in or received by it, on trust absolutely for the holders of the Trust Certificates *pro rata* according to the face amount of Trust Certificates held by each Certificateholder.

The Trust Assets in respect of each Series of Trust Certificates shall comprise (unless otherwise specified in the relevant Supplemental Trust Deed), amongst other things: (i) the cash proceeds of the issue of the Trust Certificates; (ii) all of the Trustee's rights, title, interest and benefit, present and future, in and to the Portfolio; (iii) all of the Trustee's rights, title, interest and benefit, present and future, in and to the Programme Documents and Transaction Documents to which it is a party; (iv) the rights of the Trustee to any cash in any of its bank accounts (and any profit or income earned on such cash) and any other amounts or assets held on its behalf by any agent (including, but not limited to, any amount held on its behalf pursuant to the Master Service Agency Agreement) which are attributable to, arise from, or are in any way connected with any Series of Trust Certificates; and (v) all moneys standing to the credit of the Transaction Account from time to time.

Pursuant to the Master Trust Deed, the Trustee will irrevocably and unconditionally appoint the Delegate as its delegate and to be its attorney and in its name, on its behalf and as its act and deed to execute, deliver and perfect all documents, and to exercise all of the present and future functions, powers (including the

power to sub-delegate), authorities (including, but not limited to, the authority to request directions from any Certificateholders and the power to make any determinations to be made under the Master Trust Deed) and discretions vested in the Trustee by the Master Trust Deed, the Programme Documents and the Transaction Documents, that the Delegate may consider to be necessary or desirable in order, *inter alia*, upon the occurrence of a Dissolution Event or a Potential Dissolution Event (subject to it being indemnified and/or secured and/or prefunded to its satisfaction) to exercise all powers, authorities and discretions of the Trustee (solely in its capacity as such) set out in the Master Trust Deed, the Programme Documents and the Transaction Documents (provided that no obligations, duties, liabilities or covenants of the Trustee pursuant to the Master Trust Deed, any Programme Document or any other Transaction Document shall be imposed on the Delegate by virtue of this delegation) and make such distributions from the Trust Assets as the Trustee is bound to make in accordance with the Master Trust Deed.

Declaration of Commingling of Assets

In respect of any Series, the Trustee may from time to time create and issue additional Trust Certificates pursuant to Condition 22 (*Further Issues*). On the date upon which any such additional Trust Certificates are created and issued, following an evaluation of the Additional Assets and the Portfolio Assets comprised in the Portfolio as in existence immediately prior to the creation and issue of the additional Trust Certificates, the Trustee will execute a Declaration of Commingling of Assets for and on behalf of the holders of the existing Trust Certificates and the holders of such additional Trust Certificates so created and issued, declaring that the Additional Assets and the Portfolio Assets comprised in the Portfolio as in existence immediately prior to the creation and issue of the additional Trust Certificates and each Commodity Murabaha Investment made pursuant to the Master Murabaha Agreement (and all rights arising under or with respect thereto) in relation to the relevant Series are commingled and shall collectively comprise part of the Trust Assets for the benefit of the holders of the existing Trust Certificates and the holders of such additional Trust Certificates as tenants in common *pro rata* according to the face amount of Trust Certificates held by each Certificateholder, in accordance with the Master Trust Deed.

The Master Trust Deed will also specify that no payment of any amount whatsoever under or in connection with the Master Trust Deed shall be made by the Trustee (acting in any capacity) (and/or its shareholders, officers, directors or corporate services providers in their capacity as such) or any agents thereof except to the extent that funds are available thereof from the Trust Assets of the relevant Series of Trust Certificates and no recourse shall be had to any assets of the Trustee (and/or its shareholders, officers, directors or corporate services providers in their capacity as such) (other than Trust Assets of the relevant Series of Trust Certificates) or the ICD (to the extent it fulfils its obligations under the Programme Documents and Transaction Documents to which it is a party) or any of their affiliates in respect of any shortfall in the expected amounts from the relevant Trust Assets to the extent the relevant Trust Assets have been exhausted following which all the obligations of the Trustee shall be extinguished.

