1. **BACKGROUND**

The Islamic Corporation for the Development of the Private Sector (ICD), is an international multilateral financial institution, established by virtue of its Articles of Agreement among its member countries and is an affiliate of the Islamic Development Bank. The headquarters of ICD is located in Jeddah, Saudi Arabia.

ICD was established in November 1999 to support the economic development of its member countries through the provision of finance for private sector projects, promoting competition and entrepreneurship, providing advisory services to the governments and private companies and encouraging cross border investments.