Indemnity

In relation to any Series:

- (i) if, at the time of delivery of an exercise notice in accordance with the provisions of the Purchase Undertaking Deed, the Islamic Corporation for the Development of the Private Sector remains in actual or constructive possession, custody or control of all or any part of the Portfolio Assets; and
- (ii) if, following delivery of an exercise notice in accordance with the provisions of the Purchase Undertaking Deed, the ICD fails to pay the relevant Purchase Undertaking Deed Exercise Price in accordance with the provisions of the Purchase Undertaking Deed for any reason whatsoever,

the ICD shall (as an independent, severable and separately enforceable obligation) fully indemnify the Trustee for the purpose of redemption in full of the relevant Trust Certificates of such Series and, accordingly, the amount payable under any such indemnity claim will equal the relevant Purchase Undertaking Deed Exercise Price.

In relation to any Series, if the ICD fails to pay the outstanding Deferred Payment Price on the relevant Dissolution Date in accordance with the provisions of the Master Murabaha Agreement for any reason whatsoever, the ICD shall (as an independent, severable and separately enforceable obligation) fully indemnify the Trustee for the purpose of redemption in full of the outstanding Trust Certificates of such

Series and, accordingly, the amount payable under any such indemnity claim will equal the outstanding Commodity Purchase Price.

In relation to any Series, the ICD, if the Right to Register is exercisable by the Trustee and such right is exercised, the ICD has agreed that it shall be in breach of its obligation under the Purchase Undertaking Deed to purchase, and accept the transfer and assignment of, all of the Trustee's rights, title, interests, benefits and entitlements in, to and under the Portfolio Assets of the relevant Series at the relevant Purchase Undertaking Deed Exercise Price, as the case may be, whereupon the ICD shall (as an independent, severable and separately enforceable obligation) fully indemnify the Trustee for the purpose of redemption in full of the Trust Certificates then outstanding, provided that the amount payable under any such indemnity claim shall not exceed the difference between: (i) any proceeds realised from the disposition of the relevant Portfolio Assets following the exercise of the Right to Register; and (ii) the relevant Purchase Price.

Shari'a Compliance

Each of ICDPS Sukuk Limited and the Islamic Corporation for the Development of the Private Sector has agreed in the Programme Documents to which it is a party that it has accepted the *Shari'a*-compliant nature of the Programme Documents and the Transaction Documents to which it is a party and, to the extent permitted by law, has further agreed that:

- (i) it shall not claim that any of its obligations under the Programme Documents and/or the Transaction Documents to which it is a party (or any provision thereof) is *ultra vires* or not compliant with the principles of *Shari'a*;
- (ii) it shall not take any steps or bring any proceedings in any forum to challenge the *Shari'a* compliance of the Programme Documents and/or the Transaction Documents to which it is a party; and
- (iii) none of its obligations under the Programme Documents and/or the Transaction Documents to which it is a party shall in any way be diminished, abrogated, impaired, invalidated or otherwise adversely affected by any finding, declaration, pronouncement, order or judgment of any court, tribunal or other body that the Programme Documents and/or the Transaction Documents to which it is a party are not compliant with the principles of *Shari'a*.

THIS SUMMARY IS BASED UPON THE LAW AS IN EFFECT ON THE DATE OF THIS BASE PROSPECTUS AND IS SUBJECT TO ANY CHANGE IN LAW THAT MAY TAKE EFFECT AFTER SUCH DATE.

Proposed Financial Transactions Tax (the "FTT")

On 14 February 2013, the European Commission published a proposal (the "**Commission's Proposal**") for a Directive for a common FTT in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia (the "**participating Member States**"). However, Estonia has since stated that it will not participate.

The Commission's Proposal has very broad scope and could, if introduced, apply to certain dealings in the Trust Certificates (including secondary market transactions) in certain circumstances. The issuance and subscription of the Trust Certificates should, however, be exempt.

Under the Commission's Proposal, the FTT could apply in certain circumstances to persons both within and outside of the participating Member States. Generally, it would apply to certain dealings in the Trust Certificates where at least one party is a financial institution, and at least one party is established in a participating Member State. A financial institution may be, or be deemed to be, "established" in a participating Member State in a broad range of circumstances, including: (i) by transacting with a person established in a participating Member State; or (ii) where the financial instrument which is subject to the dealings is issued in a participating Member State.

However, the FTT proposal remains subject to negotiation between participating Member States. It may therefore be altered prior to any implementation, the timing of which remains unclear. Additional EU Member States may decide to participate. Prospective holders of the Trust Certificates are advised to seek their own professional advice in relation to the FTT.

Foreign Account Tax Compliance Act

Sections 1471 through 1474 of the U.S. Internal Revenue Code of 1986 ("**FATCA**") impose a new reporting regime and potentially a 30 per cent. withholding tax with respect to certain payments to: (i) any non-U.S. financial institution (a "**foreign financial institution**", or "**FFI**" (as defined by FATCA)) that does not become a "**Participating FFI**" by entering into an agreement with the U.S. Internal Revenue Service ("**IRS**") to provide the IRS with certain information in respect of its account holders and investors or is not otherwise exempt from or in deemed compliance with FATCA; and (ii) any investor (unless otherwise exempt from FATCA) that does not provide information sufficient to determine whether the investor is a U.S. person or should otherwise be treated as holding a "United States account" of the Trustee (a "**Recalcitrant Holder**"). The Trustee may be classified as an FFI.

The new withholding regime is now in effect for payments from sources within the United States and will apply to "foreign passthru payments" (a term not yet defined) no earlier than the date that is two years after the publication of the final regulations defining "foreign passthru payment". This withholding would potentially apply to payments in respect of: (a) any Trust Certificates characterised as debt (or which are not otherwise characterised as equity and have a fixed term) for U.S. federal tax purposes that are issued after the "**grandfathering date**", which is the date that is six months after the date on which final U.S. Treasury regulations defining the term foreign passthru payment are published generally, or which are materially modified after the grandfathering date; and (b) any Trust Certificates characterised as equity or which do not have a fixed term for U.S. federal tax purposes, whenever issued. If Trust Certificates are issued on or before the grandfathering date, and additional Trust Certificates of the same series are issued

after that date, the additional Trust Certificates may not be treated as grandfathered, which may have negative consequences for the existing Trust Certificates, including a negative impact on market price.

The United States and a number of other jurisdictions have entered into, or have agreed in substance to, intergovernmental agreements to facilitate the implementation of FATCA (each, an "**IGA**"). Pursuant to FATCA and the "Model 1" and "Model 2" IGAs released by the United States, an FFI in an IGA signatory country could be treated as a "Reporting FI" not subject to withholding under FATCA on any payments it receives. Further, it is expected that an FFI in a Model 1 IGA jurisdiction generally would not be required to withhold under FATCA or an IGA (or any law implementing an IGA) (any such withholding being a "**FATCA Withholding**") from payments it makes. Under each Model IGA, a Reporting FI would still be required to report certain information in respect of its account holders and investors to its home government or to the IRS.

In particular, the Cayman Islands entered into a Model 1 IGA with the United States on 29 November 2013 (which came into force on 14 April 2014) (the "**US IGA**"). The Trustee will be required to comply with the Cayman Islands Tax Information Authority Act (as amended) together with regulations and guidance notes made pursuant to such Act (the "**Cayman FATCA Legislation**") that give effect to the US IGA. To the extent the Trustee cannot be treated as a Non-Reporting Cayman Islands Financial Institution (as defined in the US IGA) by qualifying for one of the categories set out in Annex II thereto (for example by being a Sponsored Investment Entity (as defined therein)), the Trustee may be a "Reporting Cayman Islands Financial Institution" (as defined therein). As such, the Trustee would be required to register with the IRS to obtain a Global Intermediary Identification Number and to report to the Cayman Islands Tax Information Authority any payments made to Specified U.S. Persons with respect to U.S. Reportable Accounts (each such term as defined in the US IGA). The Cayman Islands has also implemented legislation for the purpose of the Common Reporting Standard ("**CRS**") issued by the Organisation for Economic Cooperation and Development ("**Cayman CRS Legislation**"). The Trustee may be a Cayman Reporting Financial Institution under the Cayman CRS Legislation and, as such, required to register with the Cayman Islands Tax Information Authority and report information about its account holders on an annual basis. The Cayman Islands Tax Information Authority will exchange information in connection with U.S. Reportable Accounts with the IRS under the terms of the relevant IGA and information about account holders with other tax authorities in accordance with CRS.

Under the terms of the US IGA, withholding generally should not be imposed on payments made to the Trustee unless the IRS has specifically listed the Trustee as a "Non-Participating Financial Institution", or on payments made by the Trustee to the Certificateholders unless the Trustee has assumed responsibility for withholding under United States tax law.

Whilst the Trust Certificates are in global form and held within Euroclear or Clearstream, Luxembourg (together, the "**ICSDs**"), it is expected that FATCA will not affect the amount of any payments made under, or in respect of, the Trust Certificates by the Trustee, any paying agent and the Common Depository for ICSDs, given that each of the entities in the payment chain between the Trustee and the participants in the ICSDs is a major financial institution whose business is dependent on compliance with FATCA and that any alternative approach introduced under an IGA will be unlikely to affect the Trust Certificates. The documentation in respect of the Trust Certificates expressly contemplates the possibility that the Trust Certificates may go into individual form and therefore that they may be taken out of the ICSDs. If this were to happen, then a non-FATCA compliant holder could be subject to FATCA Withholding. However, individual Trust Certificates will only be printed in remote circumstances.

FATCA is particularly complex and its application is uncertain at this time. The above description is based in part on regulations, official guidance and Model IGAs, all of which are subject to change or may be implemented in a materially different form. Prospective investors should consult their tax advisers on how these rules may apply to the Trustee and to payments they may receive in connection with the Trust Certificates.

Cayman Islands Taxation

The following is a discussion on certain Cayman Islands income tax consequences of an investment in Trust Certificates to be issued under the Programme. The discussion is a general summary of present law, which is subject to prospective and retroactive change. It is not intended as tax advice, does not consider any investor's particular circumstances and does not consider tax consequences other than those arising under Cayman Islands law.

Under existing Cayman Islands laws payments on Trust Certificates to be issued under the Programme will not be subject to taxation in the Cayman Islands and no withholding will be required on the payments to any holder of Trust Certificates nor will gains derived from the disposal of Trust Certificates be subject to Cayman Islands income or corporation tax. The Cayman Islands currently have no income, corporation or capital gains tax and no estate duty, inheritance or gift tax.

The Trustee has received an undertaking from the Governor in Cabinet of the Cayman Islands dated 14 July 2015, pursuant to the Tax Concessions Act (as amended) of the Cayman Islands, that for a period of 20 years from the date of grant of that undertaking no law which is enacted in the Cayman Islands imposing any tax to be levied on profits, income, gains or appreciation shall apply to the Trustee or its operations and, in addition, that no tax to be levied on profits, income, gains or appreciations or which is in the nature of estate duty or inheritance tax shall be payable on or in respect of the shares, debentures or other obligations (which includes the Trust Certificates) of the Trustee or by way of the withholding in whole or part of any relevant payment as defined in the Tax Concessions Act (as amended) of the Cayman Islands.

No capital or stamp duties are levied in the Cayman Islands on the issue, transfer or redemption of Trust Certificates. An instrument transferring title to any Trust Certificates, if brought to or executed in the Cayman Islands, would be subject to Cayman Islands stamp duty. An annual registration fee is payable by the Trustee to the Cayman Islands Registrar of Companies which is calculated by reference to the nominal amount of its authorised capital. At current rates, this annual registration fee is U.S.\$1,128.05. The foregoing is based on current law and practice in the Cayman Islands and this is subject to change therein.

SUBSCRIPTION AND SALE

Trust Certificates may be sold from time to time by the Trustee to any one or more of Arab Banking Corporation (B.S.C.), CIMB Bank Berhad, Labuan Offshore Branch, Dubai Islamic Bank PJSC, Emirates NBD Bank PJSC, First Abu Dhabi Bank PJSC, Gulf International Bank B.S.C., Goldman Sachs International, HSBC Bank plc, Malayan Banking Berhad, Mizuho International plc, SMBC Bank International plc, Standard Chartered Bank and Warba Bank K.S.C.P. or to any dealer appointed by the Trustee (with the prior consent of the ICD) for the purposes of a particular issue of Trust Certificates only (together, the "**Dealers**"). The arrangements under which Trust Certificates may from time to time be agreed to be sold by the Trustee to, and purchased by, Dealers are set out in an amended and restated dealer agreement dated 22 September 2025 (the "**Dealer Agreement**") and made between the Trustee, the ICD and the Dealers, as supplemented by a subscription agreement in relation to the relevant Series of Trust Certificates. Any such agreements together, will, *inter alia*, make provision for the form and terms and conditions of the relevant Trust Certificates, the price at which such Trust Certificates will be purchased by the Dealers and the commissions or other agreed deductibles (if any) payable or allowable by the Trustee, in respect of such purchase. The Dealer Agreement makes provision for the resignation or termination of appointment of existing Dealers and for the appointment of additional or other Dealers either generally in respect of the Programme or in relation to a particular Series of Trust Certificates.

United States

The Trust Certificates have not been and will not be registered under the Securities Act or with any securities regulatory authority of any state or other jurisdiction of the United States. The Trust Certificates may not be offered, sold, pledged or otherwise transferred directly or indirectly within the United States or to, or for the account or benefit of, U.S. Persons (as defined in Regulation S) except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act and applicable state or local securities laws.

Each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has offered and sold any Trust Certificates, and will offer and sell any Trust Certificates: (i) as part of their distribution at any time, and (ii) otherwise until 40 days after the completion of the distribution of all Trust Certificates of the Tranche of which such Trust Certificates are a part, only in accordance with Rule 903 of Regulation S. Each Dealer also agrees that, at or prior to confirmation of sale of Trust Certificates, it will have sent to each distributor, dealer or person receiving a selling concession, fee or other remuneration that purchases Trust Certificates from it during the distribution compliance period a confirmation or notice to substantially the following effect:

"The Securities covered hereby have not been and will not be registered under the U.S. Securities Act of 1933, as amended (the "**Securities Act**"), and may not be offered, sold or delivered within the United States or to, or for the account or benefit of, U.S. persons: (i) as part of their distribution at any time; or (ii) otherwise until 40 days after the completion of the distribution of the Securities, and except in either case in accordance with Regulation S under the Securities Act ("**Regulation S**"). Terms used above have the meanings given to them by Regulation S."

Each Dealer has further represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it, its affiliates or any persons acting on its or their behalf have not engaged and will not engage in any directed selling efforts (as defined in Rule 902(c) under the Securities Act) with respect to any Trust Certificate, and it and they have complied and will comply with the offering restrictions requirement of Regulation S.

Public Offer Selling Restrictions under the Prospectus Regulation

In relation to each Member State of the European Economic Area, each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not made and will not make an offer of Trust Certificates which are the subject of the offering contemplated by this Base Prospectus as completed by the Final Terms in relation thereto to the public in that Member State, except that it may make an offer of such Trust Certificates to the public in that Member State:

For the purposes of this provision, the expression an **"offer of Trust Certificates to the public"** in relation to any Trust Certificates in any Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the Trust Certificates to be offered so as to enable an investor to decide to purchase or subscribe for the Trust Certificates and the expression **"Prospectus Regulation"** means Regulation (EU) 2017/1129.

United Kingdom

Prohibition of sales to UK Retail Investors

Each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not made and will not make an offer of Trust Certificates which are the subject of the offering contemplated by this Base Prospectus as completed by the Final Terms in relation thereto to the public in the UK, except that it may make an offer of such Trust Certificates to the public in the UK:

- (ii) it has complied and will comply with all applicable provisions of the FSMA with respect to anything done by it in relation to any Trust Certificates in, from or otherwise involving the UK.

Each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that no invitation or offer, whether directly or indirectly, has been or will be made to the public in the Cayman Islands to subscribe for the Trust Certificates.

United Arab Emirates (excluding the DIFC and the ADGM)

Each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that the Trust Certificates to be issued under the Programme have not been and will not be offered, sold or publicly promoted or advertised by it in the United Arab Emirates (excluding the DIFC and the ADGM) other than in compliance with any laws applicable in the United Arab Emirates excluding the DIFC and the ADGM) governing the issue, offering and sale of securities.

Kingdom of Saudi Arabia

No action has been or will be taken in the Kingdom of Saudi Arabia that would permit a public offering of the Trust Certificates. Any investor in the Kingdom of Saudi Arabia or who is a Saudi person (a "**Saudi Investor**") who acquires any Trust Certificates pursuant to an offering should note that the offer of Trust Certificates is a private placement under Article 8 of the "Rules on the Offer of Securities and Continuing Obligations" as issued by the Board of the Capital Market Authority (the "**CMA**") resolution number 3-123-2017 dated 27 December 2017, as most recently amended by CMA resolution number 1-53-2025 dated 19 May 2025 (the "**KSA Regulations**"), made through a capital market institution licensed to carry out arranging activities by the Capital Market Authority ("**CMA**") and following a notification to the CMA under Article 10 of the KSA Regulations.

The Trust Certificates may thus not be advertised, offered or sold to any person in the Kingdom of Saudi Arabia other than to "institutional and qualified clients" under Article 8(a)(1) of the KSA Regulations or by way of a limited offer under Article 9 of, or as otherwise required or permitted by, the KSA Regulations. Each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that any offer of Trust Certificates made by it to a Saudi Investor will be made in compliance with Article 10 and either Article 8(a)(1) or Article (9) of the KSA Regulations.

Each offer of Trust Certificates shall not therefore constitute a "public offer", an "exempt offer" or a "parallel market offer" pursuant to the KSA Regulations, but is subject to the restrictions on secondary market activity under Article 14 of the KSA Regulations.

Although HSBC Bank plc is appointed as a Dealer pursuant to the Dealer Agreement, HSBC Saudi Arabia, which is a Capital Market Institution licensed by the CMA, will be the relevant legal entity for all regulated activities in the Kingdom of Saudi Arabia relating to issuances of Trust Certificates under the Programme for which HSBC Bank plc is appointed as a manager, including offering and related applications to the CMA.

- (ii) it has not issued or had in its possession for the purposes of issue, and will not issue or have in its possession for the purposes of issue, in each case whether in Hong Kong or elsewhere, any advertisement, invitation or document relating to the Trust Certificates, which is directed at, or the contents of which are likely to be accessed or read by, the public in Hong Kong (except if permitted to do so under the securities laws of Hong Kong) other than with respect to any Trust Certificates which are or are intended to be disposed of only to persons outside Hong Kong or only to "professional investors" as defined in the SFO and any rules made under the SFO.
